Video Enhanced Reflective Practice Professional Development Through Attuned Interactions:

Video Enhanced Reflective Practice Liz Todd, Miriam Landor, Hilary Kennedy, 2015-04-21 This edited book presents the applications theory and research behind Video Enhanced Reflection Practice a professional development tool which enables professionals and trainees to analyse their own practice to make more informed decisions about how to improve their communication therapeutic or teaching skills in more problematic situations

Research Methods for Pedagogy Melanie Nind, Alicia Curtin, Kathy Hall, 2016-10-06 Aspects of pedagogy are frequently researched but the concept itself is poorly understood More than just teaching and learning pedagogy is about values identities relationships and interactions bounded by context As such researchers of pedagogy face the challenge of working out what constitutes pedagogical texts data or evidence and how these can be generated and understood Research Methods for Pedagogy begins by exploring the different conceptualisations of pedagogy and their implications for how it is researched The authors reflect on how their sociocultural stance on pedagogy influences the methods they choose to focus on in the book Moving beyond just schools and formal pedagogies into informal and everyday pedagogies the authors use a range of case studies across educational sectors and cultures to discuss methods for researching pedagogy Common approaches such as ethnography and action research are included alongside some quantitative and quasi experimental methods and often less familiar participatory multimodal and reflective methods The authors demonstrate the relationships between theoretical stance pedagogical context and research approach Finally the book addresses the complexity of pedagogy research through discussion of particular ethical and relational aspects as it highlights innovations and developments in research methods for pedagogy Boxed case studies reflections on real research projects a glossary of key terms and an annotated list of further reading all help to guide students and scholars through their research design and choice of methods in this area

Adult Interactive Style Intervention and Participatory Research Designs in Autism Lila Kossvaki, 2017-09-13 Regardless of their cognitive and linguistic abilities people with autism can often find it difficult to develop basic communicative skills that are necessary to gain full control over their environment and maintain their independence Building on the author's own cutting edge research **Adult Interactive Style Intervention and Participatory Research Designs in Autism** examines the impact that the interactive style of neurotypical individuals could have on the spontaneous communication of children with autism This book provides clear and detailed guidance on how to conduct research into autism in real world settings such as schools and homes Kossvaki critically evaluates a wealth of relevant case studies and focuses on a number of methodological issues that researchers are likely to face when carrying out research of this complex nature The author walks the reader through present literature on the importance of spontaneous communication and the atypical way that this tends to develop in autism before bringing the results of her own research to bear on the question of how the interactive styles of neurotypical individuals can impact on the spontaneous communication of people with autism **Adult Interactive Style Intervention and**

The Guide to Reflective Practice in Conflict Resolution

Michael Lang, 2019-03-08 This book is a commonsense guide to becoming a reflective practitioner written by a practitioner for practitioners Relying on actual practice situations stories and self guided exercises it responds to the questions Why should professionals care about reflective practice How do its principles and methods increase competence What characteristics distinguish reflective practitioners Every person in a conflict resolution process sees the world differently and acts in a distinctive manner Yet by following well developed practice routines practitioners often fail to consider the unpredictability of human interactions and overlook behaviors that are inconsistent with their expectations To respond effectively to surprising and unpredictable events this book encourages practitioners to adapt their thinking so they can use their knowledge and skills when situations do not match their assumptions or are inconsistent with their practice routines

Reflective Practice Essentials Sam Illaiee, 2023-02-12 Dedicated to you The reader who strive to improve If You take nothing more than these few words I will be happy The capacity to look back on one s own actions in order to participate in an ongoing process of education and growth is the essence of reflective practice Reflective practice is a continuous learning process in which people recall their own actions as a source of personal and professional development Reflective practice asserts that experience does not always lead to learning but that it is the reflection on one s experiences that leads to learning and personal growth This can be used as a key to successful learning and development by students and educators Reflective practice can help professionals develop the critical thinking and decision making skills required for continuous learning and quality improvement Reflective practice allows students to consider how their work meets established criteria evaluate the effectiveness of their efforts and plan for future improvement We can use reflective practice methods to look at their own actions and feelings as well as the results and experiences of those actions in order to improve our professional style and educational practice We sincerely hope that what you have to read has a lot to offer In the first chapter you will be presented with an introduction to reflection with regard to the benefits that affect professional practice It looks into important topics like the sharing of practice based knowledge giving people more power influencing and making changes and the importance of reflective thinking in relation to education experience and professional practice You will gain insight into what styles of reflection work best for you by reading the chapter on reflective methods The idea of reflective writing as a strategy for in depth self directed learning is presented and provides some illuminating and encouraging advice as well as an introduction to the practice of reflective writing It is a guide to getting started with reflection It draws on information from earlier chapters of the book and provides additional advice cautions helpful frameworks and new examples to assist you in starting out on your journey with reflection A practitioner can find a wealth of advice and suggestions in the chapter that focuses on group reflection This book was finished when the small chapter that focuses on clinical supervision was added to it The chapter draws on the author s experiences in leading multi professional teams discusses how inter and intra

professional supervision is supportive to best practice and examines the issues surrounding supervision for supervisors To put it simply we want to pique your interest in self reflection We want to do this in a way that stimulates your mind to consider the problems at hand and compels you to examine the perspective through which you see the world **An**
