Queer Victorian Families Duc Dau, Shale Preston, 2015-02-11. The Victorians elevated the home and heteronormative family life to an almost secular religion. Yet alongside the middle class domestic ideal were other families, many of which existed in the literature of the time. *Queer Victorian Families: Curious Relations in Literature* is chiefly concerned with these atypical or queer families. This collection serves as a corrective against limited definitions of family and is a timely addition to Victorian studies. Interdisciplinary in nature, the collection opens up new possibilities for uncovering submerged, marginalized, and alternative stories in Victorian literature. Broad in scope, subjects range from Count Fosco and his animal children in Wilkie Collins's *The Woman in White* to male kinship within and across Alfred Tennyson's *In Memoriam* and Herman Melville's *Moby Dick*, and the nexus between disability and loving relationships in the fiction of Dinah Mulock Craik and Charlotte M Yonge. *Queer Victorian Families* is a wide-ranging and theoretically adventurous exposé of the curious relations in the literary family tree.
