

The background of the entire image is a deep black space filled with numerous small, distant stars. In the upper right quadrant, a bright, glowing star with a prominent white and yellow lens flare shines intensely. On the left side, a large, dark, and textured crescent moon is partially visible, its curved edge facing towards the center. A faint, glowing ring of stars or a nebula is visible in the center of the image, behind the main title text.

About *The Witness Of The Stars* by E W Bullinger The book entitled *The Witness Of The Stars* by Dr E W Bullinger contains from a Western Gentile branching of the Judeo Christian perspective in principle and in fact one of the earliest quite extensive for its 1893 original publication and now clearly a most faithful summary of the received precepts and traditions concerning the celestial witness and a credible testimony to the glorious Gospel of the Christ as it was known in Ancient times These earliest beliefs and primordial faith and expectations were recorded and preserved from the mythological Inner African Genesis of Humanity documented in the Denderah of the Egypts to latter day Greek reinterpreted mythologies all without doubt traced to Messianic hopes and aspirations of native and the primitive peoples of the world There are many prophecies in the Bible whose proper interpretation depend on *The Witness of the Stars* in order to accurately be known

The Witness of the Stars Ethelbert W. Bullinger, 1996-09 A consistent best seller redesigned for contemporary readers The Psalmist says The heavens declare the glory of God and the firmament showeth His handiwork Building upon ancient

astronomical sources and modern scientific data E W Bullinger shows how the constellations witness to the accuracy of biblical prophetic truths Numerous celestial charts and diagrams are provided to lend vivid support to his conclusions Includes numerous illustrations of the stars Combines scientific and historical data to support the Scriptures *Witness of the Stars* Ethelbert W. Bullinger, 1987-04-30 The *Witness of the Stars* by E W Bullinger is one of the best works available on Biblical astronomy Bullinger is very concise in his Biblical interpretations of constellations and star names His book is very informative as to where the constellation pictures came from a masterpiece that brings ancient light to a new generation In addition to teaching the constellations Bullinger's book gives insights that build faith in God The fact that most of the stars' ancient names can be found and were used in the Bible to convey messages in one word adds even more credence to the truth of God's Word and that fact that God is still in control The witness of the stars as explained in this book may well be a fulfillment of that passage in Romans 16 where Paul states that God has revealed the gospel to all nations For centuries men have looked to the stars for navigation and signs for successful farming By showing the Biblical symbolism of the constellations Bullinger a respected Bible scholar shows how the stars are also God's blackboard in the sky Readers who desire untouched evidence of God will find it in this historical account in the stars from ancient civilizations on the message God sent back then to us He telleth the number of the stars he calleth them all by their names Psalms 147:4 The stars reveal God's glory His power and His truth *The Witness of the Stars* E. W. Bullinger, 2018-08-28 The *Witness of the Stars* stands as one of the best explanations of the constellations in the context of Biblical wisdom This edition includes all of E W Bullinger's original charts and illustrations of the heavens above To compose this book E W Bullinger used his Biblical scholarship alongside research of

the origins of the astronomical constellations He demonstrates through a close reading of the Old and New Testaments how each of the star signs relates to the Bible s stories Gradually it is revealed how God makes himself known to us through the Bible s astronomy The symbolism of the star signs are shown as important in the Bible Their presence in verse relates not simply to their appearances such as Libra s scales or Aries as a ram but also the way in which Biblical figures behave after looking at the heavens for guidance The Book of Job is highlighted by Bullinger for being significantly influenced by the stars
