

WHAT IS A ZOMBIE?

TYPES OF ZOMBIE

Once a human has turned into a zombie, they will enter a three stage process of transformation. All will go through these stages, but factors such as climate, body mass and the amount of infected material will have an impact.

To be clear, there are not stages of the 'Dead' - there will be movement later. For now, these humans have already transformed into the undead. They are fully infected with zombie virus and display symptoms of the zombie condition. In 2006, Dr. Michael described the

zombie-fighting community when he declared that 'all zombies are not equal'. He later went on to expand on a scientific theory of zombie evolution, which describes how the undead develop over the course of time after infection. For many years, scientists had offered accounts of desiccated zombies or huge blooded corpse monsters, but the fledgling science of 'Zombology' had no unified theory to explain these anomalies. Dr. Michael's stages of zombie evolution changed all of this and they are presented below.

WHAT IS A ZOMBIE? CLIMATIC CONDITIONS

Scientists have now proved that the climatic conditions which have the greatest influence on the 'type' of creature that zombies will have after 24hrs. The elements of climate in fact and form, impact on the stage of infection and they are now more detailed and precise as they change. Factors in cold and warm conditions will have direct and exact results.

ZOMBIE EVOLUTION

STAGE 1 FRESH (NOSE, NECK, HUMORS)

These walking dead have completed the zombie virus in the last few days. They have a pale, greyish skin color and a bloodless complexion. Some will appear almost human in appearance, others will be showing major body parts irregularly. Their movements will be stiff and awkward. They will be unable to speak and they will have an unending interest in feeding on your flesh.

STAGE 2 PUTREFIED (NOSE, PORES, ACIDS, BIG BOYS, SLAYERS)

In this stage, zombies generally start to show signs of decomposition. For example, you may see pale flesh around and green fungus patches appearing. However, the decomposition process is greatly accelerated by the zombie condition. In humid conditions, insects and/or gastric liquid may reach the corpse in an extremely fast

STAGE 3 DESICCATED (CLASICS, RED, STIFF, STENCHES, HIPPES)

Most of the walking dead will move into this 'classic' zombie phase of development. These creatures will be being frozen in appearance. Their skin will be dry and cracked, their muscles dry and cracked. By this stage, their bodies will be mostly hollow and their eyes turned to milky white, when exposed to some cases. Climate conditions will determine the actual level of moisture in a zombie corpse, with dry conditions leading to a desiccated creature in which the skin hangs like a ruff, almost transparent. Over time, many of these body parts may just fall off with the creature becoming difficult to recognize.

ONCE INFECTED BY BITE OR FLUID EXCHANGE, A HUMAN WILL TRANSFORM INTO A ZOMBIE AND MOVE THROUGH THESE ZOMBIE TYPES

TEMPERATURE High temperature high humidity

Warm regions of heat that in addition to a suitable exposure to the heat the wet foggy surrounding these walking corpses.

- High numbers of zombies
- Higher rate of decomposition
- More frequent growth

WETNESS High temperature low humidity

Other reference to an 'desiccated' state. The dead will be in the wet only with more decomposition than in other regions.

- The dead zombies
- Zombies/heads
- Blood/then desiccated light

TEMPERATURE Low temperature high humidity

Regions about corpse in form of type of zombie in the cold outside. Depending on the season, most will move towards the warm place.

- Most zombies will be at the desiccated stage within a month
- These zombies have the longest

TEMPERATURE Low temperature low humidity

Other will often keep the dead fully frozen and may in fact with. As the time can see zombie change to a particularly cold and foggy state.

- Zombies may be frozen and not decompose
- They are hard to decompose

very little that seriously concerned me or those around me Our main concern each day was whether or not we d be able to survive another day in class without being caught sleeping stealing a glance at a girl we just knew we were going to marry some day and finally what story we could tell that would have all of our friends on the edge of their seat as they listened to what our most recent adventure into juvenile delinquency was Never was there a time that we gave any consideration to zombies the living dead or having our brains eaten while we were still alive In fact zombies had not yet at that time even been discovered by anyone that we knew about so why worry about something or someone that didn t exist Such is not the case anymore Almost daily you hear stories about the coming zombie apocalypse and how to survive it Yet while the topic is popular the verdict is still out about how to deal with it or what you should must do to survive a zombie attack So with that in mind I decided to create the official zombie survival manuscript and settle the matter for all time Well that didn t go quite as well as I expected it would No what I learned is that there are so many differing opinions on surviving a zombie attack or apocalypse that it was simply impossible to put into any sense of authoritative writing exactly what must be done I thought that perhaps it would be best to just let people tell me their stories their theories and their sincere beliefs about zombies and how best to not become one of them So with that in mind I began interviewing those that would openly talk about the subject matter and help me understand as best I could what in the world is going on Though I was able to interview several people ALL of them insisted that they remain hidden under a veil of secrecy and would not allow me to give their real names where they lived or how they came about with their theories on surviving a zombie apocalypse I agreed to their terms and have transcribed all of the interviews and put them into this writing No names or locations will be revealed but the information is valuable viable and important enough in my most humble opinion that it is a must read for anyone seriously or even not so seriously considering what is happening in the world today The Zombie Survival Guide ,2010
