North Vietnamese Soldier Chris McNab, 2020-09-17 The tactics and technologies of modern air assault vertical deployment of troops by helicopter or similar means emerged properly during the 1950s in Korea and Algeria Yet it was during the Vietnam War that helicopter air assault truly came of age and by 1965 the United States had established fully airmobile battalions brigades and divisions including the 1st Cavalry Division Airmobile This division brought to Vietnam a revolutionary new speed and dexterity in battlefield tactics using massed helicopters to liberate its soldiers from traditional overland methods of combat manoeuvre However the communist troops adjusted their own thinking to handle airmobile assaults Specializing in ambush harassment infiltration attacks and small scale attrition the North Vietnamese operated with light logistics and a deep familiarity with the terrain They optimized their defensive tactics to make landing zones as hostile as possible for assaulting US troops and from 1966 worked to draw them into Hill Traps extensive kill zones specially prepared for defence in depth By the time the 1st Cavalry Division Airmobile withdrew from Vietnam in 1972 it had suffered more casualties than any other US Army division Featuring specially commissioned artwork archive photographs and full colour battle maps this study charts the evolution of US airmobile tactics pitted against North Vietnamese countermeasures The two sides are analysed in detail including training logistics weaponry and organization **US Helicopter Pilot in**

Vietnam Gordon L. Rottman, 2011-09-20 The helicopter changed war forever This book examines the range of duties helicopter pilots carried out in Vietnam from air lift med evac and fire support to landing in high volume crossfires in Hot LZs Protected by little more than an armoured seat operating in terrible conditions and flying long hours these brave men led hard dangerous lives and casualties were high Following these pilots from initial deployment through to the deadly thrill of combat in a war zone Vietnam veteran Gordon L Rottman's book is a crucial examination of the pilots who fought so valiantly for their country Often unmoved by the politics of the war conflicts at home and other social issues the Vietnam helicopter pilots just wanted to fly As the saying went who needs drugs I'm already high **US-China Strategic Competition** Muhammad Ali Baig, 2025-02-18 The book maps the strategic competition between the U S and China its history and the contemporary outlook of their armed forces It analyses the wars fought by each of these forces their military operations operations other than war and draws up a comparative analysis between the military doctrines of both nations The author

examines the implications of American and Chinese military doctrine and the varying degrees of cooperation competition and potential conflict in the Western Pacific Finally the book argues for possibilities of cooperation between the two superpowers and suggests ways of minimising potential future conflict The volume will be of great interest to scholars and researchers of international relations military and strategic studies and Asian studies
