The Stone Reader Modern Philosophy In 133 Arguments:

The Stone Reader Peter Catapano, Simon Critchley, 2015-12-03 A timeless volume to be read and treasured The Stone Reader provides an unparalleled overview of contemporary philosophy Once solely the province of ivory tower professors and college classrooms contemporary philosophy was finally emancipated from its academic closet in 2010 when The Stone was launched in The New York Times First appearing as an online series the column quickly attracted millions of readers through its accessible examination of universal topics like the nature of science consciousness and morality while also probing more contemporary issues such as the morality of drones gun control and the gender divide Now collected for the first time in this handsomely designed volume The Stone Reader presents 133 meaningful and influential essays from the series placing nearly the entirety of modern philosophical discourse at a reader's grasp The book divided into four broad sections Philosophy Science Religion and Morals and Society opens with a series of questions about the scope history and identity of philosophy What are the practical uses of philosophy Does the discipline begun in the West in ancient Greece with Socrates favor men and exclude women Does the history and study of philosophy betray a racial bias against non white thinkers or geographical bias toward the West These questions and others form a foundation for readers as the book moves to the second section Science where some of our most urgent contemporary philosophical debates are taking place Will artificial intelligence compromise our morality Does neuroscience undermine our free will Is there a legitimate place for the humanities in a world where science and technology appear to rule Should the evidence for global warming change the way we live or die In the book's third section Religion and Morals we find philosophy where it is often at its best sharpest and most disturbing working through the arguments provoked by competing moral theories in the face of real life issues and rigorously addressing familiar ethical dilemmas in a new light Can we have a true moral life without belief in God What are the dangers of moral relativism In its final part Society The Stone Reader returns to its origins as a forum to encourage philosophers who are willing to engage closely critically and analytically with the affairs of the day including economic inequality technology and racial discrimination In directly confronting events like the September 11 attacks the killing of Trayvon Martin the Sandy Hook School massacre the essays here reveal the power of philosophy to help shape our viewpoints on nearly every issue we face today With an introduction by Peter Catapano that details the column's founding and distinct editorial process at The New York Times and prefatory notes to each section by Simon Critchley The Stone Reader promises to become not only an intellectual landmark but also a confirmation that philosophy is indeed for everyone

Modern Ethics in 77 Arguments Peter Catapano, Simon Critchley, 2017-08-22 From the editors of the widely influential The Stone Reader comes the most thorough and engaging guide to modern ethical thought available Since 2010 The Stone an enormously popular column in the New York Times has interpreted and reinterpreted age old inquiries that speak to our contemporary condition Having done for modern ethics what The Stone Reader did for modern philosophy this portable

volume features an assortment of essays culled from the archives of an online Times series that has attracted millions of readers through accessible examinations of longstanding topics like consciousness religious belief and morality Presenting the most thorough and accessible guide to modern ethical thought available New York Times editor Peter Catapano and best selling philosopher Simon Critchley curate a fascinating culture of debate and deliberation that would have otherwise gone undiscovered From questions of gun control and drone warfare to the morals of vegetarianism and marriage this book emancipates ethics from the province of ivory tower classrooms to become a centerpiece of discussions for years to come

Melville among the Philosophers Corey McCall, Tom Nurmi, 2017-10-18 For more than a century readers have found Herman Melville's writing rich with philosophical ideas yet there has been relatively little written about what exactly is philosophically significant about his work and why philosophers are so attracted to Melville in particular This volume addresses this silence through a series of essays that 1 examine various philosophical contexts for Melville's work 2 take seriously Melville's writings as philosophy and 3 consider how modern philosophers have used Melville and the implications of appropriating Melville for contemporary thought Melville among the Philosophers is ultimately an intervention across literary studies and philosophy that carves new paths into the work of one of America's most celebrated authors a man who continues to enchant and challenge readers well into the twenty first century

Question Everything Peter Catapano, Simon Critchley, 2022-10-25 An essential addition to the Stone Reader series Question Everything is a groundbreaking collection of philosophical essays from some of our foremost thinkers and storytellers When The Stone Reader a landmark collection of 133 essays from the New York Times award winning philosophy column first published in 2015 the world urgently needed insight and wisdom and for many the book served as a bulwark of reason against the rising tide of post fact rhetoric Now as disinformation continues to run rampant and our rights are increasingly called into question editors Peter Catapano and Simon Critchley contend that philosophy in the public sphere is more crucial than ever Like The Stone Reader and its sequel Modern Ethics in 77 Arguments Question Everything delivers the contrarian views sound arguments and creative approaches to traditional opinion writing that loyal readers of the series have come to expect Its essays however are not organized by traditional categories like ethics or epistemology but thematically by question thirteen of them in all the first twelve like the hours of a clock ticking us through the tumultuous time in which these pieces were written from late 2015 to 2021 with the last speculating into an uncertain future The volume begins with the most fundamental of questions What does it mean to be human There contemporary thinkers from Martha Nussbaum to Bernard Henri Lévy explore the essence of who we are as a species The next question Is democracy possible interrogates our social and political ideals While Malka Older calls into question the viability of our institutions philosophers Gary Gutting and Alex Rosenberg reassess the meaning of patriotism And onward with more timeless struggles What is happiness Does life have meaning Finally it asks Is this the end of the world as we know it Now what While its foundation and core consists of the

work of professional scholars and philosophers Question Everything also features a number of prominent artists and thinkers who may never appear on a philosophy syllabus including among others novelist Elena Ferrante actor Cate Blanchett filmmaker Errol Morris musician Sonny Rollins and artist Ai Weiwei all of whom offer insights shaped by decades of devotion to and practice of their crafts Designed both for immediate gratification and long term use Question Everything with an introduction by Catapano is not only an essential addition to a much loved series but an act of resistance a product as Catapano writes of the spirit of agitation and inquiry that has been integral to the human enterprise from the beginning of recorded history

Philosophy and Occupational Therapy Steven Taff,2024-06-01 Philosophy and Occupational Therapy Informing Education Research and Practice provides an overview of the most influential philosophical movements from past to present and shows how these philosophies are a foundational yet underutilized element of occupational therapy education research and practice Editor Steven D Taff PhD OTR L FNAP FAOTA fills a gap in existing occupational therapy literature by exploring the major thinkers and concepts of numerous different philosophical movements and examining their implications Taff and a multitude of chapter authors demonstrate that the vital points of human existence are found in philosophy as well as science and that occupational therapy should incorporate a clearly articulated philosophical perspective into its evidence based and measurement driven paradigm Each chapter offers a basic description of a philosophy outlines major thinkers and concepts and ultimately summarizes the implications for occupational therapy education research and practice Philosophy and Occupational Therapy Informing Education Research and Practice is a unique and essential book for occupational therapy educators researchers and clinicians that will enrich the teaching learning process ground research with depth and clarity and spark discussion among professionals about reviving the use of philosophy in current occupational therapy practice

What Philosophy Can Do Gary Gutting,2015-08-20 A brilliant demonstration of what philosophy can do and how it is essential to human integrity and identity Simon Critchley coeditor of The Stone Reader In What Philosophy Can Do Gary Gutting takes a philosopher s scalpel to modern life s biggest questions and the most powerful forces in our society politics science religion education and capitalism Along the way he introduces readers to powerful philosophical tools from inductive and deductive logic to the Principle of Charity which they can use to make better sense of current debates Interweaving his discussion of contemporary issues with philosophical concepts from Aristotle to Michel Foucault and John Rawls Gutting shows how philosophy can enrich public discussions about our most urgent issues

Graham Priest on Dialetheism and Paraconsistency Can Başkent,Thomas Macaulay Ferguson,2020-01-01 This book presents the state of the art in the fields of formal logic pioneered by Graham Priest It includes advanced technical work on the model and proof theories of paraconsistent logic in contributions from top scholars in the field Graham Priest s research has had a considerable influence on the field of philosophical logic especially with respect to the themes of dialetheism the thesis that there exist true but inconsistent sentences and paraconsistency an account of deduction in which contradictory premises do

not entail the truth of arbitrary sentences Priest's work has regularly challenged researchers to reappraise many assumptions about rationality ontology and truth This book collects original research by some of the most esteemed scholars working in philosophical logic whose contributions explore and appraise Priest's work on logical approaches to problems in philosophy linguistics computation and mathematics They provide fresh analyses critiques and applications of Priest's work and attest to its continued relevance and topicality The book also includes Priest's responses to the contributors providing a further layer to the development of these themes

Varieties of Understanding Stephen R. Grimm, 2019-08-22 What does it mean to understand something What is the essence of understanding when compared across multiple domains Varieties of Understanding offers new and original work on the nature of understanding raising questions about what understanding looks like from different perspectives and exploring how ordinary people use the notion of understanding According to a long historical tradition understanding comes in different varieties In particular it is said that understanding people has a different epistemic profile than understanding the natural world that it calls on different cognitive resources and brings to bear distinctive normative considerations Thus in order to understand people we might need to appreciate or in some way sympathetically reconstruct the reasons that led a person to act in a certain way By comparison when it comes to understanding natural events like earthquakes or eclipses no appreciation of reasons or acts of sympathetic reconstruction is arguably needed mainly because there are no reasons on the scene to even be appreciated and no perspectives to be sympathetically pieced together This volume brings together some of the world's leading philosophers psychologists and theologians in order to shed light on the various ways in which we understand the world pushing debates on this issue to new levels of sophistication and insight

The Origins of Creativity Edward O. Wilson, 2017-10-03 Brimming with ideas The Origins of Creativity approaches creativity scientifically but sensitively feeling its roots without pulling them out Economist In a stirring exploration of human nature recalling his foundational work Consilience Edward O Wilson offers a luminous Kirkus Reviews reflection on the humanities and their integral relationship to science Both endeavors Wilson argues have their roots in human creativity the defining trait of our species By studying fields as diverse as paleontology evolution and neurobiology Wilson demonstrates that creative expression began not 10 000 years ago as we have long assumed but more than 100 000 years ago in the Paleolithic Age A provocative investigation into what it means to be human The Origins of Creativity reveals how the humanities have played an unexamined role in defining our species With the eloquence optimism and pioneering inquiry we have come to expect from our leading biologist Wilson proposes a transformational Third Enlightenment in which the blending of science and humanities will enable a deeper understanding of our human condition and how it ultimately originated

The Bilateral Mind as the Mirror of Nature James Blachowicz, 2023-01-05 This book provides a framework that encompasses both physics and cognitive science integrating them into a theory of everything to establish a basis for both our scientific and humanistic endeavours It explores the implications of brain laterality for

understanding the emergence of mind and its relation to the physical world arguing that the analytic vs holistic cognitive differences of the left and right human cerebral hemispheres are key to understanding not only human self consciousness and language but also sociocultural phenomena ranging from the emergence of the scientific method and axes of political orientation to the direction of development of conceptions of God and the fundamental differences between polarizing philosophical traditions In a further step the book draws on the Darwinian principle that our cognitive apparatus is shaped by the environment in which it evolved to argue that human bilaterality mirrors the fundamental hylomorphic relation between formal organization and material components that constitutes physical nature itself The logical division between holistic and analytic categories thereby offers a principled basis for a metaphilosophy *Heidegger and the Lived Experience of Being a University Educator* Joshua Spier, 2018-02-09 This book explores the lived meanings of being a university educator from an existential perspective The book enriches our understanding of educators experiences in light of Martin Heidegger s early philosophy and vice versa opening our understanding of Heidegger s philosophy through educators experiences Also drawing on the philosophical insights of Hans Georg Gadamer the book situates the purposes and experiences of the educator in historical and contemporary contexts In doing so the author reveals that being a university educator is essentially characterised by conversation and time Inspired by the author s own experiences of teaching community development and sociology within a youth work specific bachelor degree the book invites educators to apply existential philosophy as a tool to reflect upon their own experiences and to reconnect with the question of what it means to be an educator in their shared world of practice This thoughtful volume is sure to resonate with the experiences of readers who educate within a university context **Insult to Our Planet & The Florida Keys** Jerrold J. Weinstock, 2017-12-29 Explore the Wonders Face the Reality The medical definition of INSULT is to cause some kind of physical or mental injury Through the eyes of this psychiatrist and his raw existential passion for the planet a web of insult is untangled to expose environmental degradation we face today and its impact on the human spirit For over fifty years Dr Weinstock has lived in the Florida Keys fishing the Atlantic and the Gulf waters off of Key West A prize winning angler he shares exciting stories of the past in this sport fishing mecca You ll feel the humidity as he fights the Permit on Boca Chica beach hear the screeching of the terns while bonefishing on Marvin Key Through twist and turns and stories of the mind the author demonstrates the healing power of nature Hundreds colorful photos display the glorious diversity of fish and natural beauty from Key West to Alaska exploring the uplifting and the dismal view At the helm are many years of research that uncover abuses of nature in the Florida Keys as a metaphor for global environmental tragedies Question Everything Peter Catapano, Simon Critchley, 2022-10-25 An essential addition to the Stone Reader series Question Everything is a groundbreaking collection of philosophical essays from some of our foremost thinkers and storytellers When The Stone Reader a landmark collection of 133 essays from the New York Times award winning philosophy column first published in 2015 the world urgently needed insight and wisdom and for

many the book served as a bulwark of reason against the rising tide of post fact rhetoric Now as disinformation continues to run rampant and our rights are increasingly called into question editors Peter Catapano and Simon Critchley contend that philosophy in the public sphere is more crucial than ever Like The Stone Reader and its sequel Modern Ethics in 77 Arguments Question Everything delivers the contrarian views sound arguments and creative approaches to traditional opinion writing that loyal readers of the series have come to expect Its essays however are not organized by traditional categories like ethics or epistemology but thematically by question thirteen of them in all the first twelve like the hours of a clock ticking us through the tumultuous time in which these pieces were written from late 2015 to 2021 with the last speculating into an uncertain future The volume begins with the most fundamental of questions What does it mean to be human There contemporary thinkers from Martha Nussbaum to Bernard Henri L vy explore the essence of who we are as a species The next question Is democracy possible interrogates our social and political ideals While Malka Older calls into question the viability of our institutions philosophers Gary Gutting and Alex Rosenberg reassess the meaning of patriotism And onward with more timeless struggles What is happiness Does life have meaning Finally it asks Is this the end of the world as we know it Now what While its foundation and core consists of the work of professional scholars and philosophers Question Everything also features a number of prominent artists and thinkers who may never appear on a philosophy syllabus including among others novelist Elena Ferrante actor Cate Blanchett filmmaker Errol Morris musician Sonny Rollins and artist Ai Weiwei all of whom offer insights shaped by decades of devotion to and practice of their crafts Designed both for immediate gratification and long term use Question Everything with an introduction by Catapano is not only an essential addition to a much loved series but an act of resistance a product as Catapano writes of the spirit of agitation and inquiry that has been integral to the human enterprise from the beginning of recorded history **Talking Book Topics** ,2017 □
