**Network TV** Michael Ray FitzGerald,2013-12-24 The American Indian has figured prominently in many films and television shows portrayed variously as a villain subservient friend or a hapless victim of progress Many Indian stereotypes that were derived from European colonial discourse some hundreds of years old still exist in the media today Even when set in the contemporary era novels films and programs tend to purvey rehashed tropes such as Pocahontas or man Friday In Native Americans on Network TV Stereotypes Myths and the Good Indian Michael Ray FitzGerald argues that the colonial power of the U S is clearly evident in network television s portrayals of Native Americans FitzGerald contends that these representations fit neatly into existing conceptions of colonial discourse and that their messages about the Good Indian have become part of viewers understandings of Native Americans In this study FitzGerald offers close examinations of such series as The Lone Ranger Daniel Boone Broken Arrow Hawk Nakia and Walker Texas Ranger By examining the traditional role of stereotypes and their functions in the rhetoric of colonialism the volume ultimately offers a critical analysis of images of the Good Indian minority figures that enforce the dominant group s norms A long overdue discussion of this issue Native Americans on Network TV will be of interest to scholars of television and media studies but also those of Native American studies subaltern studies and media history      **Mass Media in America** Don R. Pember,1987      Access ,1978      *World Guide to Television* ,1999      **The Columbia History of American Television** Gary Edgerton,2007-10-12 Television is a form of media without equal It has revolutionized the way we learn about and communicate with the world and has reinvented the way we experience ourselves and others More than just cheap entertainment TV is an undeniable component of our culture and contains many clues to who we are what we value and where we might be headed in the future Media historian Gary R Edgerton follows the technological developments and increasing cultural relevance of TV from its prehistory before 1947 to the Network Era 1948 1975 and the Cable Era 1976 1994 He begins with the laying of the first telegraph line in 1844 which gave rise to the idea that images and sounds could be transmitted over long distances He then considers the remodeling of television s look and purpose during World War II the gender racial and ethnic components of its early broadcasts and audiences its transformation of postwar America and its function in the political life of the country He talks of the birth of prime time and cable the influence of innovators like Sylvester Pat Weaver Boone Arledge and Ted Turner as well as television s entrance into the international market describing the ascent of such programs as Dallas and The Cosby Show and the impact these exports have had on transmitting American culture abroad Edgerton concludes with a discerning look at our current Digital Era 1995 present and the new forms of instantaneous communication that continue to change America s social political and economic landscape Richly researched and engaging Edgerton s history tracks television s growth into a convergent technology a global industry a social catalyst a viable art form and a complex and dynamic reflection of the

American mind and character It took only ten years for television to penetrate thirty five million households and by 1983 the average home kept their set on for more than seven hours a day The Columbia History of American Television illuminates our complex relationship with this singular medium and provides historical and critical knowledge for understanding TV as a technology an industry an art form and an institutional force **Cumulative Index to Periodical Literature** ,1973-03
