shoulders then put it on your shoulders to squat it then press it back up and then set it down to do it all over again This is a complex and it will really get your heart rate up there and build you a solid cardiovascular system with no boring hours of cardio on the TV machines You can also do the same thing by doing high reps with just one exercise For example take barbell squats Take a lighter weight that would normally only do 15 and do it for 20 taking short breathing rests as you still hold the bar and finish your set of 20 This will really get your heart coming out of your chest after a week of doing these try and tell me you are not conditioning your heart to function better as you burn heaves of fat and add slabs of muscle to your frame I urge you to use these examples as your best cardio to burn fat and not muscle In turn you will start seeing some immediate results I mean who doesn't want flat abs and muscle by just doing simple brief and intense weight workouts Instead of boring themselves to death on machines with little to nothing to show for it Get lots more weight loss tips in my book **Ditch The Cardio** Donovan Ekstrom,2024-12-02 Here's the If your goal is to get or get lean and build up and maintain your cardiovascular health you don't have to hit the treadmill or do the latest fitness craze either Say goodbye to You also don't have to live on low carb island or restrict yourself to water and skipping meals to just to lose weight and gain it all back What if I told you that you could dramatically transform your physique eating the foods you love and everyday not only at certain times And what if I promised you could forever break free of the anxiety and headaches that most people do when following a diet and start enjoying your life again Those are just a small snippet of the myths and tales that keep women and men from maximizing their potential in weight loss building muscle mass or keeping fit This book is similar to authors such as Michael Matthews and Jason Fung In this book you're going to learn something most men and women will never know The exact step by step plan of working out and eating that makes losing 10 to 20 pounds of fat while building lean sexy muscle a breeze and it only takes 2-3 weeks This book reveals things like Imagine just 2 weeks from now being constantly complimented on how you look fantastic and asked what you've been doing lately Imagine enjoying the added benefits of vitality vigor high energy levels no more pains high spirits and knowing that you're warding off a lot of dangerous health ailments every day The bottom line is you CAN achieve that Fantastic Look without having your life consumed by it no long hours in the gym no starving yourself no crazy dangerous 300 bpm cardio sessions Scroll up click the Buy button now and begin your journey to a Muscular Leaner and Fantastic you *"Home Workouts for Busy People"* Aff Traderz,2025-05-27 No gym No time No excuses This 21 day bodyweight fat loss program is built for your lifestyle short effective and powerful workouts you can do right from your living room Whether you're a busy professional a parent or someone just getting started with fitness this book gives you a step by step daily routine designed to help you Burn fat fast Boost energy stamina Build discipline and confidence Create a lifelong habit without needing any equipment *The Fat Burn Revolution* Julia Buckley,2014-01-02 Looking for a way to shed stubborn fat or wondering why your current exercise programme isn't helping you slim down Having trouble breaking through a body fat or fitness plateau The Fat Burn Revolution demystifies fat burning fitness
