Capacities Brian Jackson, Gregory Clark, 2014-01-07 A collection examining Dewey's influence on effective communication in a healthy democratic practice The essays in this collection written by sixteen scholars in rhetoric and communications studies demonstrate American philosopher John Dewey's wide-ranging influence on rhetoric in an intellectual tradition that addresses the national culture's fundamental conflicts between self and society freedom and responsibility and individual advancement and the common good Editors Brian Jackson and Gregory Clark propose that this influence is at work both in theoretical foundations such as science pragmatism and religion and in Dewey's debates with other public intellectuals such as Jane Addams Walter Lippmann James Baldwin and W. E. B. Du Bois Jackson and Clark seek to establish Dewey as an essential source for those engaged in teaching others how to compose timely appropriate useful and eloquent responses to the diverse and often contentious rhetorical situations that develop in a democratic culture They contend that there is more at stake than instruction in traditional modes of public discourse because democratic culture encompasses a variety of

situations private or public civic or professional where people must cooperate in the work of advancing a common project What prepares people to intervene constructively in such situations is instruction in those rhetorical practices of democratic interaction that is implicit throughout Dewey s work Dewey s writing provides a rich framework on which a distinctly American tradition of a democratic rhetorical practice can be built a tradition that combines the most useful concepts of classical rhetoric with those of modern progressive civic engagement Jackson and Clark believe Dewey s practice takes rhetoric beyond the traditional emphasis on political democracy to provide connections to rich veins of American thought such as individualism liberalism progressive education collectivism pragmatism and postindustrial science and communication They frame Dewey s voluminous work as constituting a modern expression of continuing education for the trained capacities required to participate in democratic culture For Dewey human potential is best realized in the free flow of artful communication among the individuals who together constitute society The book concludes with an afterword by Gerard A Hauser College Professor of Distinction in the Department of Communication at the University of Colorado Boulder

The Politics of Ephemeral Digital Media Sara Pesce, Paolo Noto, 2016-05-26 In the age of complex Tv of social networking and massive consumption of transmedia narratives a myriad short lived phenomena surround films and TV programs raising questions about the endurance of a fictional world and other mediatized discourse over a long arc of time The life of media products can change direction depending on the variability of paratextual materials and activities such as online commentaries and forums promos and trailers disposable merchandise and gadgets grassroots video production archives and gaming This book examines the tension between permanence and obsolescence in the production and experience of media byproducts analysing the affections and meanings they convey and uncovering the machineries of their persistence or disposal Paratexts which have long been considered only ancillary to a central text interfere instead with textual politics by influencing the viewers fidelity or infidelity to a product and affecting a fictional world s life expectancy Scholars in the fields of film studies media studies memory and cultural studies are here called to observe these byproducts temporalities their short form and or long temporal extension their nostalgic politics or future projections and assess their increasing influence on our use of the past and present on our temporal experience and consequently on our social and political self positioning through the media
