

"Not only a fine defense of Orwell's politics, but also the most stimulating introduction available to almost every other aspect of his work."

Why Orwell Matters By Christopher Hitchens Sep 11 2003

**Bruce Robbins, Paulo Lemos
Horta, Kwame Anthony Appiah**

Why Orwell Matters By Christopher Hitchens Sep 11 2003:

Mass Media, Mass Propaganda Anthony R. Dimaggio, 2008-01-01 This work examines how the mainstream American media reacts to pro war and anti war themes throughout the War on Terror in regards to the wars in Afghanistan and Iraq Using a political economy approach the author addresses the ways in which corporations that own media reinforce official doctrines and propaganda by contrasting the content of American media to that of other global media

How Hitchens Can Save the Left Matt Johnson, 2023-02-14 Christopher Hitchens was for many years considered one of the fiercest and most eloquent left wing polemicists in the world But on much of today's left he's remembered as a defector a warmonger and a sellout a supporter of the wars in Afghanistan and Iraq who traded his left wing principles for neoconservatism after the September 11 attacks In *How Hitchens Can Save the Left* Matt Johnson argues that this easy narrative gets Hitchens exactly wrong Hitchens was a lifelong champion of free inquiry humanism and universal liberal values He was an internationalist who believed all people should have the liberty to speak and write openly to be free of authoritarian domination and to escape the arbitrary constraints of tribe faith and nation He was a figure of the Enlightenment and a man of the left until the very end and his example has never been more important Over the past several years the liberal foundations of democratic societies have been showing signs of structural decay On the right nationalism and authoritarianism have been revived on both sides of the Atlantic On the left many activists and intellectuals have become obsessed with a reductive and censorious brand of identity politics as well as the conviction that their own liberal democratic societies are institutionally racist exploitative and imperialistic Across the democratic world free speech individual rights and other basic liberal values are losing their power to inspire Hitchens's case for universal Enlightenment principles won't just help genuine liberals mount a resistance to the emerging illiberal orthodoxies on the left and the right It will also remind us how to think and speak fearlessly in defense of those principles

Between the Bullet and the Lie Kristian Williams, 2017-10-30 Rather than provide literary criticism or biography Kristian Williams is most concerned in this felicitous collection to derive George Orwell's method the process he used to translate personal experiences and worldly explorations into democratic anti capitalist principles and convey them to broad audiences in an irresistible fashion Andrew Cornell author of *Unruly Equality* *U S Anarchism in the Twentieth Century* Old debates about democracy vs socialism vs fascism are back Missing from today's versions are the voices of moral clarity those that challenge us to be our best selves in difficult times Kristian Williams has mined the intellect of a man who sixty seven years after his death still has much to offer readers *Between the Bullet and the Lie* highlights the relationship George Orwell sees between aesthetics ethics and politics the difference between honesty and integrity the corruption of language the importance of observation and evidence and the many failures of the Left The result is not a study of sacred decrees from Orwell but an application of his thought to political and literary questions that trouble us today Kristian Williams is the author of *Our Enemies in Blue* *Police and Power in America* *American Methods* *Torture and*

the Logic of Domination and co editor of Life During Wartime Resisting Counterinsurgency **The Unexamined Orwell**

John Rodden, 2012-08-17 A reflection on Orwell as idea that outlines some of the misconceptions and misuses of the Orwell name Modern Fiction Studies The year 1984 is just a memory but the catchwords of George Orwell's novel Nineteen Eighty Four still routinely pepper public discussions of topics ranging from government surveillance and privacy invasion to language corruption and bureaucratese Orwell's work pervades the cultural imagination while others of his literary generation are long forgotten Exploring this astonishing afterlife has become the scholarly vocation of John Rodden who is now the leading authority on the reception impact and reinvention of George Orwell the man and writer as well as of Orwell the cultural icon and historical talisman In The Unexamined Orwell Rodden delves into dimensions of Orwell's life and legacy that have escaped the critical glare He discusses how several leading American intellectuals have earned the title of Orwell's successor including Lionel Trilling Dwight Macdonald Irving Howe Christopher Hitchens and John Lukacs He then turns to Germany and focuses on the role and relevance of Nineteen Eighty Four in the now defunct communist nation of East Germany Rodden also addresses myths that have grown up around Orwell's life including his more than half legendary encounter with Ernest Hemingway in liberated Paris in March 1945 and analyzes literary issues such as his utopian sensibility and his prose style Finally Rodden poses the endlessly debated question What would George Orwell do and speculates about how the prophet of Nineteen Eighty Four would have reacted to world events In so doing Rodden shows how our responses to this question reveal much about our culture's ongoing need to reappropriate Orwell *British Writers and MI5 Surveillance, 1930-1960* James Smith, 2012-12-17 Britain's domestic intelligence agencies maintained secret records on many left wing writers after the First World War Drawing on recently declassified material from 1930 to 1960 this revealing study examines how leading figures in Britain's literary scene fell under MI5 and Special Branch surveillance and the surprising extent to which writers became willing participants in the world of covert intelligence and propaganda Chapters devoted to W H Auden and his associates theatre pioneers Ewan MacColl and Joan Littlewood George Orwell and others describe methods used by MI5 to gather information through and about the cultural world The book also investigates how these covert agencies assessed the political influence of such writers providing scholars and students of twentieth century British literature with an unprecedented account of clandestine operations in popular culture **Twenty-First Century Intelligence** Wesley K. Wark, 2013-09-13 Twenty First Century Intelligence collects the thinking of some of the foremost experts on the future of intelligence in our new century The essays contained in this volume are set against the backdrop of the transforming events of the September 11 terrorist attacks Intelligence plays a central and highly visible role in the global war on terror and in new doctrines of global pre-emption of threats Yet the challenges for intelligence services are great as the twenty first century unfolds This collection will inform and stimulate new thinking about the current strengths and weaknesses of intelligence services and about the future paths that they may follow Behind the controversies

of the present over intelligence performance lie critical questions about how the past and future of an often mysterious but critical arm of the state are linked This book was previously published as a special issue of the journal *Intelligence and National Security* George Orwell Thomas Cushman, John Rodden, 2015-11-17 The year 2003 was the 100th anniversary of the birth of George Orwell one of the most influential authors of the twentieth century Orwell's books are assigned today in over 60 000 classrooms annually In this book essays by prominent writers and scholars explain why his impact continues in a world much changed from his own The essays explore new aspects of Orwell's life and work and his continuing relevance for the interpretation of modern social political and cultural affairs Thematic topics include the use and abuse of 1984 ideas ideologues and intellectuals biography and autobiography literary and stylistic analyses and the reception of Orwell's work abroad The volume is an ideal secondary source for those who continue to be influenced by Orwell's insights and for teachers of Orwell's work Contributors Christopher Hitchens Jonathan Rose Ian Williams Morris Dickstein John Rodden Thomas Cushman Ronald F Thiemann Lawrence Rosenwald Todd Gitlin Erika Gottlieb Dennis Wrong Daphne Patai Jim Sleeper William Cain Lynette Hunter Margery Sabin Vladimir Shalpentokh Miquel Berga Gilbert Bonifas Robert Conquest

Political and Cultural Perceptions of George Orwell Ian Williams, 2017-08-30 This book analyzes George Orwell's politics and their reception across both sides of the Atlantic It considers Orwell's place in the politics of his native Britain and his reception in the USA where he has had some of his most fervent emulators exegetists and detractors Written by an ex-teenage Maoist from Liverpool UK who now lives and writes in New York the book points out how often the different strands of opinion derive from ancestral ideological struggles within the Communist Trotskyist movement in the 30s and how these often overlook or indeed consciously ignore the indigenous British politics and sociology that did so much to influence Orwell's political and literary development It examines in the modern era what Orwell did in his the seductions of simplistic and absolutist ideologies for some intellectuals especially in their reactions to Orwell himself **Why Social Justice Matters** Brian Barry, 2005-03-04 He proposes a number of policies to achieve a more equal society and argues that they are economically feasible *The Never End* John Reed, 2023-07-27 This book presents full history of the origin of Orwell's *Animal Farm* as well as a translation of the Russian Ukrainian source work Has George Orwell lost his saintly luster In *The Never End* rabble rouser dogged investigator and consummate literary stylist John Reed collects two decades of subject Orwell findings previously published in *Pank* *Guernica* *Literary Hub* *The Brooklyn Rail* *The Rumpus* *The New York Press* *The Believer* *Harper's Magazine* and *The Paris Review* Reed's treatment of Orwell is corrective and peerlessly contemporary he views Orwell in a twenty first century global context considering Orwell's collaboration with Cold War intelligence operations US and UK with unfaltering objectivity It's hard to imagine that Orwell in our own moment of global doublethink wouldn't have wanted his devotion to contrariety applied to the literary legacy he left behind *The Never End* is at once a hatchet job and a celebration *Animal Farm* based on a previously unknown Russian short story *Animal Farm* deployed by the CIA MI6

and the Congress for Cultural Freedom Orwell turning over blacklists in a McCarthy esque act of betrayal The Cold War Does it last forever Russia the Axis of Evil and now China But Orwell Course syllabi Literary laurels Snitch Why do we keep coming back For the wrong reasons Or because we know Old Benjamin would want us to know the truth *Tradition* Seth Lerer, 2016 Seth Lerer explores our relationship to the literary past in an age marked by historical self consciousness critical distance and shifts in cultural literacy He examines a range of fiction poetry and criticism in order to understand the ways in which the literary past makes us and how we create canons for reading teaching and scholarship **Our Orwell, Right or Left** C. J. Fusco, 2009-05-27 Writers words have always been used by pundits and politicians in order to further their own agendas but it is probable that no writer s work has been used and misused as frequently and as effectively as George Orwell s Once the champion of Europe s down and out and a self proclaimed advocate of Socialism Orwell was understandably embraced by many on the Left during his own lifetime Following the publications of *Animal Farm* and *Nineteen Eighty Four* and the writer s own death shortly thereafter Orwell also became a patron saint of sorts for many on the Right Within the arenas of political theory and literary criticism this confusing and seemingly contradictory turn of events has resulted in an ongoing battle over the writer s legacy *Our Orwell Right or Left* examines Orwell s reception history in order to decode why critics on both ends of the political spectrum have been compelled to claim Orwell as one of their own and how they have gone about doing so In many cases when Orwell s writing has been misused by those in politics it has alarmingly reflected the same species of dangerous propaganda that Orwell had warned about in his final two books As there is an inherent problem with a situation in which critics have misrepresented the scope and focus of Orwell s writing whether the misrepresentation happens to be intentional or not *Our Orwell Right or Left* takes a close look at the details of Orwell s own writing and juxtaposes what George Orwell had written with the often dubious claims of his proponents Manipulative political propaganda however is but one of the many very dangerous symptoms of repression and tyranny that Orwell had warned against in his writing As *Our Orwell Right or Left* shows there are many aspects of our contemporary culture that are worryingly similar to the Oceania of Orwell s *Nineteen Eighty Four* That Orwell s writing still remains prescient even approaching sixty years following his death proves that he is not only a writer still worthy of being read but that he is also a writer still worth fighting over **What Price Utopia?** Daphne Patai, 2008-05-20 This volume brings together for the first time more than two dozen of Daphne Patai s incisive and at times satirical essays dealing with the academic and intellectual orthodoxies of our time Patai draws on her years of experience in an increasingly bizarre academic world where a stifling politicization threatens genuine teaching and learning Addressing the rise of feminist dogma the domination of politics over knowledge the shoddy thinking and moralizing that hide behind identity politics and the degradation of scholarship her essays offer a resounding defense of liberal values Patai takes aim at the unctuous and also dangerous posturing that has brought us restrictive speech codes harassment policies and a vigilante atmosphere while suppressing plain speaking about

crucial issues But these trenchant essays are not limited to academic life for the ideas and practices popularized there have spread far beyond campus borders Included are two new pieces written especially for this volume one on the bullying tactics of a famous feminist and the other on Islamic fundamentalism **Churchill and Orwell** Thomas E. Ricks,2017 A fascinating dual biography of Winston Churchill and George Orwell with a focus on the pivotal years from the mid 1930s through the 1940s when their farsighted vision and inspired action in the face of the threat of fascism and communism helped preserve democracy for the world **Archives of Authority** Andrew Rubin,2012-07-29 Combining literary cultural and political history and based on extensive archival research Archives of Authority argues that cultural politics specifically America's often covert patronage of the arts played a highly important role in the transfer of imperial authority from Britain to the USA during a critical period after WWII **True to Life** Michael P. Lynch,2005-08-05 Why truth is important in our everyday lives Why does truth matter when politicians so easily sidestep it and intellectuals scorn it as irrelevant Why be concerned over an abstract idea like truth when something that isn't true for example a report of Iraq's attempting to buy materials for nuclear weapons gets the desired result the invasion of Iraq In this engaging and spirited book Michael Lynch argues that truth does matter in both our personal and political lives Lynch explains that the growing cynicism over truth stems in large part from our confusion over what truth is We need to think our way past our confusion and shed our cynicism about the value of truth he writes Otherwise we will be unable to act with integrity to live authentically and to speak truth to power True to Life defends four simple claims that truth is objective that it is good to believe what is true that truth is a goal worthy of inquiry and that truth can be worth caring about for its own sake not just because it gets us other things we want In defense of these truisms about truth Lynch diagnoses the sources of our cynicism and argues that many contemporary theories of truth cannot adequately account for its value He explains why we should care about truth arguing that truth and its pursuit are part of living a happy life important in our personal relationships and for our political values Secret Intelligence Christopher Andrew,Richard J. Aldrich,Wesley K. Wark,2019-07-26 The second edition of Secret Intelligence A Reader brings together key essays from the field of intelligence studies blending classic works on concepts and approaches with more recent essays dealing with current issues and ongoing debates about the future of intelligence Secret intelligence has never enjoyed a higher profile The events of 9/11 the conflicts in Iraq and Afghanistan the missing WMD controversy public debates over prisoner interrogation together with the revelations of figures such as Edward Snowden recent cyber attacks and the rise of hybrid warfare have all contributed to make this a hot subject over the past two decades Aiming to be more comprehensive than existing books and to achieve truly international coverage of the field this book provides key readings and supporting material for students and course convenors It is divided into four main sections each of which includes full summaries of each article further reading suggestions and student questions The intelligence cycle Intelligence counter terrorism and security Ethics accountability and secrecy Intelligence and the new warfare This new edition contains

essays by leading scholars in the field and will be essential reading for students of intelligence studies strategic studies international security and political science in general and of interest to anyone wishing to understand the current relationship between intelligence and policy making *Cosmopolitanisms* Bruce Robbins, Paulo Lemos Horta, Kwame Anthony Appiah, 2017-07-18 An indispensable collection that re-examines what it means to belong in the world Where are you from The word cosmopolitan was first used as a way of evading exactly this question when Diogenes the Cynic declared himself a kosmo polites or citizen of the world Cosmopolitanism displays two impulses on the one hand a detachment from one's place of origin while on the other an assertion of membership in some larger more compelling collective Cosmopolitanisms works from the premise that there is more than one kind of cosmopolitanism a plurality that insists cosmopolitanism can no longer stand as a single ideal against which all smaller loyalties and forms of belonging are judged Rather cosmopolitanism can be defined as one of many possible modes of life thought and sensibility that are produced when commitments and loyalties are multiple and overlapping Featuring essays by major thinkers including Homi Bhabha Jean Bethke Elshtain Thomas Bender Leela Gandhi Ato Quayson and David Hollinger among others this collection asks what these plural cosmopolitanisms have in common and how the cosmopolitanisms of the underprivileged might serve the ethical values and political causes that matter to their members In addition to exploring the philosophy of Kant and the space of the city this volume focuses on global justice which asks what cosmopolitanism is good for and on the global south which has often been assumed to be an object of cosmopolitan scrutiny not itself a source or origin of cosmopolitanism This book gives a new meaning to belonging and its ground-breaking arguments call for deep and necessary discussion and discourse

Reproduction by Design Angus McLaren, 2012-02-01 Modernity in interwar Europe frequently took the form of a preoccupation with mechanizing the natural fears and fantasies revolved around the notion that the boundaries between people and machines were collapsing Reproduction in particular became a battleground for those debating the merits of the modern world That debate continues today and to understand the history of our anxieties about modernity we can have no better guide than Angus McLaren In *Reproduction by Design* McLaren draws on novels plays science fiction and films of the 1920s and 30s as well as the work of biologists psychiatrists and sexologists to reveal surprisingly early debates on many of the same questions that shape the conversation today homosexuality recreational sex contraception abortion euthanasia sex change operations and in vitro fertilization Here McLaren brings together the experience and perception of modernity with sexuality technology and ecological concerns into a cogent discussion of science's place in reproduction in British and American cultural history *Forthcoming Books* Rose Arny, 2003-04
