The Modern School Superintendent Marvin Edwards, 2006 An impossible job That's what many have called the superintendency With its growing and competing demands it is a profession that can baffle even the most knowledgeable and well prepared Public education resources have become more limited There are new national and state testing requirements Social issues are pulled into the schools and want more control over their operation Add in politics and bureaucracy and the end result is quite an unmanageable scenario Unfortunately more superintendents seem to be leaving the profession Whether it is because of the demands superintendents face the quality of preparation programs or a combination of both the trend is a growing concern Many superintendents are unprepared to deal with what they may encounter in running a school district Yet the office is not all doom and gloom Offering opportunities that are unavailable in many other careers the superintendency is a position in which you will be taken seriously by others And it is a profession in which one person through skilled leadership can make a difference by getting everyone to pull together and create a better environment for students Surveys actually have shown that most superintendents would become superintendents again if they had the chance

The Contemporary Superintendent Lars G. Bjork, Theodore J. Kowalski, 2005-06-28 A strong superintendent is critical to the success of an entire school district and this exciting new resource details the issues surrounding the state policies that appoint superintendents
