Henley, *Inside Stories* Michael Huey, 2021-01-12 Art historian and conceptual artist Michael Huey returns again and again to the topics loss legacy and the archive in his work including that of a journalist covering historical architecture in central Europe and beyond In search of a variety of expressions of life and passion he has for more than 30 years written about interiors home in the broadest sense for newspapers and magazines starting with The Home Forum the arts and letters page of The Christian Science Monitor and continuing for The World of Interiors German AD nest and Cabana This book contains a selection of Michael Huey's very best stories comprising over 70 superb articles accompanied by the author's inspiring photographs Through this lens we travel from hidden gems of the Baroque to forgotten places of the 19th century to Vienna's Art Nouveau and on to recent times But always he shows us homes interiors and people lovingly interwoven with art **The Sinews of Habsburg Power** William D. Godsey, 2017-12-29 The Sinews of Habsburg Power explores the domestic foundations of the immense growth of central European Habsburg power from the rise of a permanent standing army after the Thirty Years War to the end of the Napoleonic wars With a force that grew irregularly in size from around 25 000 soldiers to as many as half a million in the War of the Sixth Coalition the Habsburg monarchy participated in shifting international constellations of rivalry

from western Europe to the Near East and in some two dozen partly overlapping armed conflicts Raising forces of such magnitude constituted a central task of Habsburg government one that ultimately required the cooperation of society and its elites The monarchy's composite territorial structures in the guise of the Lower Austrian Estates a leading representative body and privileged corps formed a vital if changing element underlying Habsburg international success and resilience With its capital at Vienna the archduchy below the river Enns the historic designation of Lower Austria was geographically politically and financially a key Habsburg possession Fiscal military exigency induced the Estates to take part in new and evolving arrangements of power that served the purposes of government in turn the Estates were able in previously little understood ways and within narrowing boundaries to preserve vital interests in a changing world The Estates survived because they were necessary not only thanks to their increasing financial potency but also because they offered a politically viable way of exacting ever larger quantities of money men and other resources from local society These circumstances would persist as ruling became more regularized formalized and homogenized and as the very understanding of the Estates as a social and political phenomenon was evolving
