Global Secularisms in a Post-Secular Age Michael Rectenwald, Rochelle Almeida, George Levine, 2015-10-16 Global Secularisms addresses the state of and prospects for secularism globally Drawing from multiple fields it brings together theoretical discussion and empirical case studies that illustrate on the ground extant secularisms as they interact with various religious political social and economic contexts Its point of departure is the fact that secularism is plural and that various secularisms have developed in various contexts and from various traditions around the world Secularism takes on different social meanings and political valences wherever it is expressed The essays collected here provide numerous points of contact between empirical case studies and theoretical reflection This multiplicity informs and challenges the conceptual

theorization of secularism as a universal doctrine Analyses of different regions enrich our understanding of the meanings of secularism providing comparative range to our notions of secularity Theoretical treatments help to inform our understanding of secularism in context enabling readers to discern what is at stake in the various regional expressions of secularity globally While the bulk of the essays are case based research the current thinking of leading theorists and scholars is also included

How (Not) to Be Secular James K. A. Smith, 2014-05-01 How Not to Be Secular is what Jamie Smith calls your hitchhiker's guide to the present it is both a reading guide to Charles Taylor's monumental work *A Secular Age* and philosophical guidance on how we might learn to live in our times Taylor's landmark book *A Secular Age* 2007 provides a monumental incisive analysis of what it means to live in the post Christian present a pluralist world of competing beliefs and growing unbelief Jamie Smith's book is a compact field guide to Taylor's insightful study of the secular making that very significant but daunting work accessible to a wide array of readers Even more though Smith's *How Not to Be Secular* is a practical philosophical guidebook a kind of how to manual on how to live in our secular age It ultimately offers us an adventure in self understanding and maps out a way to get our bearings in today's secular culture no matter who we are whether believers or skeptics devout or doubting self assured or puzzled and confused This is a book for any thinking person to chew on

Theism and Atheism in a Post-Secular Age Morteza Hashemi, 2017-07-05 This book examines the post secular idea of religion for non believers The new form of unbelief which is dubbed as tourist atheism is not based on absolute rejection of religion as a dangerous illusion or mere prejudice Tourist atheists instead consider religion as a cultural heritage and a way of seeking perfection What are the origins of these new forms of atheism What are the implications of the emergence of a type of atheism which is more open toward religious teachings rituals arts and world views Hashemi argues that public intellectuals must consider that it is a sign of a post secular age in which believers and non believers go beyond mere tolerance and engage in a creative process of co practice and co working

Bonhoeffer's Religionless Christianity in Its Christological Context Peter Hooton, 2020-02-06 The German theologian Dietrich Bonhoeffer understood Western civilization to be approaching a completely religionless age to which Christians must respond and adapt This book explores Bonhoeffer's own response to this challenge his concept of a religionless Christianity and its place in his broader theology It does this first by situating the concept in a present day Western socio historical context It then considers Bonhoeffer's understanding and critique of religion before examining the religionless Christianity of his final months in the light of his earlier Christ centred theology The place of mystery paradox and wholeness in Bonhoeffer's thinking is also given careful attention and non religious interpretation is taken seriously as an ongoing task The book aspires to present religionless Christianity as a lucid and persuasive contemporary theology and does this always in the presence of the question which inspired Bonhoeffer's theological journey from its academic beginnings to its very deliberately lived end the question Who is Jesus Christ

Religion and Atheism Anthony Carroll,Richard Norman,2016-11-25 Arguments between those who hold religious beliefs and those who do not have been at fever pitch They have also reached an impasse with equally entrenched views held by believer and atheist and even agnostic alike This collection is one of the first books to move beyond this deadlock Specially commissioned chapters address major areas that cut across the debate between the two sides the origin of knowledge objectivity and meaning moral values and the nature of the human person and the good life and the challenge of how to promote honest and fruitful dialogue in the light of the wide diversity of beliefs religious and otherwise Under these broad headings leading figures in the field examine and reflect upon Secular and religious humanism The idea of the sacred The vexed issue of science in both religious and secular accounts of knowledge Spirituality for the godless Non western perspectives on the atheism theism debate A key feature of the collection is a dialogue between Raymond Tallis and Rowan Williams former Archbishop of Canterbury Religion and Atheism Beyond the Divide will interest anyone who is concerned about the clash between the religious and the secular and how to move beyond it as well as students of ethics philosophy of religion and religious studies

Provincializing the Bible Norman Jones,2018-01-29 Why in our supposedly secular age does the Bible feature prominently in so many influential and innovative works of contemporary U S literature More pointedly why would a book indelibly allied with a long history of

institutionalized oppressions play a supporting role and not simply as an object of critique in a wide variety of landmark literary representations of marginalized subjectivities The answers to these questions go beyond mere playful re appropriations or subversive resignifications of biblical themes figures and forms This book shows how certain contemporary authors invoke the Bible in ways that undermine clear distinctions between subversive and traditional indeed that undermine clear distinctions between secular and sacred By tracing a key source of such complex literary invocations of the Bible back to William Faulkner s major novels Provincializing the Bible argues that these literary works which might be termed postsecular ironically provincialize the Bible as a means of reevaluating and revalorizing its significance in contemporary American culture

Global Secularisms in a Post-Secular Age Michael Rectenwald,Rochelle Almeida,George Levine,2015-10-16 Global Secularisms addresses the state of and prospects for secularism globally Drawing from multiple fields it brings together theoretical discussion and empirical case studies that illustrate on the ground extant secularisms as they interact with various religious political social and economic contexts Its point of departure is the fact that secularism is plural and that various secularisms have developed in various contexts and from various traditions around the world Secularism takes on different social meanings and political valences wherever it is expressed The essays collected here provide numerous points of contact between empirical case studies and theoretical reflection This multiplicity informs and challenges the conceptual theorization of secularism as a universal doctrine Analyses of different regions enrich our understanding of the meanings of secularism providing comparative range to our notions of secularity Theoretical treatments help to inform our understanding of secularism in context enabling readers to discern what is at stake in the various regional expressions of secularity globally While the bulk of the essays are case based research the current thinking of leading theorists and scholars is also included

Secular Powers Julie E. Cooper,2024-05-31 Secularism is usually thought to contain the project of self deification in which humans attack God s authority in order to take his place freed from all constraints Julie E Cooper overturns this conception through an incisive analysis of the early modern justifications for secular politics While she agrees that secularism is a means of empowerment she argues that we have misunderstood the sources of secular empowerment and the kinds of strength to which it aspires Contemporary understandings of secularism Cooper contends have been shaped by a limited understanding of it as a shift from vulnerability to power But the works of the foundational thinkers of secularism tell a different story Analyzing the writings of Hobbes Spinoza and Rousseau at the moment of secularity s inception she shows that all three understood that acknowledging one s limitations was a condition of successful self rule And while all three invited humans to collectively build and sustain a political world their invitations did not amount to self deification Cooper establishes that secular politics as originally conceived does not require a choice between power and vulnerability Rather it challenges us today as then to reconcile them both as essential components of our humanity

Religion and Secular Modernity in Russian Christianity, Judaism, and Atheism Ana Siljak,2024-11-15 Religion

and Secular Modernity in Russian Christianity Judaism and Atheism is a multifaceted account of the engagement between religion and the secular in Russia's Christian Jewish and atheist traditions Ana Siljak brings together an interdisciplinary group of leading scholars to present unique perspectives on the secularization dynamic in Russia and the Soviet Union telling stories about theologians sects churches poets and artists From the Jewish Christian priest Alexander Men to the cross dressing poet Zinaida Gippius to the Soviet promoter of Yiddish theater Solomon Mikhoels *Religion and Secular Modernity in Russian Christianity Judaism and Atheism* gives a voice to a variety of actors who have grappled with the possibilities of faith and unbelief in an industrialized modern and seemingly secular world Now more than ever as one narrative of Russia's religious history dominates official Russian accounts alternative perspectives of the relationship between Russian religion and secularism should be highlighted and emphasized

American Literature in Transition, 1876-1910: Volume 4 Lindsay V. Reckson, 2022-08-18 Addressing US literature from 1876 to 1910 this volume aims to account for the period's immense transformations while troubling the ideology of progress that underwrote much of its self understanding This volume queries the various forms and formations of post Reconstruction American literature It contends that the literature of this period most often referred to as turn of the century might be more productively oriented by the end of Reconstruction and the haunting aftermath of its emancipatory potential than by the logic of temporal and social advance that underwrote the end of the century and the beginning of the Progressive Era Acknowledging that nearly all US literature after 1876 might be described as post Reconstruction the volume invites readers to reframe this period by asking under what terms did post Reconstruction American literature challenge or re consolidate the nation as an affective political and discursive phenomenon And what kind of alternative pasts and futures did it write into existence

Cosmopolitanism, Religion and the

Public Sphere Maria Rovisco, Sebastian Kim, 2014-02-05 Although emerging scholarship in the social sciences suggests that religion can be a potential catalyst of cosmopolitanism and global citizenship few attempts have been made to bring to the fore new theoretical positions and empirical analyses of how cosmopolitanism as a philosophical notion a practice and identity outlook can also shape and inform concrete religious affiliations Key questions concerning the significance of cosmopolitan ideas and practices in relation to particular religious experiences and discourses remain to be explored both theoretically and empirically This book takes as its starting point the emergence of cosmopolitanism as a major interdisciplinary field as a springboard for generating a productive dialogue among scholars working within a variety of intellectual disciplines and methodological traditions The chapter contributions offer a serious attempt to critically engage both the limitations and possibilities of cosmopolitanism as an analytical and critical tool to understand a changing religious landscape in a globalizing world namely the so called new religious diversity religious conflict and issues of migration multiculturalism and transnationalism vis vis the public exercise of religion The contributors work is situated in a range of world sites in Africa India North America Latin America and Europe This work will be of great interest to students and scholars of globalization religion and politics and the sociology of religion
