The Style Of Connectedness Gravity's Rainbow And Thomas Pynchon:

The Style of Connectedness Thomas Moore, 1987 Thomas Pynchon's *Gravity's Rainbow* arguably one of the greatest works of fiction in this century has often been considered despairing absurdist or nihilistic. Now in a monumental effort to make Pynchon's work more accessible, Thomas Moore surveys all the major and often confusing backgrounds in *Gravity's Rainbow* from archaic myths to quantum physical theory from romantic thought to rocket technology from seventeenth-century Puritanism through the ideas of Weber, Jung, and Marshall McLuhan to the worlds of Weimar and Hollywood movies to help Pynchon's reader understand the weird, frightening, funny, lyrical, surreal, and ultimately hopeful cosmos of Pynchon's fictions. By exploring the novel's internal strategies and its brilliant integrations of background information, Moore illustrates how *Gravity's Rainbow* remains movingly humane as its author, the agonized mediator of a bewildering field of cultural information, remains excruciatingly sensitive to every human image and gesture, searching for the chances for love and connection that still hide in the vast designs of things. The reader of Moore's work should emerge with a thorough appreciation of Pynchon's unique style, of his optimism, of his intense moralism, and of the justness of the widespread claim that Pynchon is the most brilliant encyclopedic writer of fiction since Joyce. **Gravity's Rainbow, Domination, and Freedom** Luc Herman, Steven C. Weisenburger, 2013 Herman and Weisenburger put the novel's abiding questions about freedom in context with sixties struggles against war, restricted speech rights, ethnic racial oppression, environmental degradation, and subtle new means of social and psychological control. *The Cambridge Companion to Thomas Pynchon* Inger H. Dalsgaard, Luc Herman, Brian McHale, 2012 This essential companion to Thomas Pynchon provides all the necessary tools to unlock the challenging fiction of this postmodern master. *Thomas Pynchon and the Dark Passages of History* David Cowart, 2012-01-15 Thomas Pynchon helped pioneer the postmodern aesthetic. His formidable body of work challenges readers to think and perceive in ways that anticipate with humor, insight, and cogency much that has emerged in the field of literary theory over the past few decades. For David Cowart, Pynchon's most profound teachings are about history: history as myth, as rhetorical construct, as false consciousness, as prologue, as mirror, and as seedbed of national and literary identities. In one encyclopedic novel after another, Pynchon has reconceptualized historical periods that he sees as culturally definitive. Examining Pynchon's entire body of work, Cowart offers an engaging metahistorical reading of *V* and an exhaustive analysis of the influence of German culture in Pynchon's early work, with particular emphasis on *Gravity's Rainbow* and a critical spectroscopy of those dark stars, *Mason Dixon* and *Against the Day*. He defends the California fictions *The Crying of Lot 49*, *Vineland*, and *Inherent Vice* as roman fleuve chronicling the decade in which the American tapestry began to unravel. Cowart ends his study by considering Pynchon's place in literary history. Cowart argues that Pynchon has always understood the facticity of historical narrative and the historicity of storytelling, not to mention the relations of both story and history to myth. *Thomas Pynchon and the Dark Passages of History* offers a deft analysis of the problems of history.

Weisenburger, 2011-03-15 Adding some 20 percent to the original content this is a completely updated edition of Steven Weisenburger's indispensable guide to Thomas Pynchon's *Gravity's Rainbow* Weisenburger takes the reader page by page often line by line through the welter of historical references scientific data cultural fragments anthropological research jokes and puns around which Pynchon wove his story Weisenburger fully annotates Pynchon's use of languages ranging from Russian and Hebrew to such subdialects of English as 1940s street talk drug lingo and military slang as well as the more obscure terminology of black magic Rosicrucianism and Pavlovian psychology The Companion also reveals the underlying organization of *Gravity's Rainbow* how the book's myriad references form patterns of meaning and structure that have eluded both admirers and critics of the novel The Companion is keyed to the pages of the principal American editions of *Gravity's Rainbow* Viking Penguin 1973 Bantam 1974 and the special repaginated Penguin paperback 2000 honoring the novel as one of twenty Great Books of the Twentieth Century *Thomas Pynchon* Harold Bloom, 2009 Presents a collection of critical essays on the works of Thomas Pynchon **Feminism and the Postmodern Impulse** Magali Cornier Michael, Margaret Atwood, 1996-01-01 Michael analyzes the intersections between feminist politics and postmodern aesthetics as demonstrated in recent Anglo American fiction While much has been written on various aspects of postmodernism and postmodern fiction and of feminism and feminist fiction very little attention has been given to the postmodern aesthetic strategies that surface in post World War II feminist fiction *Feminism and the Postmodern Impulse* examines ways in which many widely read and acclaimed novels with feminist impulses engage and transform subversive aesthetic strategies usually associated with postmodern fiction to strengthen their feminist political edge The author discusses many examples of recent feminist postmodern fiction and explores in greater depth Doris Lessing's *The Golden Notebook* Marge Piercy's *Woman on the Edge of Time* Margaret Atwood's *The Handmaid's Tale* and Angela Carter's *Nights at the Circus* She shows that feminist postmodern fiction's emphasis on the material historical situation the link to activist politics and commitment to enacting concrete changes in the world and thus the need to reach a large reading public often results in a blending and transformation of postmodern and realist aesthetic forms Moreover feminist fiction uses deconstructive strategies not only to disrupt the status quo but also to create a space for reconstruction particularly of recreating new forms of female subjectivities and feminist aesthetics **Double Reading** Jeffrey T. Nealon, 2019-05-15 Deconstruction it seems is dead Its death according to Jeffrey T. Nealon is commonly attributed either to suicide a direct result of its own decline into a formalism it was supposed to remedy or to murder at the hands of the New Historicists Looking beyond its presumed demise Nealon sees its insights as continuing to figure importantly in postmodernist critical

Kharpertian,1990 A study of the major fiction of Thomas Pynchon in three contexts Menippean satire post modernism and American writing The critical genealogy of the term satire is discussed and Pynchon's *V* *The Crying of Lot 49* and *Gravity's Rainbow* are analyzed *Pynchon and Relativity* Simon de Bourcier,2012-02-16 Draws on Einstein's Theory of Relativity to examine the workings of narrative time in the novels of Thomas Pynchon including *Against the Day* *Writing Pynchon* A. W. McHoul,David Wills,1990-04-20 This book explores some of the ways in which contemporary literary theory can be used to read fiction In particular it focuses on Thomas Pynchon's three novels to date and his collection of early stories The theories exploited are concentrated in the work of Jacques Derrida **Exchanges between Literature and Science from the 1800s to the 2000s** Márcia Lemos,2017-03-07 This collection of essays responds to the intense interest that the relations between the discourses of literature and other cultural practices and those of science have obtained throughout various fields of study Spanning a period between the mid nineteenth century and the twenty first century the work collected here is firmly focused on the cultural significance of scientific discoveries and practices and especially on the manifold representations of science and scientists in literature and the arts Its four sections develop from an initial moment of dwindling indefiniteness of borders between literature and the sciences to the historical perception of an increasing divide between the two cultures to use C P Snow's influential expression as well as calls for a form of convergence or consilience in Edward Wilson's words The final section turns to the medical sciences a porous scientific discipline in relation to the humanities which suggests that consilience can already be found partially in specific areas As such this collection contributes towards critically extending that integration through the discussion of key literary representations of science its promises and its problems *The Multiple Worlds of Pynchon's Mason & Dixon* Elizabeth Jane Wall Hinds,2009 New essays examining the interface between 18th and 20th century culture both in Pynchon's novel and in the historical past Thomas Pynchon's 1997 novel *Mason*

Dixon went further using the same style wit and erudition to re create an 18th century when America was being formed as both place and idea Pynchon s focus on the creation of the Mason Dixon Line and the governmental and scientific entities responsible for it makes a clearer statement than any of his previous novels about the slavery and imperialism at the heart of the Enlightenment as he levels a dark and hilarious critique at this America This volume of new essays studies the interface between 18th and 20th century cultureboth in Pynchon s novel and in the historical past It offers fresh thinking about Pynchon s work as the contributors take up the linkages between the 18th and 20th centuries in studies that are as concerned with culture as withthe literary text itself Contributors Mitchum Huehls Brian Thill Colin Clarke Pedro Garcia Caro Dennis Lensing Justin M Scott Coe Ian Copestake Frank Palmeri Elizabeth Jane Wall Hinds is Professor and Chair of the English Department at SUNY Brockport
