Why Vietnam Matters An Eyewitness Account Of Lessons Not Learned:

Why Vietnam Matters Rufus C Phillips, 2008-10-01 Rufus Phillips offers an extraordinary inside history of the most critical years of American involvement in Vietnam from 1954 to 1968 and explains why it still matters Describing what went right and then wrong he contends that our failure to understand the Communists our South Vietnamese allies or even ourselves took us down the wrong road of a conventional war until it was too late we missed the war s essential political character Documenting the story from his own personal files now available at the Texas Tech Vietnam Archive as well as from the historical record the former government official paints striking portraits of such key figures as John F Kennedy Maxwell Taylor Robert McNamara Henry Cabot Lodge Hubert Humphrey and Ngo Dinh Diem among others with whom he dealt

Why Counterinsurgency Fails Dennis de Tray, 2018-09-22 This book examines why the U S counterinsurgency campaigns in Iraq and Afghanistan have failed and presents a solution for future counterinsurgency campaigns that was developed and tested in Afghanistan in the hope that it will spark a conversation that will shape the next counterinsurgency war to U S advantage The author argues that both development assistance and counterinsurgency campaigns which often go hand in hand overwhelm weak states with too much money too many projects and too many consultants leading to weaker rather than stronger governments The solution proposed was initially developed by David Petraeus but never effectively implemented Using an insider s perspective this volume explains the details of this solution and the problem with its mis implementation in Afghanistan

Why Vietnam Matters Rufus Phillips, 2008 Rufus Phillips gives an extraordinary inside history of the most critical years of American involvement in Vietnam Describing what went right and then wrong he argues that the U S missed an opportunity to help the South Vietnamese develop a political cause as compelling as that of the Communists by following a big war strategy based on World War II perceptions

Why South Vietnam Fell Anthony James Joes, 2014-10-16 Between 1954 and 1963 President Ngo Dinh Diem against great odds but with U S assistance built a functioning South Vietnamese state But gravely misled by American journalists in Saigon the U S embassy in league with second tier members of the State Department urged certain South Vietnamese generals to stage a coup against Diem resulting in his brutal murder Despite the instability after Diem s murder the South Vietnamese Army performed well during the 1968 Tet Offensive and the 1972 Easter Offensive In proportion to population South Vietnamese Army losses were much greater than American losses Nevertheless the American media ignored South Vietnamese sacrifices and completely misrepresented the consequences of the Tet Offensive The disastrous peace agreement the U S forced on the South Vietnamese in 1973 made continuing American support vital But Congress began to slash aid to South Vietnam so that its soldiers had to fight on with dwindling supplies of fuel ammunition and medicine Under these circumstances the South Vietnamese attempted to regroup their army into the provinces around Saigon an effort that ended in disaster The final chapter reflects on the meaning of the conflict and the tragedy that abandonment by Washington and conquest by Hanoi

brought upon the South Vietnamese people An Appendix presents a strategy for preserving a South Vietnamese state with the commitment of a relatively small number of U S forces *Mavericks of War* Jason S Ridler,2023-06-14 A military historian sheds light on the maverick thinkers who hatched outlandish plots and shaped warfare from WWI to Vietnam and beyond During World War I Oxford trained archeologist Lawrence of Arabia used his knowledge of the Middle East to help organize the Arab revolt against the Ottoman Empire In this entertaining and insightful book Jason Ridler profiles the intellectuals outsiders and eccentrics who followed in Lawrence s footsteps across the next hundred years of warfare those who relied on creativity curiosity and outside the box thinking to shape battlefields from World War II and Vietnam to Iraq and Afghanistan These men were Ivy Leaguers and Oxford scholars anthropologists and archeologists Among them were an ad executive an international activist a Peace Corps veteran an migr journalist and former teenage member of the French Resistance and a diplomat These mavericks and oddballs both men and women were not always heralded or heeded and sometimes they were hated But they each challenged traditional military thought and helped win wars secure peace and change the face of modern military conflict *Anatomy of Victory* John D. Caldwell,2018-11-09 This groundbreaking book provides the first systematic comparison of America s modern wars and why they were won or lost John D Caldwell uses the World War II victory as the historical benchmark for evaluating the success and failure of later conflicts Unlike WWII the Korean Vietnam and Iraqi Wars were limited but they required enormous national commitments produced no lasting victories and generated bitter political controversies Caldwell comprehensively examines these four wars through the lens of a strategic architecture to explain how and why their outcomes were so dramatically different He defines a strategic architecture as an interlinked set of continually evolving policies strategies and operations by which combatant states work toward a desired end Policy defines the high level goals a nation seeks to achieve once it initiates a conflict or finds itself drawn into one Policy makers direct a broad course of action and strive to control the initiative When they make decisions they have to respond to unforeseen conditions to guide and determine future decisions Effective leaders are skilled at organizing constituencies they need to succeed and communicating to them convincingly Strategy means employing whatever resources are available to achieve policy goals in situations that are dynamic as conflicts change quickly over time Operations are the actions that occur when politicians soldiers and diplomats execute plans A strategic architecture Caldwell argues is thus not a static blueprint but a dynamic vision of how a state can succeed or fail in a conflict **The Journal of Military History** ,2008-10 **Military History** ,2008-03 *The Publishers Weekly* ,2008 **Naval History** ,2017
