Three Theological Mistakes Ric Machuga, 2015-01-05 Is

the existence of God a matter of faith or knowledge Does God sometimes act miraculously or are there physical causes for everything Is morality absolute or relative Are humans truly free or does God s sovereignty determine everything When bad things happen is God the cause or are they the fault of humans Too frequently Christians answer these questions with a Yes to one side and a No to the other side Thomas Aquinas and Karl Barth answer Yes to both Following their model Machuga defends a third way which transcends the Enlightenment dichotomies of fideism vs rationalism supernaturalism vs naturalism relativism vs absolutism free will vs predestination and God s justice vs his mercy Machuga begins by showing how these false dichotomies grew out of the Enlightenment assumptions of mechanism universal quantification and mono causation He then corrects these demonstrably dubious assumptions by articulating a theory of dual causation The result is a thoroughly biblical understanding of God miracles and free will that can withstand the contemporary criticisms of both science and philosophy

Scripture and Metaphysics Matthew Levering, 2008-04-15 This book makes a major contribution to contemporary theological and philosophical debates bridging scriptural and metaphysical approaches to the triune God Bridges the gap between scriptural and metaphysical approaches to biblical narratives Retrieves Aquinas s understanding of theology as contemplative wisdom Structured around Aquinas s treatise on the triune God in his Summa Theologiae Argues that intellectual contemplation is part of a broader spiritual journey towards a better understanding of God Contributes to the current resurgence of Thomistic theology in both Protestant and Catholic circles

Pope Benedict XVI Vincent Twomey, 2009-09-03 Fr D Vincent Twomey a former doctoral student of Joseph Ratzinger and long time friend of the Pope felt the need to respond to the common question he heard often after the papal election What kind of person is the new Pope So often Twomey had read false depictions of both the man and his thought especially the image presented by the media as a grim enforcer Twomey offers here a unique double presentation of the man Pope Benedict XVI a theological portrait that encompasses both an overview of the writings teachings and thought of the brilliant theologian and spiritual writer as well as the man himself and his personality traits and how he communicates with others Twomey shows that the secret to the serene dignified behavior of Benedict is that he is open to

beauty as much as truth that he lives outside himself and is not preoccupied with his own self He also is a man that Twomey says has the courage to be imperfect showing he has a deep humility and strives for teaching the truth even when misunderstood or not presented as well as he would like Fr D Vincent Twomey S V D holds a PH D in Theology and is a Professor of Moral Theology at the Pontifical University at St Patrick s College in Ireland He is the author of several books including his most recent acclaimed study on the state of Irish Catholicism **The End Of Irish Catholicism** **Historical and Multidisciplinary Perspectives on Hope** Steven C. van den Heuvel,2020-07-20 This open access volume makes an important contribution to the ongoing research on hope theory by combining insights from both its long history and its increasing multi disciplinarity In the first part it recognizes the importance of the centuries old reflection on hope by offering historical perspectives and tracing it back to ancient Greek philosophy At the same time it provides novel perspectives on often overlooked historical theories and developments and challenges established views The second part of the volume documents the state of the art of current research in hope across eight disciplines which are philosophy theology psychology economy sociology health studies ecology and development studies Taken together this volume provides an integrated view on hope as a multi faced phenomenon It contributes to the further understanding of hope as an essential human capacity with the possibility of transforming our human societies **Freedom and Sin** Ross McCullough,2022-07-12 A fresh argument for a venerable but recently neglected solution to the problem of human freedom and divine sovereignty If God is the creator of all that is then God is the creator of everything we do This basic premise of Christian theology raises difficult questions How can we have free will if God is the source of all our actions And how can we explain the existence of evil without ascribing it to God Freedom and Sin resolves this conundrum through a classical position known as compatibilist indeterminism the idea that God can determine our free choices while not determining all our choices This solution which insists that God s agency is both non competitive with ours and is not implicated in our sins has been neglected in recent years but remains the most compelling response to philosophical objections to Christian doctrine In this volume Ross McCullough provides a detailed defense and exposition of compatibilist indeterminism showing how human freedom is not compromised but perfected by being fixed to the will of God With a novel re working of Hans Urs von Balthasar s account of analogy with an attention to everyday Christian concerns about suffering and with a consideration of challenging scriptural passages Jesus s cryptic explanation of parables in Mark 4 and Paul s account of election in Romans 9 McCullough demonstrates a commitment both to formidable theological questions and their concrete applications **The New Cambridge Companion to Christian Doctrine** Michael Allen,2022-11-17 This Companion guides the reader through the main topics and the most significant methods for practicing Christian theology The essays in this first part engage the ten most notable loci in Christian doctrine The ten essays in the second part address the most significant movements that have broad impact upon the practice of Christian doctrine **Informed Consent to Abortion** Caterina Milo,2025 In Informed Consent

to Abortion Caterina Milo argues that this politically polarised debate has neglected the crucial component of the decision making process Informed Consent IC She provides a legal and ethical framework of abortion law and professional guidelines by critically analysing the implications of the 2015 UK Supreme Court judgment in Montgomery v Lanarkshire Health Board on informed consent Milo grounds the theoretical debate in the realities of how the law presently responds and how it should respond to key ethical values informing contemporary medicine and health both nationally and internationally Reading John with St. Thomas Aquinas Michael Dauphinais, Matthew Levering, 2005 Written by leading experts on Aquinas's theology the essays in Reading John with St Thomas Aquinas bear common witness to a central theological conviction the tasks of biblical exegesis and speculative theology though distinct indwell and inform each other As the first book length study of the full breadth of Aquinas's Commentary on the Gospel of John this work illuminates the way in which thinking systematically or speculatively about revelation flows from questions raised within biblical exegesis itself Like any medieval biblical commentator Aquinas attempts to understand a biblical text not only in itself but also by appealing to parallel interpretive texts drawn from throughout the Bible as well as the accumulated insights of the Church Fathers This method enables him to penetrate deeply into the thought of the Bible recognizing that the biblical authors speaking from within the context of Israel and the Church raise questions that are theological and that belong to coherent speculative theological frameworks The result is in large part a speculative theological commentary that is not imposed on the biblical texts but emerges from it necessary conjunction of the inspired words of Scripture exegetical commentary and theological analysis The volume is both a study of Aquinas's thought and an attempt to foster contemporary exegetical approaches that emphasize the need to interpret Scripture speculatively through the historical lens of tradition **Theological Negotiations** Douglas

Farrow, 2018-11-06 One of today's leading theologians tackles some of the most significant themes in contemporary theology Douglas Farrow explores key theological loci such as nature and grace and justification and sanctification introduces theological giants such as Anselm Aquinas Luther and Barth and examines contemporary questions about sacraments and unity Throughout his explorations Farrow invites readers to consider how to negotiate controversy in Christian theology especially between Catholics and Protestants arguing that theology does its best work at the intersection of topics in dispute
