The War in Indo-China 1945-54 Jacques Dalloz, 1990 Widely acclaimed when it appeared in French in 1987 this first general history in English examines the colonial background the period of Japanese control the rise of Ho Chi Minh the struggle of his rural based guerrillas through the five former kingdoms and the French defeat at Dien Bien Phu The war which split France and politicized the French army led to the collapse of the Fourth Republic and the reemergence of de Gaulle Although Ho lost the peace he established a model of mid 20th century revolutionary war and set the scene for America's military involvement in Vietnam Certain to become the standard work on the subject The Indo-China War, 1945-1954 Edgar O'Ballance, 1964 *French Indochina War* Huston, Simon, 2021-07-01 Military mistakes impel strategic reflection The French Indochina War FIW from 1946 1954 furnishes useful insights with some resonance for current challenges A combination of pre existing conditions catalysts and operational drivers caused the cathartic 1954 French defeat Pre conditions included the illegitimacy of the colonial regime repression that polarised nationalist sentiment Economically pernicious terms of trade suppressed industrialisation but oiled speculation until suddenly reversed by devaluation in 1953 that reflected financial disengagement by France but increased American involvement Vacillating metropolitan and the dubious colonial regime of the night club Emperor Bao Dai fuelled political instability Militarily after the disastrous evacuation of the RC4 in 1950 Viet Minh men and supplies poured across the Chinese frontier In 1954 financial constraints and the looming international peace conference catalysed Navarre the new French commander to gamble on a battle of attrition He bet that the Viet Minh would be unable drag artillery to the remote jungle outpost of Dien Bien Phu but he underestimated their determination strength and adaptability In early December partisans resented the bungled evacuation of Lai Chau The entrenched camp's defences were inadequate and neither infantry sorties nor napalm suppressed VM artillery in the surrounding hills The French aero logistical sub system was overstretched and significant parachute supplies fell into enemy hands Navarre scattered his reserves on a futile and remote side show Operation Atlante The Americans prevaricated and refused to unleash their B29 fleet Iacta alea est the die was cast Anthony Eden, Anglo-American Relations and the 1954 Indochina Crisis Kevin Ruane, Matthew Jones, 2019-07-25 In the spring of 1954 after eight years of bitter fighting the war in Vietnam between the French and the communist led Vietminh came to a head With French forces reeling the United States planned to intervene militarily to shore up the anti communist position Turning to its allies for support first and foremost Great Britain the US administration of Dwight D Eisenhower sought to create what Secretary of State John Foster Dulles called a united action coalition In the event Winston Churchill's Conservative government refused to back the plan Fearing that US led intervention could trigger a wider war in which the United Kingdom would be the first target for Soviet nuclear attack the British Foreign Secretary Anthony Eden was determined to act as Indochina peacemaker even at the cost of damage to the Anglo American special relationship In this important study Kevin Ruane and Matthew Jones revisit a Cold

War episode in which British diplomacy played a vital role in settling a crucial question of international war and peace Eden's diplomatic triumph at the 1954 Geneva Conference on Indochina is often overshadowed by the 1956 Suez Crisis which led to his political downfall This book however recalls an earlier Eden a skilled and experienced international diplomatist at the height of his powers who may well have prevented a localised Cold War crisis escalating into a general Third World War

The French Indochina War 1946-54 Martin Windrow, 2013-06-20 The states of Indochina had been French colonies or protectorates since the 19th century However in March 1945 the Japanese interned all French troops and officials and turned over all civil government to local authorities The power vacuum caused by the Japanese surrender allowed the Viet Minh a strong revolutionary organisation to be established throughout Vietnam When the French returned to the north incidents between French and VM troops were inevitable negotiations collapsed and the French opted for a military solution This book examines the history of the conflict and the forces of both sides

Airpower in Small Wars James S. Corum, Wray R. Johnson, 2003 The use of airpower in wartime calls to mind the massive bombings of World War II but airplanes have long been instrumental in small wars as well Ever since its use by the French to put down rebellious Moroccan tribes in 1913 airpower has been employed to fight in limited but often lengthy small conflicts around the globe This is the first comprehensive history of airpower in small wars conflicts pitting states against non state groups such as insurgents bandits factions and terrorists tracing it from the early years of the twentieth century to the present day It examines dozens of conflicts with strikingly different scenarios the Greek Civil War the Philippine Anti Huk campaign French and British colonial wars the war in South Vietnam before the American escalation counterinsurgency in southern Africa Latin American counterinsurgency operations and counterinsurgency and counterterrorist campaigns in the Middle East over the last four decades For each war the authors describe the strategies employed on both sides of the conflict the air forces engaged and the specific airpower tactics employed They discuss the ground campaigns and provide the political background necessary to understand the air campaigns and in each case they judge the utility of airpower in its broadest sense In their historic sweep they show how forms of airpower evolved from planes to police helicopters aircraft of the civilian air reserve and today's unmanned aircraft They also disclose how small wars after World War II required new strategies operational solutions and tactics By taking this broad view of small war airpower the authors are able to make assessments about the most effective and least effective means of employing airpower They offer specific conclusions ranging from the importance of comprehensive strategy to the need for the United States and its allies to expand small wars training programs Airpower in Small Wars will be invaluable for educating military professionals and policy makers in the subject as well as for providing a useful framework for developing more effective doctrine for employing airpower in the conflicts we are most likely to see in the twenty first century
