Without Roots The West Relativism Christianity Islam:

Without Roots Benoît XVI (pape ;), Marcello Pera, 2014 Bringing together their unique vantage points as leaders of Church and State Cardinal Joseph Ratzinger and Marcello Pera challenge us to imagine what can be the future of a civilization that has abandoned its moral and cultural history They call on the West to embrace a spiritual rather than political renewal and to accept the moral values that alone can help us to make sense of changes in technology economics and society *Without Roots* Joseph Ratzinger, Marcello Pera, 2007-01-30 Bringing together their unique vantage points as leaders of Church and State Cardinal Joseph Ratzinger and Marcello Pera challenge us to imagine what can be the future of a civilization that has abandoned its moral and cultural history They call on the West to embrace a spiritual rather than political renewal and to accept the moral values that alone can help us to make sense of changes in technology economics and society Without Roots Pope Benedict XVI, Marcello Pera, 2006-02-13 Pope Benedict XVI and the President of the Italian Senate offer a critique of the spiritual and political crises affecting Europe discussing human rights morality relativism terrorism and relations with the United States **Religious Pluralism** Matthew S. LoPresti, 2023-09-05 Ultimate reality is often characterized in terms of what are thought to be a variety of incompatible concepts like God Dao Brahman sunyata etc Matthew S LoPresti suggests that if we shift to a process metaphysics our horizon of pluralistic understanding shifts as well allowing multiple religious ultimates effective religious practices and their respective salvific projects to simultaneously exist without contradiction Religious Pluralism Towards a Comparative Metaphysics of Religion examines the plausibility of a genuine religious pluralism arguing in favor of the authenticity of a plurality of the world's major religious traditions Responses to the philosophical challenges of religious diversity have often been misidentified as forms of relativism or pluralisms so this book provides a more robust taxonomy to encourage the field to be more uniform and precise LoPresti argues that John B Cobb Jr's Whiteheadian based approach known as Deep Religious Pluralism functions as a non relativistic basis for a meta theology of world religions Through discussions of classical and contemporary South Asian philosophy Western analytic philosophy and process philosophy in addition to the writings of Joseph Ratzinger Pope Benedict XVI LoPresti argues that a proper engagement with religious pluralism requires intimate knowledge of Western and non Western traditions **Facts and Values** Giancarlo Marchetti, Sarin Marchetti, 2016-11-03 This collection offers a synoptic view of current philosophical debates concerning the relationship between facts and values bringing together a wide spectrum of contributors committed to testing the validity of this dichotomy exploring alternatives and assessing their implications The assumption that facts and values inhabit distinct unbridgeable conceptual and experiential domains has long dominated scientific and philosophical discourse but this separation has been seriously called into question from a number of corners The original essays here collected offer a diversity of responses to fact value dichotomy including contributions from Hilary Putnam and Ruth Anna Putnam who are rightly credited with revitalizing philosophical interest in this alleged opposition

Both they and many of our contributors are in agreement that the relationship between epistemic developments and evaluative attitudes cannot be framed as a conflict between descriptive and normative understanding Each chapter demonstrates how and why contrapositions between science and ethics between facts and values and between objective and subjective are false dichotomies Values cannot simply be separated from reason Facts and Values will therefore prove essential reading for analytic and continental philosophers alike for theorists of ethics and meta ethics and for philosophers of economics and law

Salvation in the World Stephan van Erp, Christiane Alpers, Christopher Cimorelli, 2017-09-07

What happens when Edward Schillebeeckx's theology crosses paths with contemporary public theology This volume examines the theological heritage that Schillebeeckx has left behind as well as it critically assesses its relevance for temporary theological scene In tracing the way in which Schillebeeckx observed and examined his own context's increasing secularization and concomitant development toward atheism the contributors to this volume indicate the potential directions for a contemporary public theology that pursues the path which Schillebeeckx has trodden The essays in the first part of this volume indicate a different theological self critique undertaken in response to developments in the public sphere This is followed by a thorough examination of the degree to which Schillebeeckx succeeded in leading Christian theology ahead without merely accommodating the Christian tradition to current societal trends The third part of the volume discusses the issues of climate change social conceptions of progress as well as the evolutionary understandings of the origins and purpose of religions The final part examines Schillebeeckx's soteriology to contemporary discussions about wholeness

Contextualizing Theology in the South Pacific Randall G. Prior, 2019-07-10 This book engages with a widespread contemporary dilemma how do we do theology in a context where the cultures of the people are oral and not literate The nations of the South Pacific from their missionary beginnings inherited an approach to theology that was dominated by Western cultural categories The global movement of contextualization began to impact upon Pacific churches in the 1960s and challenged this inherited approach Significant changes have resulted but the dilemma has remained The dominant approach is still one that is defined by and better suited to literate cultures The consequence is that theology remains an alien enterprise distant from the life of the local churches and distant from the hearts and minds of the indigenous people In facing the dilemma this book exposes the fundamental differences between primary oral cultures and primary literate cultures and identifies the key factors that lie at the heart of the theological problem By addressing each of these in turn the author then paves the way ahead He offers a methodology for theology that is rooted within the oral cultural context of the South Pacific and potentially in any context where oral cultures are the norm The consequences for theology and for theological education are profound
