Womens Choices Philosophical Problems Facing Feminism:

Feminist Perspectives in Philosophy Morwenna Griffiths, Margaret Whitford, 1988 excellent Especially insightful are articles on ethics and gender autonomy and pornography feelings and a responsible and democratic epistemology Choice The essays in this book introduce to American readers the work of a group of British feminist philosophers representing both the Continental and the analytic traditions who argue that philosophy is in urgent need of a feminist perspective **Ethics and Human Reproduction (RLE Feminist Theory)** Christine Overall, 2013-05-20 In *Ethics and Human Reproduction* Christine Overall blends feminist theory and philosophical expertise to provide a coherent analysis of a range of moral questions and social policy issues pertaining to human reproduction and the new reproductive technologies Topics covered include sex preselection artificial insemination prenatal diagnosis abortion in vitro fertilisation and embryo transfer surrogate motherhood and childbirth Throughout the book the author examines the values and assumptions underlying common perceptions of sexuality and fertility the status of the foetus the value of children the nature of parenting and the roles of women In so doing she develops a feminist approach to answering questions about reproductive rights and freedoms the value of a genetic link between mother and their offspring the commodification of reproduction and the effects of reproductive technologies on women and children This book should be essential reading for anyone interested in the new reproductive technologies biomedical ethics and women s health New Perspectives , 1985 **Civil Rights Digest** , 1985

Rediscovering Masculinity Victor J. Seidler, 2003-09-02 Men have responded to feminism with feelings of anxiety guilt and unease It has taken time for men to consider ways of changing themselves rather than hiding behind feminist rhetoric Since the mid 70s a structuralist interpretation of feminism has led to new perceptions of power domination oppression and sexuality The author argues that historically masculinity has been identified with reason and femininity with emotion so men have been trained to speak for others before learning to speak for themselves Victor Seidler uses some prevalent positions in social theory to expose the main contradictions in received ideas of power language and sexuality Topics discussed include reason sexuality change control identity language strength and intimacy Unreasonable Men Victor J. Seidler, 2013-07-23 This much needed book is the first to show how dominant forms of masculinity are implicated in the traditions of social theory that have emerged since the Enlightenment The author shows how an unreasonable form of reason has emerged from the separation of reason from emotion mind from body nature from culture public from private matter from spirit the dualities that have shaped our vision of modernity The book argues that men need to explore critically their power and experience which has been rendered invisible by the dominant traditions of social theory Instead of legislating for others they have to learn to speak more personally for themselves *The Earth Is Our Home* Nelson Rivera, 2016-11-14 This book demonstrates that Mary Midgley s philosophy of evolution points the way towards considering the earth as our only true home since we are products of this planet and its evolving and complex life along with every other organism From the

knowledge of ourselves as knowing animals with a biological as well as a cultural history Midgley proposes the elaboration of an evolutionary epistemology that situates us firmly on the earth together with other creatures while at the same time helping us to build knowledge of the world from the complexity of the human experience I like to call this approach by a known theological analogy a view from below that is from the underside of the world from the realms of nature and history Such an approach does not begin by assuming conceptions of design or order in nature a view that we term from above although it does not rule out the possibility of teleological or metaphysical constructions of reality in the long run This down to earth approach I consider essential for any philosophy or theology that wants to take evolutionary theory seriously while committed to a proper and non dismissive assessment of religious views

Theoretical Perspectives on Sexual

Difference Deborah L. Rhode, 1990-01-01 Essays cover historical sociological psychological and anthropological approaches ethics and politics and the policy implications of the real and perceived differences between the sexes

Metaphysical

Animals Clare Mac Cumhaill, Rachael Wiseman, 2023-10-24 A BEST BOOK OF THE YEAR THE NEW YORK TIMES BOOK REVIEW AND THE NEW YORKER A vibrant portrait of four college friends Iris Murdoch Philippa Foot Elizabeth Anscombe and Mary Midgley who formed a new philosophical tradition while Oxford's men were away fighting World War II The history of European philosophy is usually constructed from the work of men In *Metaphysical Animals* a pioneering group biography Clare Mac Cumhaill and Rachael Wiseman offer a compelling alternative In the mid twentieth century Elizabeth Anscombe Mary Midgley Philippa Foot and Iris Murdoch were philosophy students at Oxford when most male undergraduates and many tutors were conscripted away to fight in the Second World War Together these young women all friends developed a philosophy that could respond to the war's darkest revelations Neither the great Enlightenment thinkers of the past the logical innovators of the early twentieth century or the new Existentialist philosophy trickling across the Channel could make sense of this new human reality of limitless depravity and destructive power the women felt Their answer was to bring philosophy back to life We are metaphysical animals they realized creatures that can question their very being Who am I What is freedom What is human goodness The answers we give they believed shape what we will become Written with expertise and flair *Metaphysical Animals* is a lively portrait of women who shared ideas but also apartments clothes and even lovers Mac Cumhaill and Wiseman show how from the disorder and despair of the war four brilliant friends created a way of ethical thinking that is there for us today

Applied Ethics Peter Singer, 1986 This volume collects a wealth of articles covering a range of topics of practical concern in the field of ethics including active and passive euthanasia abortion organ transplants capital punishment the consequences of human actions slavery overpopulation the separate spheres of men and women animal rights and game theory and the nuclear arms race The contributors are Thomas Nagel David Hume James Rachels Judith Jarvis Thomson Michael Tooley John Harris John Stuart Mill Louis Pascal Jonathan Glover Derek Parfit R M Hare Janet Radcliffe Richards Peter Singer and Nicholas Measor

Science and the Self Ian James Kidd, Liz

McKinnell,2015-08-27 Mary Midgley is one of the most important moral philosophers working today Over the last thirty years her writings have informed debates concerning animals the environment and evolutionary theory The invited essays in this volume offer critical reflections upon Midgley s work and further developments of her ideas The contributors include many of the leading commentators on her work including distinguished figures from the disciplines of philosophy biology and ethology The range of topics includes the moral status of animals the concept of wickedness science and mythology Midgley s relationship to modern moral philosophy and her relationship with Iris Murdoch It also includes the first full bibliography of Midgley s writings The volume is the first major study of its kind and brings together contributions from the many disciplines which Midgley s work has influenced It provides a clear account of the themes and significance of her work and its implications for ongoing debates about our understanding of our place within the world **Feminist Challenges** Carole Pateman,Elizabeth Grosz,2013-10-09 In Feminist Challenges new and established scholars demonstrate the application of feminism in a range of academic disciplines including history philosophy politics and sociology As Carole Pateman notes in her introduction all the contributors raise some extremely far reaching questions about the conventional assumptions and methods of contemporary social and political inquiry Beast and Man Mary Midgley,2004-03 In this major work Mary Midgley one of our foremost intellectuals argues that humans are rather more like animals than we have previously allowed ourselves to believe **The Ethical Primate** Mary Midgley,2002-01-31 In The Ethical Primate Mary Midgley one of the sharpest critical pens in the West according to the Times Literary Supplement addresses the fundamental question of human freedom Scientists and philosophers have found it difficult to understand how each human being can be a living part of the natural world and still be free Midgley explores their responses to this seeming paradox and argues that our evolutionary origin explains both why and how human freedom and morality have come about **Feminist Jurisprudence** Frances Schmid Holland,1996 A reference work devoted to research strategies a definition of feminist jurisprudence and an assessment of the effects that the field is having on the legal system Fully indexed the author has created a comprehensive bibliography on feminist jurisprudence This book is of interest to everyone concerned with the effect of the legal system on women valuable because it appears to be the first bibliography ARBA **Crisis in the Church** John H. Leith,1997-01-01 John H Leith gives a passionate and informed interpretation of the state of theological education in the United States Fifty years ago he writes it was necessary to gain freedom for the study of the faith Over the course of five decades he asserts freedom for the faith became freedom from the faith Leith is Pemberton Professor of Theology Emeritus at Union Theological Seminary in Virginia **Atlantis** ,1989 **African Philosophy and the Epistemic Marginalization of Women** Jonathan Chimakonam,Louise du Toit,2018-04-20 This book examines the underexplored notion of epistemic marginalization of women in the African intellectual place Women s issues are still very much neglected by governments corporate bodies and academics in sub Saharan Africa The entrenched traditional world views which privilege men over women make it difficult

for the modern day challenges posed by the neglect of the feminine epistemic perspective to become obvious Contributors address these issues from both theoretical and practical perspectives demonstrating what philosophy could do to ameliorate the epistemic marginalization of women as well as ways in which African philosophy exacerbates this marginalization Philosophy is supposed to teach us how to lead the good life in all its ramifications why is it failing in this duty in Africa where the issue of women's epistemic vision is concerned The chapters raise feminist agitations to a new level beginning from the regular campaigns for various women's rights and reaching a climax in an epistemic struggle in which the knowledge controlling power to create acquire evaluate regulate and disseminate is proposed as the last frontier of feminism

Work Incentives and Welfare Provision Doris Schroeder, 2018-02-06 This title was first published in 2000 Over the past decade the welfare state has come under sustained attack not only from quarters which never approved of its policies but also from political theorists who used to support it With the collapse of communism the policy of comprehensive welfare provision came under renewed scrutiny It was argued that its impact on work incentives is most detrimental Examining in detail current unemployment debates within Western welfare states this book seeks to verify or refute the view that non work is increasingly chosen by work shy individuals the pathological theory of unemployment Drawing from a range of disciplinary perspectives from social philosophy and the history of philosophy to occupational psychology and feminist economics this interdisciplinary analysis reveals that the pathological theory of unemployment with its reliance on a deficient depiction of human nature and its disregard of non pecuniary work incentives and empirical evidence on benefit fraud cannot be upheld Schroeder presents an alternative explanation for the phenomenon of widespread Western unemployment through new insights into an external barrier theory of unemployment namely technological displacement combined with a refusal to return to a two tiered Victorian society By effectively combining empirical data with philosophical deliberations the book provides an important contribution to the welfare state debate

Is Philosophy Androcentric? Iddo Landau, 2009-03-02 In *Is Philosophy Androcentric* Iddo Landau contends that none of the arguments for viewing philosophy as pervasively androcentric ultimately stand up to rational scrutiny while the ones that show it to be nonpervasively androcentric do not undermine it in the way that many critics have supposed Philosophy emerges in almost all of its parts he concludes as human rather than male and most parts and aspects of it need not be rejected or rewritten
