Power Tools Jeanne Dyches,Ashley S. Boyd,Katherine Baker,Alex Kaulfuss,2023-10-11 Virtually all

national standards now require students and teachers to understand the particulars of disciplinary literacy. But recently emerging scholarship suggests that disciplinary literacy is by itself an incomplete and potentially problematic approach to secondary literacy instruction. By asking students to think like or even be like experts, students may receive implicit messaging about whose knowledge is and isn't valued. Critical disciplinary literacy (CDL) creates space for and highlights connections between critical literacies and disciplinary literacies. CDL acknowledges disciplines as unique communities with their own specialized and often exclusionary skills, norms, practices, and discourses but deviates from conventional applications of disciplinary literacy by responding to the ways in which power systems and the analytic skills needed to understand them work differently based on the disciplines at hand. A CDL instructional approach acknowledges that applying the critical literacy skills of reading the word and the world to understand the power dynamics of vaccine distributions requires a different skill set and strategy approach than looking at textual representations of masculinity in *Romeo and Juliet*.

Written by a team of educators with over 70 combined years of classroom experience, *Power Tools 30 Critical Disciplinary Literacy Strategies for 6-12 Classrooms* offers readers research-based multidisciplinary, ready-to-implement disciplinary literacy strategies from critical literacy lenses. The book sets itself apart from other strategy textbooks by offering creative strategy implementation that calls attention to power systems. Educators can learn, for example, how they might employ read-alouds to explore the global refugee crisis or use the exit ticket strategy to help students reflect on the relationship between race and COVID statistics. *Power Tools 30 Critical Disciplinary Literacy Strategies for 6-12 Classrooms* provides standards-aligned lessons that both challenge and extend traditional engagement practices to build a more just world. Each chapter includes an overview of each strategy situated within the research of best practices. Two disciplinary examples for each CDL strategy, e.g., an example of a CDL think-aloud in seventh grade math and tenth grade ELA classroom. Chapters provide resources such as examples of student work, discussion prompts, dialogue between teacher and students, and reprintables. Ideas for addressing resistance to CDL instruction. Preservice and in-service teachers as well as teacher educators and researchers looking to do and support justice-oriented work in disciplinary spaces will find value in the book. *Power Tools* is an ideal text to implement in courses such as Disciplinary Literacy, Secondary Literacy, Content Area Literacy, Methods, Strategies for Teaching Social Justice, Multicultural Education, ELA methods, Science methods, Social Studies methods, and Mathematics methods.

Teaching Literacy in Sixth Grade Karen D. Wood, Maryann Mraz, 2005-05-13 Sixth grade marks the transition to middle school and for many students the transition to early adolescence. The sixth grade classroom is a place where problem solving and abstract thinking skills can flourish as teachers devise creative ways to integrate language arts with effective content area instruction. This book walks the reader through everyday life in a successful sixth grade language arts/social studies classroom and provides foundational knowledge and hands-on strategies for working with diverse learners.
