Dictionary of Portuguese Loanwords in the Languages of Sub-Saharan Africa Sergio Baldi, 2023-10-16 The main purpose of this dictionary is twofold On the one hand it provides the scholar of African studies with a tool to identify the possible Portuguese origin of terms present in African languages and on the other it offers those who are interested in Portuguese culture an overview of the presence of its lexicon in African languages No doubt the Portuguese were among the first Europeans to explore the world outside of Europe and as such they were also the first to introduce that world to European concepts and words This book is the result of a long and detailed work on texts in African languages as also shown by the rich bibliography in the dictionary

Etymologisch woordenboek van het Nederlands Frans Debrabandere, Arend Quak, 2009 Een ander uniek kenmerk van het Etymologisch woordenboek van het Nederlands is het systematisch bronnenonderzoek naar oude dateringen van woorden en de ontwikkeling van woordbetekenissen Vooral dit laatste aspect krijgt bijzondere aandacht in het woordenboek waar de betekenisontwikkeling in het Nederlands afwijkt van die in verwante talen geeft het Etymologisch woordenboek aan welke culturele historische en taalkundige veranderingen hierop van invloed zijn geweest Alle dateringen van zowel de woorden als de ontwikkeling van woordbetekenissen zijn voorzien van controleerbare bron-aanduidingen Archaeology of African Plant Use Chris J Stevens, Sam Nixon, Mary Anne Murray, Dorian Q Fuller, 2016-07 The first major synthesis of African archaeobotany in decades this book significantly advances our knowledge of relationship between agriculture and social complexity The Dawn of Dutch Michiel de Vaan, 2017-12-14 The Low Countries are famous for their radically changing landscape over the last 1 000 years Like the landscape the linguistic situation has also undergone major changes In Holland an early form of Frisian was spoken until very roughly 1100 and in parts of North Holland it disappeared even later The hunt for traces of Frisian or Ingvaenonic in the dialects of the western Low Countries has been going on for around 150 years but a synthesis of the available evidence has never appeared The main aim of this book is to fill that gap It follows the lead of many recent studies on the nature and effects of language contact situations in the past The topic is approached from two different angles Dutch dialectology in all its geographic and diachronic variation and comparative Germanic linguistics In the end the minute details and the bigger picture merge into one possible account of the early and high medieval processes that determined the make up of western Dutch The Oxford Handbook of Names and Naming Carole Hough, 2016-05-03 In this handbook scholars from around the world offer an up to date account of the state of the art in different areas of onomastics in a format that is both useful to specialists in related fields and accessible to the general reader Since Ancient Greece names have been regarded as central to the study of language and this has continued to be a major theme of both philosophical and linguistic enquiry throughout the history of Western thought The investigation of name origins is more recent as is the study of names in literature Relatively new is the study of names in society which draws on techniques from sociolinguistics and has gradually been gathering momentum over the last few decades The structure of this volume reflects the emergence of the main branches of name studies in roughly chronological order The first Part focuses on name theory and outlines key issues about the role of names in language focusing on grammar meaning and discourse Parts II and III deal with the study of place names and personal names respectively while Part IV outlines contrasting approaches to the study of names in literature with case studies from different languages and time periods Part V explores the field of socio onomastics with

chapters relating to the names of people places and commercial products Part VI then examines the interdisciplinary nature of name studies before the concluding Part presents a selection of animate and inanimate referents ranging from aircraft to animals and explains the naming strategies adopted for them *CIRCE ICT & KLASSIEKE TALEN IN EUROPA Een introductie tot het gebruik van ICT door leerkrachten klassieke talen* Julian Morgan (Red.), Veerle De Troyer, a.o., *Onze taal* Genootschap Onze Taal (Den Haag),2008 *Feminisme gaat de wereld redden* Lauren Bastide,2023-07-13 In het actuele urgente Feminisme gaat de wereld redden verweeft Bastide feministische visie met haar persoonlijke ervaringen als vrouw die streeft naar gelijkheid Voor de lezers van Annie Ernaux Als we het hebben over de positie van vrouwen komt alles samen stelt journalist en activist Lauren Bastide Feminisme gaat ook over liefde familie rechtspraak gezondheid werk en zelfs onze omgang met de natuur In Feminisme gaat de wereld redden verweeft Bastide feministisch gedachtegoed met haar persoonlijke ervaringen als een vrouw die heeft te lijden onder opgelegde rolpatronen angst voor ouder worden en seksueel geweld Alle hoop is nog niet verloren Met verrassende inzichten en aangrijpende verhalen weet Bastide antwoorden te formuleren op de urgentste vragen van onze tijd Ze durft te dromen van verbetering van een wereld waarin we allemaal vrij zijn om onszelf te zijn en onbelemmerd lief te hebben van een samenleving waarin we voor elkaar zorgen en misstanden rechtgezet worden Een betere toekomst voor iedereen Het feminisme neemt ons mee op de weg daarnaartoe Lauren Bastide is een nieuwe feministische stem in de traditie van Simone de Beauvoir en Annie Ernaux Met een voorwoord van Milou Deelen Een vreugdevol boek dat pleit voor een vrijere samenleving **Le Temps Translation and Transfer of Knowledge in Encyclopedic Compilations, 1680-1830** Clorinda Donato,Hans-Jürgen Lüsebrink,2021-08-31 From its modern origins in seventeenth century France encyclopedic compilations met the need for the dissemination of information in a more flexible format one that eschewed the limits of previous centuries of erudition The rise of vernacular languages dovetailed with the demand for information in every sector sparking competition among nations to establish the encyclopedic paper empires that became symbols of power and potential The contributors to this edited collection evaluate the long overlooked phenomenon of knowledge creation and transfer that occurred in hundreds of translated encyclopedic compilations over the long eighteenth century Analysing multiple instances of translated compilations **Translation and Transfer of Knowledge in Encyclopedic Compilations 1680 1830** expands into the vast realm of the multilingual encyclopedic compilation the most tangible proof of the global enlightenment Through the presentation of an extensive corpus of translated compilations this volume argues that the true site of knowledge transfer resided in the transnational movement of ideas exemplified by these compendia The encyclopedia came to represent the aspiring nation as a viable economic and political player on the world stage the capability to tell knowledge through culture became the hallmark of a nation s cultural capital symbolic of its might and mapping the how why and where of the global eighteenth century **Groot woordenboek hedendaags Nederlands** Cora Bastiaansen,2008 **On Multiple Source Constructions in Language Change** Hendrik De Smet,Lobke

Ghesquière, Freek Van de Velde, 2015-11-15 In much writing on language change there is a tacit assumption that change operates on a single source construction to produce an innovative target construction This volume challenges this assumption by showing that many changes involve interactions between multiple source constructions In fact the involvement of multiple source constructions is unexceptional The phenomenon is observed in phonology morphology syntax and semantics It is seen in language internal change as well as in contact induced change Interactions may obtain between independent but historically related constructions as well as between historically unrelated constructions The contributions to this volume on the one hand present specific case studies on changes involving multiple source constructions in various domains of grammar and in a variety of languages On the other hand they discuss how such changes can be accommodated in current theoretical models of language Originally published in *Studies in Language* Vol 37 3 2013

Current Projects in Historical Lexicography John Considine, 2010-04-16 *Current Projects in Historical Lexicography* brings together seven papers by present and recent editors of historical dictionaries and lexical databases The collection is introduced with an overview of the history of historical lexicography from the ancient world to the present day with particular emphasis on the major nineteenth century dictionaries of German French English Dutch Swedish and Danish and on their successors In the first paper Javier Martín Arista describes the present state of and the prospects for the Nerthus lexical database of Old English The next two introduce specialized dictionaries of the language of medieval and early modern texts Fernando Tejedó Herrero's comprehensive dictionary of the language of the great thirteenth century lawcode *Siete Partidas* and Juhani Norri's *Dictionary of Medical Vocabulary in English 1375-1530* Marijke Mooijaart's paper discusses the online integration of the four historical dictionaries which cover Dutch from the earliest times to the twentieth century The next two papers Stefan Dollinger on the *Dictionary of Canadianisms on Historical Principles and the Bank of Canadian English* and Maggie Scott on the *Concise Scots Dictionary* describe projects to revise twentieth century historical dictionaries as the language varieties which they register evolve Finally Jeremy Bergerson's paper presents a project for an etymologically rich historical dictionary of Afrikaans An appendix to the volume comprises two previously unpublished short documents by Katherine Barber and John Considine which bear on the history of the *Dictionary of Canadianisms* revision project The contributions to this volume offer a rare set of insights into ongoing lexicographical work addressing both methodological issues such as inclusion criteria and the balance between diachronic and synchronic coverage and practical issues such as publication media and funding
