*National Union Catalog* Library of Congress, 1979 Includes entries for maps and atlases      **Natural Resource Year in Review**,      *Star Carr Volume 1* Nicky Milner, Chantal Conneller, Barry Taylor, 2018-04-12 This first volume of Star Carr provides an interpretation of the Star Carr site one of the most important Mesolithic sites in Europe Discovered in the late 1940s by John Moore and then excavated by Grahame Clark from 1949 1951 the site is famous in the archaeological world for its wealth of rare organic remains including significant wooden artefacts However since the original excavations there has been much debate about how the site was used was it a residential base camp a hunting camp or even a ritual site The 2003 2015 excavations directed by Conneller Milner and Taylor aimed to answer these questions In use for around 800 years the Star Carr site is much larger and more complex than ever imagined The excavations show that Mesolithic groups were highly invested in this place and continued to occupy the site despite changes in climate The findings include the oldest evidence for houses in Britain large wooden platforms along the edge of the lake antler headdresses and a unique engraved shale pendant which represents the earliest form of Mesolithic art in Britain There is evidence for activity areas such as crafts and tool repair associated with structures an axe factory as well as a number of caches New finds of antler frontlets

have increased our understanding of the diversity of human interactions with animals If these do not get a gong something will have to be done about archaeology book awards Mike Pitts British Archaeology Despite the degradation these excavations have provided a new understanding of life in the Early Mesolithic particularly enhancing our understanding of how important wood a material rarely recovered was for Mesolithic people The findings challenge many of the preconceived views of this period in terms of the character and scale of activity and the degree of investment in a particular place in the landscape

**Luna: Wolf Moon** Ian McDonald, 2024-08-06 For all the enjoyable intrigue he concocts McDonald never lets us forget that the Moon is a frontier that basically just wants to kill us Chicago Tribune A Dragon is dead Corta Helio one of the five family corporations that rule the Moon has fallen Its riches are divided up among its many enemies its survivors scattered Eighteen months have passed The remaining Helio children Lucasinho and Luna are under the protection of the powerful Asamoahs while Robson still reeling from witnessing his parent s violent deaths is now a ward virtually a hostage of Mackenzie Metals And the last appointed heir Lucas has vanished off the surface of the moon Only Lady Sun dowager of Taiyang suspects that Lucas Corta is not dead and more to the point that he is still a major player in the game After all Lucas always was the schemer and even in death he would go to any lengths to take back everything and build a new Corta Helio more powerful than before But Corta Helio needs allies and to find them the fleeing son undertakes an audacious impossible journey to Earth In an unstable lunar environment the shifting loyalties and political machinations of each family reach the zenith of their most fertile plots as outright war erupts Luna Wolf Moon continues Ian McDonald s saga of the Five Dragons The fights and vengeance that follow are more vicious and intricate than anything in Game of Thrones full of great acts of self sacrifice and viciousness alike brave cavalry charges and last stands cowardice and avarice Boing Boing
