Area 51 the Sphinx Bob Mayer, 2014-10-21 Book 4 in the Area 51 series Dr Lisa Duncan and Special Forces officer Mike Turcotte know better than anyone that no secret is safe for long especially one that offers untold power Case in point no sooner does Turcotte's elite Area 51 team uncover a dormant alien ship in earth orbit than a group of alien human hybrids seizes it and uses its technology to commandeer a satellite array bristling with nuclear missiles Now they're demanding that humankind hand over the key to an ancient stash of alien technology or watch an entire continent be reduced to atomic rubble Doom seems certain as the required key is believed lost to the ages until an unwitting anthropologist discovers the first of many clues to its hiding place As Duncan and Turcotte race to reach the key and the powerful treasure it can unlock ahead of their alien foes the quest leads them deep into a deadly maze within the Great Sphinx of Giza The prize Nothing less than the legendary Ark of the Covenant

The Return of Planet-X Jaysen Q. Rand, 2007 The Return of Planet X is an educational informational source examining all aspects of this controversial subject including the record of X's Ancient Science of Prophecy its Phantom Astronomy Forbidden Archaeology and the Signs Of Its Approach This book examines the history and prophecy of Earth's many cultures throughout the millennia and their voluminous references to the reality of X's periodic passages The most current hypothesis used to examine X's next return through the solar system centers around the fact that X's extended orbit approximately every 3 600 years first passing through the solar system then back out again suggests that its destructive cycle occurs in two phases The first phase begins with X's initial pass through in 2009 separated by three years until its second phase This passage marks X's return leg back into deep space beginning again its 3 600 year long trek through the heavens X's last return visit through the solar system most likely coincided with the Hebrew's exodus from Egypt estimated around 1447 BC roughly 3 459 years ago Did God somehow come to Moses aid by staging a cosmic event that no one today understands The Mayan Celestial Calendar Codex inexplicably ends 21 December 2012 According to ancient Mayan cosmology time as we know it on Earth will reach its climax on that date Written across the scroll of time and space the author believes Planet X will first return in 2009 and again in 2012
