Seifer, 1998 **Zap! Nikola Tesla Takes Charge** Monica Kulling, 2019-02-05 Growing up in Smiljan Croatia Nikola Tesla dreamed about harnessing the power of Niagara Falls In 1884 he walked down the gangplank into the New York Harbor with four cents in his pocket a book of poems a drawing of a flying machine and a letter of introduction to Thomas Edison the electrical wizard of America Upon meeting Edison sent Tesla to fix the SS Oregon as a test and was so astounded that he offered Tesla a job at his factory Tesla and Edison had different views about electricity Tesla wanted to develop an alternate current while Edison wanted to stick to the direct current system Edison offered Tesla a large sum to make his direct current system more efficient but when the work was done Edison refused to pay Tesla quit and when things were looking bleak he met George Westinghouse who also thought that alternating current was the way to light up America He gave Tesla a job and in 1896 Tesla and Westinghouse built a generator at Niagara Falls that was able to send power as far as Buffalo New York Unmanned Systems of World Wars I and II H. R. Everett, 2015-11-13 The first comprehensive technical history of air land sea and underwater unmanned systems by a distinguished U S Navy roboticist Military drones have recently been hailed as a revolutionary new technology that will forever change the conduct of war And yet the United States and other countries have been deploying such unmanned military systems for more than a century Written by a renowned authority in the field this book documents the forgotten legacy of these pioneering efforts offering the first comprehensive historical and technical accounting of unmanned

air land sea and underwater systems Focusing on examples introduced during the two world wars H R Everett meticulously traces their development from the mid nineteenth century to the early Cold War A pioneering Navy roboticist Everett not only describes these systems in detail but also reverse engineers the designs in order to explain how they operated in real world conditions of the time More than 500 illustrations photographs drawings and plans many of them never before published accompany the text Everett covers the evolution of early wire guided submersibles tracing the development of power propulsion communication and control radio controlled surface craft deployed by both Germany and Great Britain in World War I radio controlled submersibles radio controlled aircraft including the TDR 1 assault drone project in World War II which laid the groundwork for subsequent highly classified drone programs and remote controlled ground vehicles including the Wehrmacht s Goliath and Borgward demolition carriers

AC/DC Tom McNichol,2011-01-06 AC DC tells the little known story of how Thomas Edison wrongly bet in the fierce war between supporters of alternating current and direct current The savagery of this electrical battle can hardly be imagined today The showdown between AC and DC began as a rather straightforward conflict between technical standards a battle of competing methods to deliver essentially the same product electricity But the skirmish soon metastasized into something bigger and darker In the AC DC battle the worst aspects of human nature somehow got caught up in the wires a silent deadly flow of arrogance vanity and cruelty Following the path of least resistance the war of currents soon settled around that most primal of human emotions fear AC DC serves as an object lesson in bad business strategy and poor decision making Edison s inability to see his mistake was a key factor in his loss of control over the operating system for his future inventions not to mention the company he founded General Electric

World's Great Inventors Rajni Das, World s Great Inventors is an inspiring and educational book that celebrates the brilliant minds who transformed the world through innovation and creativity From the genius of Thomas Edison and Nikola Tesla to the groundbreaking work of Marie Curie Alexander Graham Bell and Leonardo da Vinci this book explores the lives struggles and triumphs of inventors who changed the course of history Each chapter delves into the personal journey of an inventor highlighting their major inventions the impact of their work on society and the legacy they left behind Written in engaging and accessible language the book is perfect for students educators young readers and anyone curious about the stories behind the world s greatest inventions
