Thieves Of State Why Corruption Threatens Global Security:

Thieves of State Sarah Chayes, 2014-12-29 Winner of the 2015 Los Angeles Times Book Prize for Current Interest I can't imagine a more important book for our time Sebastian Junger The world is blowing up Every day a new blaze seems to ignite the bloody implosion of Iraq and Syria the East West standoff in Ukraine abducted schoolgirls in Nigeria Is there some thread tying these frightening international security crises together In a riveting account that weaves history with fast moving reportage and insider accounts from the Afghanistan war Sarah Chayes identifies the unexpected link corruption Since the late 1990s corruption has reached such an extent that some governments resemble glorified criminal gangs bent solely on their own enrichment These kleptocrats drive indignant populations to extremes ranging from revolution to militant puritanical religion Chayes plunges readers into some of the most venal environments on earth and examines what emerges Afghans returning to the Taliban Egyptians overthrowing the Mubarak government but also redesigning Al Qaeda and Nigerians embracing both radical evangelical Christianity and the Islamist terror group Boko Haram In many such places rigid moral codes are put forth as an antidote to the collapse of public integrity The pattern moreover pervades history Through deep archival research Chayes reveals that canonical political thinkers such as John Locke and Machiavelli as well as the great medieval Islamic statesman Nizam al Mulk all named corruption as a threat to the realm In a thrilling argument connecting the Protestant Reformation to the Arab Spring **Thieves of State** presents a powerful new way to understand global extremism And it makes a compelling case that we must confront corruption for it is a cause not a result of global instability

On Corruption in America Sarah Chayes, 2021-11-16 From the prizewinning journalist and internationally recognized expert on corruption in government networks throughout the world comes a major work that looks homeward to America exploring the insidious dangerous networks of corruption of our past present and precarious future If you want to save America this might just be the most important book to read now Nancy MacLean author of *Democracy in Chains* Sarah Chayes writes in her new book that the United States is showing signs similar to some of the most corrupt countries in the world Corruption she argues is an operating system of sophisticated networks in which government officials key private sector interests and out and out criminals interweave Their main objective not to serve the public but to maximize returns for network members In this unflinching exploration of corruption in America Chayes exposes how corruption has thrived within our borders from the titans of America's Gilded Age Andrew Carnegie John D Rockefeller J P Morgan et al to the collapse of the stock market in 1929 the Great Depression and FDR's New Deal from Joe Kennedy's years of banking bootlegging machine politics and pursuit of infinite wealth to the deregulation of the Reagan Revolution undermining this nation's proud middle class and union members She then brings us up to the present as she shines a light on the Clinton policies of political favors and personal enrichment and documents Trump's hydra-headed network of corruption which aimed to systematically undo the Constitution and our laws Ultimately and most importantly Chayes reveals how corrupt systems are organized how

they enable bad actors to bend the rules so their crimes are covered legally how they overtly determine the shape of our government and how they affect all levels of society especially when the corruption is overlooked and downplayed by the rich and well educated

The City-State of the Soul Kevin Crotty, 2016-04-29 The City State of the Soul Self Constitution in Plato's Republic explores Plato's idea that the moral life consists in the founding of one's own soul This insight is central to the long argument of the Republic and in particular to the complex relation between the city and the human soul This fruitful picture of the moral life however has not received the attention it deserves As Kevin M Crotty argues Plato's distinctive insight is that justice is above all a creative force Plato presents justice not as a relation amongst fully formed individuals but rather as the quality that galvanizes a diverse welter of disparate parts into a coherent entity above all a soul or a city Justice then is the virtue most closely associated with being the source of its philosophical stature Plato presents a conception of justice meant to impress the young bright and ambitious as a noble pursuit and a task worthy of their best talents The City State of the Soul is written for anyone interested in the Republic including but not limited to students and scholars of ancient philosophy political philosophy ethics and ancient Greek literature

Corruption Control in Authoritarian Regimes Christopher Carothers, 2022-04-07 Corruption is rampant in many authoritarian regimes leading most observers to assume that autocrats have little incentive or ability to curb government wrongdoing *Corruption Control in Authoritarian Regimes* shows that meaningful anti corruption efforts by nondemocracies are more common and more often successful than is typically understood Drawing on wide ranging analysis of authoritarian anti corruption efforts globally and in depth case studies of key countries such as China South Korea and Taiwan over time Dr Carothers constructs an original theory of authoritarian corruption control He disputes views that hold democratic or quasi democratic institutions as necessary for political governance successes and argues that corruption control in authoritarian regimes often depends on a powerful autocratic reformer having a free hand to enact and enforce measures curbing government wrongdoing This book advances our understanding of authoritarian governance and durability while also opening up new avenues of inquiry about the politics of corruption control in East Asia and beyond

The Oxford Handbook of Governance and Limited Statehood Thomas Risse, Tanja A. Börzel, Anke Draude, 2018 Unpacking the major debates this Oxford Handbook brings together leading authors of the field to provide a state of the art guide to governance in areas of limited statehood where state authorities lack the capacity to implement and enforce central decision and or to uphold the monopoly over the means of violence While areas of limited statehood can be found everywhere not just in the global South they are neither ungoverned nor ungovernable Rather a variety of actors maintain public order and safety as well as provide

public goods and services While external state governors and their interventions in the global South have received special scholarly attention various non state actors from NGOs to business to violent armed groups have emerged that also engage in governance This evidence holds for diverse policy fields and historical cases The Handbook gives a comprehensive picture of the varieties of governance in areas of limited statehood from interdisciplinary perspectives including political science geography history law and economics 29 chapters review the academic scholarship and explore the conditions of effective and legitimate governance in areas of limited statehood as well as its implications for world politics in the twenty first century The authors examine theoretical and methodological approaches as well as historical and spatial dimensions of areas of limited statehood and deal with the various governors as well as their modes of governance They cover a variety of issue areas and explore the implications for the international legal order for normative theory and for policies toward areas of limited statehood

Security and Insecurity in the Middle East Imad El-Anis,Sahra Joharchi,Natasha

Underhill,2018-10-09 This volume draws together a number of research papers presented at a conference titled Security Insecurity and Prospects for Peace in the Middle East and North Africa organised by Nottingham Trent University s Middle East and North Africa Research cluster in April 2016 The conference focused on questions pertinent to what may be termed the post Arab Spring era in which the Middle East is experiencing unprecedented national and transnational challenges Conflict instability radicalisation and the mass displacement of people have become increasingly salient features of the political and economic landscape of the region The contributions here analyse a range of political economic security and socio cultural issues that the authors argue lie at the heart of the instability that the region is currently experiencing Re

thinking issues of security and insecurity in the Middle East not only allows us to explain what might have led to current instability but also allows us to posit possible solutions to these security issues In doing so this book goes beyond the concepts of security and insecurity as a standard account of perpetrator versus victim in a state centric and violence centric manner to a broader and more complex understanding of the underlying processes informing security and insecurity in the region The contributors include scholars from around the world working in a variety of different fields including Middle Eastern studies international relations and international political economy providing an eclectic discussion of the state of the region

Corruption, Social Sciences and the Law Jane Ellis, 2019-04-25 The problem of corruption however described dates back thousands of years Professionals working in areas such as development studies economics and political studies were the first to most actively analyse and publish on the topic of corruption and its negative impacts on economies societies and politics There was at that time minimal literature available on corruption and the law The literature and discussion on bribery and corruption as well as on the negative impact of each and what is required to address them particularly in the legal context are now considerable Corruption and anti corruption are multifaceted and multi disciplinary The focus now on the law and compliance and perhaps commercial incentives is relatively easy However corruption anti corruption and the motivations for them are complex If we continue to discuss debate engage address corruption and anti corruption in our own disciplinary silos we are unlikely to significantly progress the fight against corruption What do terms such as culture of integrity demand accountability transparency and accountability and ethical corporate culture dominating the anti corruption discourse mean if anything in other disciplines If they are meaningless what approach would practitioners in those other disciplines suggest be adopted to address corruption What has their experience been in the field How can the work of each discipline contribute to the work of whole and as such improve our work in and understanding of anti corruption This book seeks to answer these questions and to understand the phenomenon more comprehensively It will be of value to researchers academics lawyers legislators and students in the fields of law anthropology sociology international affairs and business

How to Make Love to a Despot Stephen D. Krasner, 2020-04-07 After generations of foreign policy failures the United States can finally try to make the world safer not by relying on utopian goals but by working pragmatically with nondemocracies Since the end of the Second World War the United States has sunk hundreds of billions of dollars into foreign economies in the hope that its investments would help remake the world in its own image or at the very least make the world safe for democracy So far the returns have been disappointing to say the least Pushing for fair and free elections in undemocratic countries has added to the casualty count rather than taken away from it and trying to eliminate corruption entirely has precluded the elimination of some of the worst forms of corruption In the Middle East for example post 9 11 interventionist campaigns in Afghanistan and Iraq have proved to be long costly and worst of all ineffective Witnessing the failure of the utopian vision of a world full of market oriented democracies many observers both on the right and the left have

begun to embrace a dystopian vision in which the United States can do nothing and save no one Accordingly calls to halt all assistance in undemocratic countries have grown louder But as Stephen D Krasner explains this cannot be an option weak and poorly governed states pose a threat to our stability In the era of nuclear weapons and biological warfare ignoring troubled countries puts millions of American lives at risk The greatest challenge for the United States now Krasner writes is to identify a set of policies that lie between the utopian vision that all countries can be like the United States and the dystopian view that nothing can be done He prescribes a pragmatic new course of policy Drawing on decades of research he makes the case for good enough governance governance that aims for better security better health limited economic growth and some protection of human rights To this end Krasner proposes working with despots to promote growth In a world where a single terrorist can kill thousands or even hundreds of thousands of people the United States does not have the luxury of idealistically ignoring the rest of the world But it cannot remake the world in its own image either Instead it must learn how to make love to despots

A Kingdom of Their Own Joshua Partlow, 2016-09-20 The key to understanding the calamitous Afghan war is the complex ultimately failed relationship between the powerful duplicitous Karzai family and the United States brilliantly portrayed here by the former Kabul bureau chief for The Washington Post The United States went to Afghanistan on a simple mission avenge the September 11 attacks and drive the Taliban from power This took less than two months Over the course of the next decade the ensuing fight for power and money supplied to one of the poorest nations on earth in ever greater amounts left the region even more dangerous than before the first troops arrived At the center of this story is the Karzai family President Hamid Karzai and his brothers began the war as symbols of a new Afghanistan moderate educated fluent in the cultures of East and West and the antithesis of the brutish and backward Taliban regime The siblings from a prominent political family close to Afghanistan s former king had been thrust into exile by the Soviet war While Hamid Karzai lived in Pakistan and worked with the resistance others moved to the United States finding work as waiters and managers before opening their own restaurants After September 11 the brothers returned home to help rebuild Afghanistan and reshape their homeland with ambitious plans Today with the country in shambles they are in open conflict with one another and their Western allies Joshua Partlow s clear eyed analysis reveals the mistakes squandered hopes and wasted chances behind the scenes of a would be political dynasty Nothing illustrates the arc of the war and America s relationship with Afghanistan from optimism to despair friendship to enmity as neatly as the story of the Karzai family itself told here in its entirety for the first time

Medieval and Modern Civil Wars, 2021-08-16 Most medieval historians have explained the civil wars in Scandinavia in the 12th and 13th centuries as internal conflicts within a predominantly national and implicitly state centered politico constitutional framework This book

argues that the conflicts during this period should be viewed as less disruptive less internal and less state centered than in previous research It does so through six articles comparing the civil wars in Scandinavia with civil wars in Afghanistan and Guinea Bissau in the last decades applying theories and perspectives from anthropology and political science Finally four articles discuss civil wars in a broader perspective Contributors are Ebrahim Afsah Gerd Althoff Jenny Benham John Comaroff Hans Jacob Orning Frederik Ros n J n Vi ar Sigur sson Henrik Vigh Helle Vogt Stephen D White and yvind sterud

Rethinking Organised Crime Leslie Holmes, 2024-05-02 A complex phenomenon which has undergone significant changes in the past forty years Leslie Holmes argues that organised crime is in need of re conceptualisation This innovative book navigates the evolution of this issue to grasp its full scope in the twenty first century **Mobility, Mobilization, and Counter/Insurgency** Daniel E Agbiboa, 2022-02-15 In Mobility Mobilization and Counter Insurgency Daniel Agbiboa takes African insurgencies back to their routes by providing a transdisciplinary perspective on the centrality of mobility to the strategies of insurgents state security forces and civilian populations caught in conflict Drawing on one of the world s deadliest insurgencies the Boko Haram insurgency in northeast Nigeria and the Lake Chad region this well crafted and richly nuanced intervention offers fresh insights into how violent extremist organizations exploit forms of local immobility and border porosity to mobilize new recruits how the state s war on terror mobilizes against so called subversive mobilities and how civilian populations in transit are treated as could be terrorists and subjected to extortion and state sanctioned violence en route The multiple and intersecting flows analyzed here upend Eurocentric representations of movement in Africa as one sided anarchic and dangerous Instead this book underscores the contradictions of mobility in conflict zones as simultaneously a resource and a burden Intellectually rigorous yet clear engaging and accessible Mobility Mobilization and Counter Insurgency is a seminal contribution that lays bare the neglected linkages between conflict and mobility
