**Going Menopostal** Amy Alkon, 2025-05-20 Half of the population the female half is getting healthcare based on medical myth rather than evidence Going Menopostal is Amy Alkon s mission to change that This book started with a flash Alkon s first hot flash Drenching night sweats insomnia and brain fog soon followed along with shame at feeling bewilderingly enraged at everyone and everything Alkon an award winning science columnist and author wanted to turn to her doctor But there was a problem More than half of the medical care we get in the US may not be based on or supported by adequate evidence according to the US National Academy of Medicine Knowing this Alkon began a deep dive into the research on menopause and perimenopause the 3 to 10 years leading up to menopause when women s symptoms are widely ignored dismissed and misdiagnosed despite doctors having every intention of helping their patients She was shocked by what she found Most gynecology departments lack even one doctor with training and expertise in menopausal and perimenopausal medicine and they expect their maternity and general reproductive health specialists to treat these conditions outside their scope of practice without informing patients a violation of medical ethics Perimenopause is wrongly viewed and treated as menopause lite a time of lowered estrogen levels when estrogen levels actually soar making many women miserably symptomatic Few doctors know that symptomatic perimenopausal women actually tend to lack progesterone and that replacing it with safe FDA approved progesterone would alleviate their insomnia hot flashes and other suffering and counteract cell overgrowth that can lead to breast and endometrial cancer Many doctors deny estrogen to their menopausal patients unaware of current research showing that estrogen not only alleviates symptoms but protects against cardiovascular disease soon to kill 1 in 3 women bone fractures metabolic syndrome and more Findings from studies done largely on middle class white women are wrongly applied to black women and other women of color ignoring crucial differences such as generally lower triglyceride levels in black women that can make heart disease harder to detect This meticulously researched book is written in clear everyday language that you don t need the slightest science background to understand along with

Alkon's signature dark humor Alkon equips you with the exact words to confidently ask critical questions and motivate your doctor to partner with you and treat you appropriately instead of giving you the treatment her favorite bus driver got told by her doctor to just wait out her raging insomnia night sweats and hot flashes Alkon's ultimate goal Empowering all women with the science and strategies they need to get the evidence based care they expect and deserve **This Life's Tempestuous Sea** Douglas Charles Toland,2013-06-20 In a weak moment I have written a book Margaret Mitchell This book is a multilayered creation that touches on a wide array of topics many of them drawn from personal experiences Indeed you the lucky reader will be blessed with enough material for at least three books within one cover Why would I want to write such a multi themed book It wasn't my original intention Maybe I've learned an important lesson and won't do so next time Like many older folks I wanted to share what I have learned to be true and useful and couldn't seem to stay with a single topic I've lived long enough to confirm an important realization the gleanings from a well lived life are at least as important as knowledge gained vicariously through reading and classroom attendance But I think most people don't fully appreciate the value of their life lessons and end up taking most of them to the grave I want to counter that pattern and use this book to share as many of my gleanings as I can I also recognize several imminent dangers facing this nation and our planet and feel compelled to share these concerns Just as important I want my wife children and grandchildren to know more about who I was and who I've come to be I hope they will have occasions to use some of my wisdom *Organizing for Corporate Compliance* ,1992 **American Bookseller** ,1986 *Esquire* ,1988 **Newsweek** Raymond Moley,Samuel Thurston Williamson,Malcolm Muir,Rex Smith,Joseph Becker Phillips,1994 *Physical Evidence* Thomas T.
