Television Melanie Kohnen, 2015-11-06 This book traces the uneven history of queer media visibility through crucial turning points including the Hollywood Production Code era the AIDS crisis of the 1980s the so called explosion of gay visibility on television during the 1990s and the re imagination of queer representations on TV after the events of 9 11 Kohnen intervenes in previous academic and popular accounts that paint the increase in queer visibility over the past four decades as a largely progressive development She examines how and why a limited and limiting concept of queer visibility structured around white gay and lesbian characters in committed relationships has become the embodiment of progressive LGBT media representations She also investigates queer visibility across film TV and print media and highlights previously unexplored

connections such as the lingering traces of classical Hollywood cinema's queer tropes in the X Men franchise. Across all chapters, narratives and arguments emerge that demonstrate how queer visibility shapes and reflects not only media representations but the real and imagined geographies, histories and people of the American nation.

Brevity and the Short Form in Serial Television Shannon Wells-Lassagne, Sylvaine Bataille, Florence Cabaret, 2024-07-30. Focuses on television fictions as short forms rather than expansive narratives and how this relates to their seriality. 12 case studies focusing on the short form in television fiction. Covers a wide array of television, be it network, cable or streaming, from several different national origins. Focuses not just on fiction but on relatively unstudied aspects of television: miniseries, web series, video essays as a form of brevity in television aesthetics. Studies both television production, the TV series themselves as well as reception, video essays. Features an extended interview with a television practitioner, Vincent Poymiro, the screenwriter of the French series *En th rapie*, an adaptation of *BeTipul In Treatment*. This book offers various approaches to understanding the short form in television. The collection is structured in three parts: first, engaging with the concept of brevity as inherent to television fiction; before going on to examine how the rapidly changing landscape of television, outside traditional networks, might adapt this trope to new contexts made accessible by streaming platforms. The final part of the study examines how this short form is inextricable from a larger context, either in its relation to seriality, from the crossover to the bottle episode, and or a larger structure, for example, in the reception of a larger whole through short but evocative clips, in order to better weigh their impact. From Easter Egg fan videos to Analyses of *The*. The collection concludes with an interview with award-winning screenwriter Vincent Poymiro about his French series *En th rapie*, an adaptation of *BeTipul In Treatment*.
