## **Thinking About Death Immortality Badham:**

**Thinking About Death and Immortality** Paul Badham, 2015-12-01 For many people belief in the afterlife has evaporated. Scientific discoveries about the history of our species, our growing understanding of the vastness of the universe, new findings in brain research, these things and many others conspire to make belief in immortality difficult. In this thoughtful companion to scientific realities of our time, Paul Badham explores the grounds on which the hope of immortality central for Christian doctrine can be revitalized today. He suggests that the possibility of a relationship between God and human beings is confirmed by our religious experience and that resurrection and immortality need each other. Written in a balanced, even-handed tone, it is a helpful, considered and ultimately hopeful discussion for people with questions. Even those who don't ultimately agree with the author's conclusions will benefit from the engagement. Includes chapters on the evidential value of near death experiences, concepts of heaven and arguments against belief in hell. *Making Sense of Death and Immortality*

Paul Badham, 2013-06-20 Many think that belief in life after death flies in the face of what science has discovered. Paul Badham explores the grounds on which the hope of immortality central for Christian doctrine can be revitalized today. He suggests that the possibility of a relationship between God and human beings is confirmed by our religious experience and that resurrection and immortality need each other. Includes chapters on the evidential value of near death experiences, concepts of heaven and arguments against belief in hell. *Beyond Death* Gary R. Habermas, J. P. Moreland, 2004-01-29 Death and what lies beyond is not something you consider every day. But the thought of it raises some intriguing questions. Are there good reasons for believing in life after death? What is the afterlife like? How valid are the reports of near death experiences? Do heaven and hell exist? And if so, how can hell be reconciled with a loving God? By sharing the very latest scientific, philosophical, anthropological, ethical and theological evidence on life after death, noted Christian scholars Habermas and Moreland present a strong case for immortality with this book. They begin by taking up the question of whether life after death is real and what evidence supports its reality. They then explore what the afterlife is like and go on to show how having this reality in your future should affect the way you live here and now. This book will reassure you that there is no need to fear death as long as you're prepared for eternity that follows. It is also a great aid in developing a serious biblical, rational and even scientific defense for the belief in life beyond the grave. **The Eclipse of Eternity** T. Walter, 1995-12-17

Many people still believe in life after death, but modern institutions operate as though this were the only world. Eternity is now eclipsed from view in society and even in the church. This book carefully observes the eclipse, what caused it, how full it is, what are its consequences, will it last. How significant is recent interest in near death experiences and reincarnation?

Death and Afterlife Stephen T. Davis, 2016-01-06 This book began as a series of papers at a conference called Death and Afterlife held in Claremont, California, in January 1987, under the auspices of the Department of Religion of the Claremont Graduate School. The responses to each paper and several comments are also included. *Persons and Immortality* Kenneth

A. Bryson, 2022-02-07 The religious belief in personal immortality depends on the evidence for the existence of God an immaterial soul or mind and human nature We also need to support the view that God will always want to maintain relationships with us in the afterlife So immortality is a hard sell The suffering of innocent victims suggests that the existence of a loving God is not self evident Furthermore the soul s separation from the body at death raises the troublesome problem of personal identity How can that be me in the afterlife without my body The tradition from Plato to Descartes plants the seed of personal immortality in our rational nature But the deconstruction of human nature suggests that our species is not special Yet the belief in immortality lingers The first step in the reconstruction of personal immortality is found in systems theory or belief that the whole individuates the part This view suggests that we are the outcome of relationships rather than eternal natures entering into relationships We are the product of relationships taking place at three basic levels 1 In psyche where being human is the result of a tendency toward good and evil 2 As social entities where the existence of other human beings individuates us 3 In being s unconcealment where the intelligibility of things provides a foundation for epistemic life Heidegger s view of the nothing or horizon surrounding being allows us to identify God as creator entering into personal relationships with us a view supported by contemporary science That will be me in the afterlife if the relationships that individuate me in my pre mortem state continue into my post mortem existence The reversal in being s unconcealment suggests that human death continues the cycle of personal existence Perspectives on Death and Dying Arthur S. Berger, 1989 *Immortal Souls* Edward Feser, 2024-09-04 *Immortal Souls* provides as ambitious and complete a defense of Aristotelian Thomistic philosophical anthropology as is currently in print Among the many topics covered are the reality and unity of the self the immateriality of the intellect the freedom of the will the immortality of the soul the critique of artificial intelligence and the refutation of both Cartesian and materialist conceptions of human nature Along the way the main rival positions in contemporary philosophy and science are thoroughly engaged with and rebutted Reviews Edward Feser s book is a Summa of the nature of the human person it is therefore both a rather long but brilliant monograph and a valuable work for consultation Each of the human faculties discussed is treated comprehensively with a broad range of theories considered for and against and although Feser s conclusions are firmly Thomistic one can derive great benefit from his discussions even if one is not a convinced hylomorphist Every philosopher of mind would benefit from having this book within easy reach Howard Robinson Professor Emeritus of Philosophy Central European University Feser defends the Aristotelian and Thomistic system effectively bringing it into dialogue with recent debates and drawing on some of the best of both analytic Kripke Searle Bonjour Fodor and phenomenological Heidegger Merleau Ponty Dreyfus philosophy He deftly rebuts objections to Thomism both ancient and modern Anyone working today on personal identity the unity of the self the semantics of cognition free will or qualia will need to engage with the analysis and arguments presented here Robert C Koons Professor of Philosophy University of Texas at Austin *Approaching the World's Religions, Volume 1* Robert Boyd, 2017-05-04

Philosophically Thinking about World Religions is different from other works in the discipline today It deviates from the typical approaches used for the study of world religions Its goal is to engage readers in thinking hard about world religions not about the data surrounding those traditions By focusing on philosophical questions each reader should be challenged to do their own investigations that may reveal the heart of these traditions Another stance that this project takes that distinguishes it from other texts in the discipline is that it advocates an inclusivist perspective regarding the world religions Pluralism which is the predominate assumption today ends either in contradiction or in the development of a metatheory that dismisses crucial distinctions between the various traditions or eliminates some ancient religions because they do not fit the metatheory By taking an open inclusivist approach all religious traditions may engage at the table of dialogue The final essay is about justice and social affairs While that discussion is couched within the context of a particular tradition each religious tradition must have the discussion But it must be more than an intrareligious dialogue it must become an interreligious dialogue

**Out-of-Body and Near-Death Experiences** Michael N. Marsh, 2010-01-21 Personalised accounts of out of body OBE and near death NDE experiences are frequently interpreted as offering evidence for immortality and an afterlife Since most OBE NDE follow severe curtailments of cerebral circulation with loss of consciousness the agonal brain supposedly permits mind soul or consciousness to escape neural control and provide glimpses of the afterlife Michael Marsh critically analyses the work of five key writers who support this so called dying brain hypothesis He firmly disagrees with such otherworldly mystical or psychical interpretations ably demonstrating how they are explicable in terms of brain neurophysiology and its neuropathological disturbances The original basis and thrust of Marsh's claim sees the recorded phenomenology as reflections of brains rapidly reawakening to full conscious awareness consistent with other reported phenomenologies attending recovery from antecedent states of unconsciousness the reawakening brain hypothesis From this basis Marsh also offers a re classification of NDE into early and late phase sequences thereby dismantling the untenable concepts of core and depth experiences Marsh further provides a detailed examination of the spiritual and quasi religious overtones accorded OBE NDE highlighting their inconsistencies when compared with classical accounts of divine disclosure and the eschatological precepts of resurrection belief as professed credally In assessing the implications of anthropological philosophical and theological concepts of personhood and soul as arguments for personal survival after death Marsh celebrates the role of conventional faith in appropriating the expectant biblical promises of a New Creation

**'Hell': A Hard Look at a Hard Question** David J.

Powys, 2007-01-01 I welcome this rigorous examination of some of the many questions which are raised by the doctrine of hell At a time when it is rare to hear even heaven spoken about in our churches it is encouraging that this sober theme is

once more in our sights It was plainly often on the lips of Jesus Nigel M de S Cameron Trinity International University Dr Powys has pursued a rigorous examination of the Scriptures He rivets our attention on what the New Testament actually says about the fate of the unrighteous This is a seminal work David Claydon Federal Secretary CMS Australia The author writing from a position of biblical conservatism has presented a powerful convincing and scholarly case for the view that the unrighteous will forfeit resurrection life in the Kingdom of God It is in my judgment the most thorough treatment of the issue in recent years John W Pryor Macquarie University This book is an impressive thorough discussion of a thorny question Dr Powys is at home in many branches of biblical studies He examines the biblical evidence carefully and sets his case out lucidly and with real insight showing convincingly how ill founded are many ancient and many recent views on the fate of the unrighteous His own solution of a set of complex exegetical and theological issues is judicious and clearly the end result of careful thought from the Foreword by Graham Stanton University of Cambridge David Powys has made a significant contribution to an increasingly important debate His book's real strength lies in its very careful study of New Testament teaching in the light of a comprehensive analysis of the Old Testament and Jewish literature This literature is rightly seen not merely as background but as the key to a right understanding of the New Testament teaching I wish that such a clear discussion had been available when I first began engaging with these questions Stephen Travis St John's College Nottingham David Powys was educated at The University of Melbourne He gained degrees in arts and social work studied theology at Ridley College and was ordained in 1981 Dr Powys has ministered in four Melbourne parishes He is an Examining Chaplain to the Archbishop of Melbourne and a member of Archbishop in Council and National Synod He was awarded the Doctor of Theology by the Australian College of Theology in 1994 for his *The Hermeneutics of Hell* The present volume is a slightly abbreviated version of that dissertation
