Geopolitics at the Internet's Core Fiona M. Alexander, Laura DeNardis, Nanette S. Levinson, Francesca Musiani, 2025-07-26

Contentious geopolitical conflicts over digital technologies have arisen around a complex set of technical specifications at the Internet s core One of these is the Internet Protocol IP designed for addressing and routing information to its destination China redesigning the Internet Ukraine asking that Russia be disconnected from the Internet The U S surrendering the Internet The Internet Protocol rightly or not has been at the center of many digital policy concerns for decades In examining entanglements between IP and public interest issues Geopolitics at the Internet s Core illuminates how technical infrastructure is now a proxy for political and economic power Ongoing global controversies over the Internet Protocol ecosystem hint at its importance and why IP is a flashpoint

mediating broader conflicts in various cultural and historic contexts Geopolitics at the Internet's Core analyzes the trajectory and possible futures of the Internet Protocol as a space mediating geopolitical and domestic controversies in an increasingly contentious digital world it explains the IP ecosystem a complex combination of virtual resources abstract specifications tangible infrastructure functionally specific systems and the institutions and rules that design and govern these systems With a view toward the future and insights into the governance of emerging technologies this book identifies eight IP related levers of power that illuminate technology governance debates Opening up the black box of the Internet Protocol and related global governance challenges it explains the political battles and the stakes of these battles at the heart of the Internet

Broad Band Claire L. Evans, 2020-07-07 If you loved Hidden Figures or The Rise of the Rocket Girls you'll love Claire Evans breakthrough book on the women who brought you the internet written out of history until now This is a radically important timely work says Miranda July filmmaker and author of The First Bad Man The history of technology you probably know is one of men and machines garages and riches alpha nerds and programmers but from Ada Lovelace who wrote the first computer program in the Victorian Age to the cyberpunk Web designers of the 1990s female visionaries have always been at the vanguard of technology and innovation In fact women turn up at the very beginning of every important wave in technology They may have been hidden in plain sight their inventions and contributions touching our lives in ways we don't even realize but they have always been part of the story VICE reporter and YACHT lead singer Claire L. Evans finally gives these unsung female heroes their due with her insightful social history of the Broad Band the women who made the internet what it is today Seek inspiration from Grace Hopper the tenacious mathematician who democratized computing by leading the charge for machine independent programming languages after World War II Meet Elizabeth Jane Feinler the one woman Google who kept the earliest version of the Internet online and Stacy Horn who ran one of the first ever social networks on a shoestring out of her New York City apartment in the 1980s Join the ranks of the pioneers who defied social convention to become database poets information wranglers hypertext dreamers and glass ceiling shattering dot com era entrepreneurs This inspiring call to action shines a light on the bright minds whom history forgot and shows us how they will continue to shape our world in ways we can no longer ignore Welcome to the Broad Band You're next **ICANN and the WHOIS**
