The Study Of The Bayeux Tapestry:

The Study of the Bayeux Tapestry Richard Gameson,1997 Key articles on the Bayeux tapestry collected in one volume providing a comprehensive companion to its study An Archaeological Study of the Bayeux Tapestry Trevor Rowley,2016-12-19 An analysis of the famed medieval English tapestry through examination of the depicted landscapes towns castles and other structures An Archaeological Study of the Bayeux Tapestry provides a unique re examination of this famous piece of work through the historical geography and archaeology of the tapestry Trevor Rowley is the first author to have analyzed the tapestry through the landscapes buildings and structures shown such as towns and castles while comparing them to the landscapes buildings ruins and earthworks which can be seen today By comparing illustrated extracts from the tapestry to historical and contemporary illustrations maps and reconstructions Rowley is able to provide the reader with a unique visual setting against which they are able to place the events on the tapestry This approach allows Rowley to challenge a number of generally accepted assumptions regarding the location of several scenes in the tapestry most controversially suggesting that William may never have gone to Hastings at all Finally Rowley tackles the missing end of the tapestry suggesting the places and events which would have been depicted on this portion of William s journey to Westminster Praise forAn Archaeological Study of the Bayeux Tapestry We all know what the Bayeux Tapestry celebrates in its iconic artwork but Trevor Rowley goes one step further and looks at the buildings and characters with a view actually identifying them Absolutely fascinating brings a whole new dimension to the study of this amazing artefact Books Monthly Rowley s arguments are copiously illustrated with details from the tapestry photographs and plans It results in very densely packed chapters well worth reading and you certainly will never look at that tea towel in the same way again Hexham Local History Society The Bayeux Tapestry Carola Hicks,2011-07-31 The vivid scenes on the Bayeux Tapestry depict the events leading up to the Battle of Hastings in 1066 It is one of Europe s greatest treasures and its own story is full of drama and surprise Who commissioned the tapestry Was it Bishop Odo William s ruthless half brother Or Harold s dynamic sister Edith juggling for a place in the new court Hicks shows us this world and the miracle of the tapestry s making the stitches dyes and strange details in the margins For centuries it lay ignored in Bayeux cathedral until its discovery in the eighteenth century It became a symbol of power as well as art townsfolk saved it during the French Revolution Napoleon displayed it to promote his own conquest the Nazis strove to make it their own and its influence endures today This marvellous book packed with thrilling stories shows how we remake history in every age and how a great work of art has a life of its own The Normans in Their Histories Emily Albu,2001 The heirs of these pagan Northmen contrived a brilliant transformation of themselves into Christian warriors and went on to conquer England southern Italy and Sicily and even distant Antioch in the process carving out a formidable reputation throughout Western Europe and the Mediterranean **The Bayeux Tapestry Elucidated** John Collingwood Bruce,1856 **The Bayeux Tapestry** Helen Louise Jackson,1970 The Bayeux Tapestry and Its Contexts

Elizabeth Carson Pastan, Stephen D. White, Kate Gilbert, 2014 A full and provocative reappraisal of the Bayeux Tapestry its origins design and patronage Aspects of the Bayeux Tapestry in fact an embroidered hanging have always remained mysterious despite much scholarly investigation not least its design and patron Here in the first full length interdisciplinary approach to the subject the authors an art historian and a historian consider these and other issues Rejecting the prevalent view that it was commissioned by Odo the bishop of Bayeux and half brother of William the Conqueror or by some other comparable patron they bring new evidence to bear on the question of its relationship to the abbey of St Augustine s Canterbury From the study of art historical archeological literary historical and documentary materials they conclude that the monks of St Augustine s designed the hanging for display in their abbey church to tell their own story of how England was invaded and conquered in 1066 Elizabeth Carson Pastan is a Professor of Art History at Emory University Stephen D White is Asa G Candler Professor of Medieval History emeritus Emory University and an Honorary Professor of Mediaeval History at the University of St Andrews

Reproducing The Bayeux Tapestry Over Three Centuries

Michael Twyman, 2024 Since the eighteenth century the Bayeux Tapestry has been the subject of many monographs in which it has usually been viewed as a form of historical document or from an art historical perspective This is the first book to consider how these earlier publications used the printing technology of their time to reproduce the embroidery often in colour and thus traces the history of the printing of illustrations from the middle of the eighteenth century to the opening years of the twenty first

The Bayeux Tapestry Gale R. Owen-Crocker, 2023-05-31 This collection of fifteen papers ranges from the author s initial interest in the Tapestry as a source of information on early medieval dress through to her startling recognition of the embroidery s sophisticated narrative structure Developing the work of previous authors who had identified graphic models for some of the images she argues that not just the images themselves but the contexts from which they were drawn should be taken in to account in reading the messages of the Tapestry In further investigating the minds and hands behind this the largest non architectural artefact surviving from the Middle Ages she ranges over the seams the embroidery stitches the language and artistry of the inscription the potential significance of borders and the gestures of the figures in the main register always scrutinising detail informatively She identifies an over riding conception and house style in the Tapestry but also sees different hands at work in both needlecraft and graphics Most intriguingly she recognises an sub contractor with a Roman source and a clownish wit The author is Professor of Anglo Saxon Culture at The University of Manchester UK a specialist in Old English poetry Anglo Saxon material culture and medieval dress and textiles

Decoding the Bayeux Tapestry Arthur Colin Wright, 2019-07-30 For the first time a scholar reveals the meaning of the marginal images on the Bayeux Tapestry unlocking a completely new meaning of the work The story of the Norman Conquest and the Battle of Hastings as shown in the Bayeux Tapestry is arguably the most widely known in the panoply of English history and over the last 200 years there have been hundreds of books on the Tapestry seeking to analyze its meanings Yet there is one aspect of

the embroidery that has been virtually ignored or dismissed as unimportant by historians the details in the margins The fables shown in the margins are neither just part of a decorative ribbon nor are they discontinuous They follow on in sequence When this is understood it becomes clear that they must relate to the action shown on the body of the Tapestry After careful examination the purpose of these images is to amplify elaborate or explain the main story In this groundbreaking study Arthur Wright reveals the significance of the images in the margins Now it is possible to see the whole story as never before enabling a more complete picture of the Bayeux Tapestry to be constructed Wright reexamines many of the scenes in the main body of the work showing that a number of the basic assumptions so often taught as facts have been based on nothing more than reasoned conjecture It might be thought that after so much has been written about the Bayeux Tapestry there was nothing more to be said but *Decoding the Bayeux Tapestry* shows how much there is still to be learned

The Grounds of English Literature Christopher Cannon,2004-12-09 The centuries just after the Norman Conquest are the forgotten period of English literary history In fact the years 1066 1300 witnessed an unparalleled ingenuity in the creation of written forms for this was a time when almost every writer was unaware of the existence of other English writing In a series of detailed readings of the more important early Middle English works Cannon shows how the many and varied texts of the period laid the foundations for the project of English literature This richness is for the first time given credit in these readings by means of an innovative theory of literary form that accepts every written shape as itself a unique contribution to the history of ideas This theory also suggests that the impoverished understanding of literature we now commonly employ is itself a legacy of this early period an attribute of the single form we have learned to call romance A number of reading methods have lately taught us to be more generous in our understandings of what literature might be but this book shows us that the very variety we now strive to embrace anew actually formed the grounds of English literature a richness we only lost when we forgot how to recognize it

The Archaeology of the 11th Century Dawn M Hadley,Christopher Dyer,2017-02-10 The Archaeology of the 11th Century explores this formative period of English history and in particular the impact of the Conquest of England by the Normans The volume examines how the Normans contributed to local culture religion and society through a range of topics including food culture funerary practices the development of castles and their impact and how both urban and rural life evolved during the eleventh century Through its nuanced approach to the complex relationships and regional identities which characterized the period this collection stimulates renewed debate and challenges some of the long standing myths surrounding the Conquest

Anglo-Norman Studies XXIII John Gillingham,2001 This annual publication covers not only matters relating to pre and post Conquest England and France but also the activities and influences of the Normans on the wider European Mediterranean and Middle Eastern stage

The Rhetoric of Power in the Bayeux Tapestry Suzanne Lewis,1998-09-28 In this study Suzanne Lewis argues that the Bayeux Tapestry is one of the first large scale visual narratives of the Middle Ages that moreover conveys medieval

conceptions regarding the pictorialized text More than a reinterpretation of the historical evidence related to the Tapestry Lewis study explores the visual and textual strategies and conventions that have made this work such a powerful statement for audiences over the centuries *Was the Bayeux Tapestry Made in France?* G. Beech, 2016-09-23 This book presents the hypothesis that the Bayeux tapestry long believed to have been made in England came from the Loire valley in France from the abbey of St Florent of Saumur This is based on a number of different kinds of evidence the most important of which is signs of a St Florent Breton influence in the portrayal of the Breton campaign in the tapestry about a tenth of the whole

The Bayeux Tapestry John F. Szabo, Nicholas E. Kuefler, 2015-06-18 Commanding its own museum and over 200 years of examination observation and scholarship the monumental embroidery known popularly as the Bayeux Tapestry and documenting William the Conqueror's invasion of England in October 1066 is perhaps the most important surviving artifact of the Middle Ages This magnificent textile both celebrated and panned is both enigmatic artwork and confounding historical record With over 1780 entries Szabo and Kuefler offer the largest and most heavily annotated bibliography on the Tapestry ever written Notably the Bayeux Tapestry has produced some of the most compelling questions of the medieval period Who commissioned it and for what purpose What was the intended venue for its display Who was the designer and who executed the enormous task of its manufacture How does it inform our understanding of eleventh century life And who was the mysterious Aelfgyva depicted in the Tapestry's main register This book is an effort to capture and describe the scholarship that attempts to answer these questions But the bibliography also reflects the popularity of the Tapestry in literature covering a surprisingly broad array of subjects The inclusion of this material will assist future scholars who may study references to the work in contemporary non fiction and popular works as well as use of the Bayeux Tapestry as a primary and secondary source in the classroom The monographs articles and other works cited in this bibliography reflect dozens of research areas Major themes are the Tapestry as a source of information for eleventh century material culture its role in telling the story of the Battle of Hastings and events leading up to the invasion patronage of the Tapestry biographical detail on known historical figures in the Tapestry arms and armor medieval warfare strategy and techniques opus anglicanum the Anglo Saxon needlework tradition preservation and display of the artifact the Tapestry's place in medieval art the embroidery's depiction of medieval and Romanesque architecture and the life of the Bayeux Tapestry itself **Anglo-Norman Studies XXXVIII** Elisabeth M. C. van Houts, 2016 Turolld Wadard and Vitalis Why Are They on the Bayeux Tapestry

Anglo-Norman Studies XXXV David Bates, 2013 A rich collection of articles on multiple aspects of Anglo Norman and Norman studies forming an indispensable addition to an understanding of this important period of history This volume of Anglo Norman Studies demonstrates yet again the multi disciplinarity and European range of the series As befits the proceedings of a conference held in Normandy at Bayeux it contains two articles on the renowned Tapestry and a consideration of the campaign of 1066 there are also several papers on the medieval duchy their topics including its early

tenth century origins the abbesses of Norman nunneries abbatial investitures in the context of religious reform the reign of Robert Curthose the charters of a major aristocratic family and historical writing in and around late twelfth and early thirteenth century Normandy Alongside these are articles on landscape and belief villein manumissions and the theology of the incarnation the evolution of criminal law in Scotland Bohemond of Antioch the architectural historian John Bilson and important aspects of twelfth century poetry David Bates is a Professorial Fellow at the University of East Anglia and was until recently a Visiting Professor at the University of Caen Basse Normandie Contributors Lesley Abrams Bernard S Bachrach Steven Biddlecombe Alexandrina Buchanan Howard B Clarke Edoardo D Angelo Gregory Fedorenko Jean Herv Foulon George Garnett Vronique Gazeau Paul R Hyams Sylvette Lemagnen Monika Otter Daniel Power Alice Taylor C S Watkins

Lost Artefacts from Medieval England and France Katherine Baker, 2022 Contemporary descriptions of objects no longer extant examined to reconstruct these lost treasures Surviving accounts of the material culture of medieval Europe including buildings boats reliquaries wall paintings textiles ivory mirror cases book bindings and much more present a tantalising glimpse of medieval life hinting at the material richness of that era However students and scholars of the period will be all too familiar with the frustration of trying to piece together a picture of the past from a handful of fragments The material turn has put art architecture and other artefacts at the forefront of historical and cultural studies and the resulting spotlight on the material culture of the past has been illuminating for researchers in many fields Nevertheless the loss of so much of the physical remnants of the Middle Ages continues to thwart our understanding of the period and much of the knowledge we often take for granted is based on a series of arbitrary survivals The twelve essays in this book draw on a wide array of sources and disciplines to explore how textual records from the chronicles of John of Worcester and Matthew Paris and inventories of monastic treasures and noble women to Beowulf and early English riddles when combined with archaeological and art historical evidence can expand our awareness of artistic and cultural environments Touching on a broad range of issues around how we imaginatively reconstruct the medieval past and a variety of objects both precious and ephemeral this volume will be of fundamental interest to medieval scholars whatever their disciplinary field Contributors Katherine Baker Marian Bleeke Deirdre Carter Laura Cleaver Judith Collard Joshua Davies Kathryn Gerry Karl Kinsella Katherine A Rush Katherine Weikert Beth Whalley Victoria Yuskaitis *The Bayeux Tapestry, a Comprehensive Study* by Sir Frank Stenton, General Editor, Simone Bertrand, George Wingfield Digby, Charles H.
