The Starfish and the Spirit Lance Ford, Rob Wegner, Alan Hirsch, 2021-03-30 Imagine an organizational model for church leadership that enables the entire team to unleash their full potential The joy and vigor coming from a collective strength intelligence and skill in the community of leaders not only brings greater potency but better yields for your ministry What would it be like to see this kind of healthy leadership reproduced into the second third and fourth generation on multiple strands Leveraging the metaphor Ori Brafman popularized in his NYT best selling book *The Starfish and the Spider* Rob Wegner Lance Ford and Alan Hirsch show How to take a close look at your church's organizational structure and how to adapt instead of simply adopt a certain kind of structural approach How churches can function without a rigid central authority making them nimbler in reacting to external forces How seeding starfish networks inside today's churches will prepare the church of tomorrow to be agile while maintaining the accountability to be effective *The Starfish and the Spirit* is about creating a culture where church leaders view themselves as curators of a community on a mission not the source of certainty for every question and project It's about creating a team of humble leaders in the middle of the church not at the top leaders who naturally reproduce multiple generations of leaders from the middle out

Armor, 2010 *The Rebirth of Education* Lant Pritchett, 2013-09-30 Despite great progress around the world in getting more kids into schools too many leave without even the most basic skills In India's rural Andhra Pradesh for instance only about one in twenty children in fifth grade can perform basic arithmetic The problem is that schooling is not the same as learning In *The Rebirth of Education* Lant Pritchett uses two metaphors from nature to explain why The first draws on Ori Brafman and Rod Beckstrom's book about the difference between centralized and decentralized organizations The Starfish and the Spider Schools systems tend to be centralized and suffer from the limitations inherent in top down designs The second metaphor is the concept of isomorphic mimicry Pritchett argues that many developing countries superficially imitate systems that were successful in other nations much as a nonpoisonous snake mimics the look of a poisonous one Pritchett argues that the solution is to allow functional systems to evolve locally out of an environment pressured for success Such an ecosystem needs to be open to variety and experimentation locally operated and flexibly financed The only main cost is ceding control the reward would be the rebirth of education suited for today's world

bring peace in Vietnam There was an unexpected outcome of Nhat Hanh s letter to King The two men met in 1966 and 1967 and became not only allies in the peace movement but friends This friendship between two prophetic figures from different religions and cultures from countries at war with one another reached a great depth in a short period of time Dr King nominated Thich Nhat Hanh for the Nobel Peace Prize in 1967 He wrote Thich Nhat Hanh is a holy man for he is humble and devout He is a scholar of immense intellectual capacity His ideas for peace if applied would build a monument to ecumenism to world brotherhood to humanity The two men bonded over a vision of the Beloved Community a vision described recently by Congressman John Lewis as a nation and world society at peace with itself It was a concept each knew of because of their membership within the Fellowship of Reconciliation an international peace organization and that Martin Luther King Jr had been popularizing through his work for some time Thich Nhat Hanh Andrus shows took the lineage of the Beloved Community from King and carried it on after his death
