Thoughts Policy Towards Classic Reprint:

Economics, Ethics, and Ancient Thought Donald G. Richards, 2017-01-20 It is argued that the normative and ethical presuppositions of standard economics render the discipline incapable of addressing an important class of problems involving human choices Economics adopts too thin an account both of human motivation and of the good for individuals and for society It is recommended that economists and policy makers look back to ancient philosophy for guidance on the good life and good society considered in terms of eudaimonism or human flourishing Economics Ethics and Ancient Thought begins by outlining the limitations of the normative and ethical presuppositions that underpin standard economic theory before going on to suggest alternative normative and ethical traditions that can supplement or replace those associated with standard economic thinking In particular this book considers the ethical thought of ancient thinkers particularly the ancient Greeks and their concept of eudaimonia arguing that within those traditions better alternatives can be found to the rational choice utilitarianism characteristic of modern economic theory and policy This volume is of great interest to those who study economic theory and philosophy history of economic thought and philosophy of social science as well as public policy professionals

Literary Digest: a Repository of Contemporaneous Thought and Research as Presented in the Periodical Literature of the World Edward Jewett Wheeler, Isaac Kaufman Funk, William Seaver Woods, 1899 **Democracy, Equality, and Justice** John E. Hill, 2007-01-01 Challenging common interpretations of the political thought of John Adams and Adam Smith *Democracy Equality and Justice* offers an engaging and novel portrait of the political economy in America at its founding The founders

believed that liberty should not trump community but should exist within the context of community Drawing on extensive written records of the thought of John Adams and Adam Smith the father of modern capitalism Dr John E Hill argues that these two great men advocated a balanced values based and just political economy Adams historically misperceived as a rugged individualist who favored aristocracy over democracy actually emphasized political balance with no one socio economic class dominating any other Smith incorrectly portrayed as a supporter of laissez faire government advocated economic balance with no class or individual receiving special treatment from the government Applying their values of universalism and moderation today would significantly broaden the definition of morality in contemporary politics Democracy Equality and Justice is a stimulating and sophisticated text that will encourage debate over the relationship between historical ideas and contemporary economic problems

Constitutionalism and the Paradox of Principles and Rules Marcelo Neves,2021-04-29 This title offers a unique approach to constitutionalism focusing on the paradoxical relationship between principles and rules from the perspective of systems theory It presents a critical counterpoint to Ronald Dworkin s principle based theory and in particular to Robert Alexy s idea of optimizing balancing Instead of ceding to the compulsion of an optimizing balancing it suggests the possibility of a comparative or at least satisficing balancing considering the precariousness of legal rationality The book also reverses Dworkin s metaphor associating rules with Hercules and principles with the Hydra It takes constitutional principles seriously criticizing the abuse of principles by the legal and constitutional doctrine and practice and pointing out their relationship of complementarity and tension with rules Finally it offers an alternative model to the recent legal and constitutional theory on the basis of certain assumptions of the systems theory It deals especially with the paradox of the circular and reflexive relationship between constitutional principles and rules the former refers primarily to the openness and adequacy of legal system to society and thus to substantive argumentation the second refers primarily to the closure and consistency of legal system and thus to formal argumentation

International Investment Law and the Right to Regulate Lone Wandahl Mouyal,2016-03-10 The book considers the ways in which the international investment law regime intersects with the human rights regime and the potential for clashes between the two legal orders Within the human rights regime states may be obligated to regulate including a duty to adopt regulation aiming at improving social standards and conditions of living for their population Yet states are increasingly confronted with the consequences of such regulation in investment disputes where investors seek to challenge regulatory interferences for example in expropriation claims Regulatory measures

may for instance interfere with the investment by imposing conditions on investors or negatively affecting the value of the investment As a consequence investors increasingly seek to challenge regulatory measures in international investment arbitration on the basis of a bilateral investment treaty This book sets out the nature and the scope of the right to regulate in current international investment law The book examines bilateral investment treaties and ICSID arbitrations looking at the indicative parameters that are granted weight in practice in expropriation claims delimiting compensable from non compensable regulation The book places the potential clash between the right to regulate and international investment law within a theoretical framework which describes the stability flexibility dilemma currently inherent within international law Lone Wandahl Mouyal goes on to set out methods which could be employed by both BIT negotiators and adjudicators of investment disputes allowing states to exercise their right to regulate while at the same time providing investors with legal certainty The book serves as a valuable tool an added perspective for academics as well as for practitioners dealing with aspects of international investment law
