Women And The Politics Of Class:

Women and the Politics of Class Johanna Brenner, 2000-09 Drawing on explorations of the labour movement and working class politics Brenner provides a materialist approach to one of the most important issues of feminist theory today ethnicity the intersection of race nationality gender sexuality and class

The Women's Liberation Movement and the Politics of Class in Britain George Stevenson, 2019-02-21 This is the first study of the British Women's Liberation Movement's relationship with class politics It explores the meaning of class to women's liberationists identities and activism both nationally and regionally using a previously neglected feminist cluster in North East England as a case study Stevenson demonstrates that British feminism was shaped fundamentally by its relationship to synthesis with and rejection of class politics Through these processes feminists recognised how post war changes in the economy and gender roles were reshaping class and the Women's Liberation Movement attempted to remake class politics in response However socio economic and cultural class differences between the women involved linked to occupation education and background remained intractable obstacles causing tensions within groups fragmentations into specific class based groups and the ultimate failure of the movement to coalesce into a coherent coalition with labour politics despite great levels of solidarity around particular struggles Examining regional feminism against the national backdrop *The Women's Liberation Movement and the Politics of Class in Britain* provides an engaging exploration of the fruitful but challenging relationship between British feminism and class politics in a capitalist society

Women, Politics and Change Louise A. Tilly, Patricia Gurin, 1990-06-21 *Women Politics and Change* a compendium of twenty three original essays by social historians political scientists sociologists psychologists and anthropologists examines the political history of American women over the past one hundred years Taking a broad view of politics the contributors address voluntarism and collective action women's entry into party politics through suffrage and temperance groups the role of nonpartisan organizations and pressure politics and the politicization of gender Each chapter provides a telling example of how American women have behaved politically throughout the twentieth century both in the two great waves of feminist activism and in less highly mobilized periods The essays are unusually well integrated not only through the introductory material but through a similarity of form and extensive cross references among them in raising central questions about the forms bases and issues of women's politics as well as change and continuity over time Tilly Gurin and the individual scholars included in this collection have provided us with a survey of the latest research and an agenda for the future *Contemporary Sociology* This book is a necessary addition to the scholar's bookshelf and the student's curriculum Cynthia Fuchs Epstein professor of sociology City University of New York Graduate Center

Women and Politics Worldwide Barbara J. Nelson, Najma Chowdhury, Nājamā Caudhurī, 1994-01-01 This is the first book to analyse the complexities of women's political participation on a cross national scale and from a feminist perspective Surveying forty three countries chosen to represent a variety of political systems regions and levels of economic development

questions of women's status power means and methods of reform are addressed on a global scale Includes chapters on the following countries Argentina Australia Bangladesh Bolivia Brazil Canada China Costa Rica Cuba Czechoslovakia former Egypt France Germany Ghana Great Britain Greece Hong Kong Hungary India Israel Japan Kenya Korea Republic of South Korea Mexico Morocco Nepal The Netherlands Nigeria Norway Palestine Papua New Guinea Peru The Philippines Poland Puerto Rico South Africa Spain Sudan Switzerland Turkey Union of Soviet Socialist Republics former United States Uruguay

Social Feminism, Labor Politics, and the Law Sybil Lipschultz, 2013-02-01 Equal rights for women in the workplace is a critical aspect of the twentieth century civil rights movement as well as an issue of academic and public interest Bringing together legal rulings and commentary this three volume collection documents the development of legal protections for women in the workplace The comprehensive coverage encompasses the major legal and constitutional issues including the legal arguments that lead to the reduction of working hours for women and the argumentation that framed the debates over minimum wage legislation The set also presents more contemporary issues of gender equality versus gender difference in matters such as maternity leave and health hazards in the workplace for pregnant women As the interest in the intersection of law and women's studies surges this important new collection will become an essential guide to students and scholars as well as lay readers This volume is available on its own or as part of the three volume set *Women the Law and the Workplace* For a complete list of the volume titles in this set see the listing for *Women the Law and the Workplace*

The Dynamics of Working-class Politics Michael Savage, 1987 In an important contribution to a perennial debate Dr Savage argues that over concentration on national labour movements has ignored the variety of local political strategies developed by working class movements these variations show that working class politics develops on the basis of different types of solidarity rooted in various forms of local social structure Such mutations are not a recent development testifying to the decline of class politics but have been an enduring feature of capitalist societies In a detailed case study of Preston Lancashire Dr Savage shows how the strategies and strengths of the various political parties changed between 1880 and 1940 as workplace solidarities gave way to neighbourhood based ones and as changing gender relations in the textile industry facilitated the organisation of women Its sophisticated use of sociological theory and detailed empirical analysis distinguish *The Dynamics of Working Class Politics* as one of the more important essays in historical sociology published in past years

Women, Class And Education Jane Thompson, 2002-06-01 Making use of theory reflection narrativity and auto biographical writing Jane Thompson provides a comprehensive understanding of what learning really means and what education can contribute to the struggles of working class women intent on changing the circumstances of their lives Organized into three parts in the first section Thompson draws on autobiographical experience to root theoretical understanding in the authority of personal knowledge In part two she illustrates how theoretical analysis can inform arguments about women's changing relationships to class community consciousness and education In the final part she provides detailed examples of educational work she has been involved in
