The Return of Sacred Architecture Herbert Bangs, 2006-11-14 An inspirational call for a return to the tenets of traditional architecture as a remedy for the dehumanizing standards of modern architecture Explains how modern architecture is emblematic of our current estrangement from the spiritual principles that shaped humanity's greatest civilizations Reveals how the ancient laws of sacred proportion and harmony can be restored The ugly buildings that characterize the modern landscape are inferior not only to the great cathedrals of medieval Europe and the temples of ancient Egypt and Greece but even to lesser buildings of the more recent past The great masterworks of our ancestors spoke to humanity's higher nature Architect Herbert Bangs reveals how today's dysfunctional buildings bring out the worst in humanity reinforcing that which is most base within us He shows how through the ancient laws of proportion and number architecture once expressed the harmonious relationship between man and the cosmos In early times the architect worked within a sacred and esoteric tradition of creating structures through which human beings could gain insight into the nature of the divine reality Today that tradition has been abandoned in favor of narrowly defined utilitarian principles of efficiency and economy In *The Return of Sacred Architecture* Bangs provides the key to freeing architecture from the crude functionality of the twentieth century the architects of the modern human landscape must find the deep felt connection to the cosmos that guided the inner lives of those who built the temples of the past The form of their buildings will then reflect the sacred patterns of geometry and proportion and bring forth greater harmony in the world

Religion and the Order of Nature Seyyed Hossein Nasr, 1996-09-26 The current ecological crisis is a matter of urgent global concern with solutions being sought on many fronts In this book Seyyed Hossein Nasr argues that the devastation of our world has been exacerbated if not actually caused by the reductionist view of nature that has been advanced by modern secular science What is needed he believes is the recovery of the truth to which the great enduring religions all attest namely that nature is sacred Nasr traces the historical process through which Western civilization moved away from the idea of nature as sacred and embraced a world view which sees humans as alienated from nature and nature itself as a machine to be dominated and manipulated by humans His goal is to negate the totalitarian claims of modern science and to re-open the way to the religious view of the order of nature developed over centuries in the cosmologies and sacred sciences of the great traditions Each tradition Nasr shows has a wealth of knowledge and experience concerning the order of nature The resuscitation of this knowledge he argues would allow religions all over the globe to enrich each other and cooperate to heal the wounds inflicted upon the Earth

The Sistine Chapel: a Study in Celestial Cartography William John Meegan, 2012-11-30

GODS MISSIVE TO THE SOUL THE SISTINE CHAPEL A Study in Celestial Cartography is a highly mystical and contemplative inquiry into The Mysteries and Esoteric Teachings of the Catholic Church The Catholic Church's only onus in the world is to rearticulate the sacred scriptures esoterically into as many artistic venues as possible Through a comprehensive comparative analysis of the symbolic and esoteric patterns codified to the Judeo Christian Scriptures the landscape of Jerusalem Chartres Cathedral stone and glass Dante Alighieris La Divina Commedia pen and ink the Sistine Chapel mosaics paint and wet plaster and Saint Peters Basilica marble the reader can determine for him or herself the efficacy of the esoteric science which hails from the dawn of the time space continuum as a direct missive from God The author discovered a relatively simple and yet extremely sophisticated mathematical and grammatical system of thought in ancient literature the integration of the Seven Liberal Arts Antiquity developed this esoteric science inherent in the soul psyche to codify the Word of God esoterically into the world's sacred literature Each letter of the world's sacred literature is symbolized and alphanumerically structured which makes the interpretation of each word far more important than the sum of its letters The Holy Writ i e the world's religious literature is an encyclopedic library of knowledge relating wholly to the soul psyche There is no purpose for esotericism's existence other than for God to have a one on one relationship with the soul psyche Why is the soul psyche seemingly in the world How did the soul psyche come to its present state of existence What

can the soul psyche do to extricate itself from its plight when the dynamic forces of the world become too oppressive for it to bear

Picknett,2001-09-01 In recent years alternative historians have gained remarkable insight into the mysteries of ancient Egypt but according to Lynn Picknett and Clive Prince their discoveries tie into a dangerous conspiracy nearly fifty years in the making At the center of this conspiracy is a group of respected powerful individuals who believe that the ancient Egyptian gods are really extraterrestrials who will soon return to earth The conspirators have intimate and exclusive knowledge of this momentous second coming but they insist on keeping it to themselves What could be the purpose of such a conspiracy Why are the conspirators so desperate to keep their information a secret And what does it mean for mankind In this riveting well researched book Picknett and Price offer compelling evidence that the conspiracy exists and expose the insidious motivations of the individuals and organizations behind it The Sacred Center John Michell,2009-03-02 The symbolism and power

behind sacred locations in ancient and modern times Explains the need and role for ritual centers in modern society Examines ancient territorial centers in ancient Egypt Greece Africa and Asia and Iceland and the British Isles Reveals the code of number and geometry behind the idealistic social structure of the ritual center formed to imitate the heavenly order Symbols of ritual centers are among the most persistent elements of myth and belief between cultures widely separated in time and space Every tribe and state had its generation center a sacred area within its heartland where its legendary founders gave birth to its people and established their laws Within the inner sanctum of the sanctuary was an altar or pillar the omphalos or navel stone that marked the midpoint of the home territory and represented the world pole on which everything revolved It was the focus of a perpetual cycle of rituals and festivals that passed with the seasons around the country and held its people under the spell of a golden age In this book John Michell reveals the precise methods by which the ancients located the appropriate centers and adopted them as sanctuaries The same principles of ritual geography in the siting of Akhenaten's capital in Egypt and Megalopolis in classical Greece apply also to the traditional centers of small territories and islands The rediscovery of these sites such as the spot at the center of Ireland where the Celtic High Kings were installed sheds new light on the ritualized order of prehistoric societies and the sacred scientific code on which they were founded These revelations from the distant past are of great significance in present times for in them are the secrets of harmony on every scale from the personal to the universal Restoring the sacred center to its former place of prominence offers the possibility of a renaissance of human culture ideally centered upon the image of a perfectly ordered Cosmos
