Wide Range Achievement Test - Fifth Edition (WRAT-5) - Blue | Green

The WRAT-5 provides an accurate and easy-to-administer way to assess and monitor the reading, spelling, and math skills, and helps identify possible learning disabilities. The WRAT-5 consists of the Math Computation, Word Reading, and Sentence Comprehension subtests to provide an overview of the student's academic skills. The Reading Composite provides an overall measure of the student's reading skills based on their scores on the Word Reading and Sentence Comprehension subtests. The WRAT-5's Standard Scores or Composite Scores have a mean of 100 and a standard deviation of 10; therefore, scores of 90-110 fall within the average range (25-75%).

The WRAT-5 was selected because of its ease of administration and shorter length compared to similar measures.
