

DBQ: Was Magellan Worth Defending?

Ferdinand Magellan was the first explorer to circumnavigate the globe. Beginning in September, 1519, Magellan left Spain with approximately 180 men and five ships but only 18 men and one ship returned. Magellan was not among them. Almost two years into the voyage, on April 25, 1521, Magellan was murdered in the Philippines. Not one of his men came to his rescue. Was Magellan worth defending? Because he was a great navigational leader, was firm and not cruel to his inexperienced crew, and because he fought for his beliefs, Magellan was worth defending.

Or because he put his crew in danger, was cruel to them, and lost sight of his mission, Magellan was not worth defending.
