

Slow-Cooking Primer

Preparing food in a slow cooker is easy, and a little extra preparation and seasoning will go a long way toward achieving delicious results. Here are a few basic steps to keep in mind. Because every model of slow cooker varies considerably, consult the manufacturer's guide before you begin.

Prepare the ingredients. To streamline the process, prep all of the ingredients in the recipe before you start cooking. That way, you'll be ready to make the dish whenever you want—now or in a few hours—and the process will be truly hands-off once the cooking starts.

Chop Smart! Since denser ingredients, such as potatoes, carrots, and other root vegetables, take longer to become tender, cut them into chunks of about 1 inch or smaller. To avoid skimming extra fat from finished dishes, trim as much fat as possible off meat and poultry.

Season with Liquid. Because slow cookers trap moisture with their tight-fitting lids, and therefore very little liquid evaporates during cooking, it's important to compensate with liquid flavor boosters, such as beef, chicken, fish, or vegetable broths, or soy sauce, vinegar, coconut milk, wine, and beer, instead of water.

Brown until Crisp. When a recipe calls for browning ingredients before slow cooking them, take the time to do so. This is a crucial step for building flavor and adding color to the dish.
