Solar Cells Leonid A. Kosyachenko, 2011-11-02 The first book of this four volume edition is dedicated to one of the most promising areas of photovoltaics which has already reached a large scale production of the second generation thin film solar modules and has resulted in building the powerful solar plants in several countries around the world Thin film technologies using direct gap semiconductors such as CIGS and CdTe offer the lowest manufacturing costs and are becoming more prevalent in the industry allowing to improve manufacturability of the production at significantly larger scales than for wafer or ribbon Si

modules It is only a matter of time before thin films like CIGS and CdTe will replace wafer based silicon solar cells as the dominant photovoltaic technology Photoelectric efficiency of thin film solar modules is still far from the theoretical limit The scientific and technological problems of increasing this key parameter of the solar cell are discussed in several chapters of this volume Frontiers of Solid State Chemistry Shou-Hua Feng,Jie-Sheng Chen,2002 Solid state chemistry is a

multidisciplinary field that deals with the synthesis structural characterization and properties of various solids and it has been playing a more and more important role in the design and preparation of advanced materials This book includes the excellent research results recently obtained by a wide spectrum of solid state chemists both from China and from abroad Among the distinguished contributors are C N R Rao M Greenblatt and Y T Qian to name a few A variety of subjects representing the frontiers of solid state chemistry which are categorized into solids with electrical optical and magnetic properties porous solids and catalysts hybrid inorganic organic solids solid nanomaterials and new synthetic methods and theory are presented This book will benefit readers who are interested in the chemistry and physics of solids as well as materials scientists and engineers The proceedings have been selected for coverage in Chemistry Citation Index™ Index to Scientific Technical Proceedings ISTP CDROM version ISI Proceedings Applied Mechanics, Mechatronics Automation & System Simulation J.Y.
