War in Europe? Thibault Muzergues, 2022-04-19 In this highly provocative and documented book Thibault Muzergues describes how war in Europe is now more likely than it has been for at least the past 30 years how it might come back to Europe and what Europeans can do to avoid getting drawn again in fratricide conflicts Many consider Europe a continent of peace with NATO guaranteeing its security and the EU providing the political glue for a Europe Whole and Free But what if this was not the case anymore What if after a decade of crisis today's Europe was much more fragile than we thought The author challenges our assumptions about peace in Europe and forces us to face the realities of a world that has become much more dangerous Far from being apocalyptic this book serves as an advance warning to the dangers both internal and external that are now closing in on Europe and suggests solutions to avoid them This book will be key reading for those interested in European politics and history the European Union security and strategic studies and more broadly to current affairs and international relations

Civil Society Edyta B. Pietrzak, 2024-08-14 Civil Society Ideas Interpretations Transgressions is essential to learning about the place and importance of civil society in creating and maintaining a liberal democracy Edyta B Pietrzak takes us on a journey of interpretation addressing the critical role the idea of a civil society has for our world and how it has evolved over time She uncovers the meanings of theories and clarifies ways of thinking that are sensitive to peculiarities intermittences contrasts or unique things Part I introduces the theory and key terms What is the public sphere and how can it be understood Is it synonymous with civil society or does it only establish its area of activity It aims to illustrate how social life has changed over centuries and its basic components have been experienced and interpreted in various ways Part II represents a collection of interpretations and approaches to the idea of civil society Pietrzak begins with the traditional Republican interpretation continues with liberal Hegelian sociological and historical materialistic interpretations and concludes with modern communitarian and neo liberal concepts Part III reminds us that civil society is not an abstract concept nor does it

exist in a vacuum or out of context When describing the process of change and transformation in civil society reference must be made to transgressions Here we learn about issues such as transnational civil society citizenship and diversity feminist citizenship and civil society in the era of the Anthropocene to name a few *Debating War* David Lorenzo,2015-08-14 What arguments have critics of American wars and interventions put forward and what arguments do they currently employ Thomas Jefferson Henry Thoreau John Calhoun the Anti Imperialist League Herbert Hoover Charles Lindbergh Martin Luther King Jr and Ron Paul among others have criticized proposals to intervene in other countries enter wars acquire foreign territory and engage in a forward defense posture Despite cogent objections they have also generally lost the argument Why do they lose This book provides answers to these questions through a survey of oppositional arguments over time augmented by the views of contemporary critics including those of Ron Paul Chalmers Johnson and Noam Chomsky Author David J Lorenzo demonstrates how and why a significant number of arguments are dismissed as irrelevant unpatriotic overly pessimistic or radically out of the mainstream Other lines of reasoning might provide a compelling critique of wars and interventions from a wide variety of perspectives and still lose Evaluating oppositional arguments in detail allows the reader to understand problems likely to be faced in the context of policy discussions to grasp important political differences and the potential for alliances among critics and ultimately to influence decision making and America's place in the international power structure **Enhancing Global Governance in a Fragmented World** Henry Huiyao Wang,Mabel Lu

Miao,2024-06-20 This open access book explores the polycrisis currently affecting nearly all nations by exploring key themes such as multilateralism and globalization from the perspective of think tanks from nearly every continent searching for various solutions to the ills that currently plague the world and a way to create a future in which everyone benefits As China's preeminent non governmental think tank the Center for China and Globalization CCG has invited 30 leading figures from the global think tank community to sift through the myriad layers of multilateralism and global governance and provide a contextual analysis of major themes both from a theoretical and practical perspective focusing on China in detail but also examining the world as a whole Think tanks are essential in analyzing current trends and providing potential solutions that aid governments international organizations and business in finding solutions that are beneficial to all As a key source of innovative ideas they have become even more valuable today as the pace of change accelerates geopolitical complexity increases and the world has to deal with global crises that no country can address on their own A common central theme through all of the 25 essays in this book is the need for a more universal inclusive and multilateral approach to reforming global governance It is our hope that the views of the experts from think tanks and other non governmental organizations in this compilation will provide valuable insights to help heal the gaps in our fragmented world **The Bloomsbury**

Handbook of World Theory Jeffrey R. Di Leo,Christian Moraru,2021-11-18 Disciplines from literary studies to environmentalism have recently undergone a spectacular reorientation that has refocused entire fields methodologies and

vocabularies on the world and its sister terms such as globe planet and earth The Bloomsbury Handbook of World Theory examines what world means and what it accomplishes in different zones of academic study The contributors raise questions such as What happens when world is appended to a particular form of humanistic or scientific inquiry How exactly does worlding bear on the theoretical operating system and the history of that field What is the theory or theoretical model that allows world to function in a meaningful way in coordination with that knowledge domain With contributions from 38 leading theorists from a vast range of fields including queer studies religion and pop culture this is the first large reference work to consider the profound effect both within and outside the academy of the worlding of discourse in the 21st century *The Quest for Character* Massimo Pigliucci, 2022-09-27 The author of *How to Be a Stoic* asks what might be philosophy's ultimate question can we learn to be better people Is good character something that can be taught In 430 BCE Socrates set out to teach the vain power seeking Athenian statesman Alcibiades how to be a good person and failed spectacularly Alcibiades went on to beguile his city into a hopeless war with Syracuse and all of Athens paid the price In *The Quest for Character* philosophy professor Massimo Pigliucci tells this famous story and asks what we can learn from it He blends ancient sources with modern interpretations to give a full picture of the philosophy and cultivation of character virtue and personal excellence what the Greeks called arete At heart *The Quest for Character* isn't simply about what makes a good leader Drawing on Socrates as well as his followers among the Stoics this book gives us lessons perhaps even more crucial how we can each lead an excellent life

World Governance Jovan Babić, Petar Bojanić, 2010-06-09 In the age of globalization and with increased interdependence in the world today there is a question we may have to raise Do we need and could we attain a world government capable of ensuring peace and facilitating worldwide well being in a just and efficient way There are obvious and strong arguments in favour of viable and sustainable world governance even for a unified world state Two of them seem to be especially strong security which is becoming more and more a matter of joint concern and sustainability which is increasingly visible in issues such as climate change requiring unified and far reaching action One of the main objections raised against world governance is not that it is impractical but that it is unnecessary and even undesirable There is a fear that world government would be or become tyrannical German philosopher Immanuel Kant devised a project of perpetual peace but he was against a world state advocating instead a kind of confederation of the states in the world Finally if a world government is indeed formed how far should the instruments and tools of such a body reach These and other issues have been explored in this book Covering a wide range of disciplines from philosophy to jurisprudence ethics and social science the book explores how theorists have reflected upon the necessary components of an effective global order

Rethinking Ibn 'Arabi Gregory A. Lipton, 2018-04-02 The thirteenth century mystic Ibn Arabi was the foremost Sufi theorist of the premodern era For more than a century Western scholars and esotericists have heralded his universalism arguing that he saw all contemporaneous religions as equally valid In *Rethinking Ibn Arabi* Gregory Lipton calls this image

into question and throws into relief how Ibn Arabi's discourse is inseparably intertwined with the absolutist vision of his own religious milieu that is the triumphant claim that Islam fulfilled superseded and therefore abrogated all previous revealed religions. Lipton juxtaposes Ibn Arabi's absolutist conception with the later reception of his ideas exploring how they have been read appropriated and universalized within the reigning interpretive field of Perennial Philosophy in the study of Sufism. The contours that surface through this comparative analysis trace the discursive practices that inform Ibn Arabi's Western reception back to the eighteenth and nineteenth century study of authentic religion where European ethno-racial superiority was wielded against the Semitic Other both Jewish and Muslim. Lipton argues that supersessionist models of exclusivism are buried under contemporary Western constructions of religious authenticity in ways that ironically mirror Ibn Arabi's medieval absolutism.
