**Truth Commissions and Criminal Courts** Alison Bisset, 2012-04-16 This detailed evaluation of the relationship between trials and truth commissions challenges their assumed compatibility through an

analysis of their operational features at national inter state and international levels Alison Bisset conducts case study analyses of national practice in South Africa East Timor and Sierra Leone evaluates the problems posed by the International Criminal Court and considers the challenges presented by the possibility of bystander state prosecutions At each level she highlights potential operational conflicts and formulates targeted proposals to enable effective coexistence Impact, Legitimacy, and Limitations of Truth Commissions Angela D. Nichols, 2019-02-06 This book develops a theoretical understanding of how truth commissions achieve legitimacy and contribute to peace and stability Angela D Nichols argues that truth commissions are most likely to impact society when they possess certain institutional characteristics characteristics that send important political signals to the state and broader society alike If these signals suggest greater degrees of authority a break with the past and transparency in both its investigations and its findings the truth commission is more likely to impact society In particular Nichols examines whether or not states that adopt truth commissions with these characteristics are more likely to respect human rights and experience lower levels of violence She concludes with an analysis of Colombia s newly established Truth Coexistence and Non Recurrence Commission *Religion, Tradition, and Restorative Justice in Sierra Leone* Lyn S. Graybill, 2017-06-15 In this groundbreaking study of post conflict Sierra Leone Lyn Graybill examines the ways in which both religion and local tradition supported restorative justice initiatives such as the national Truth and Reconciliation Commission TRC and village level Fambul Tok ceremonies Through her interviews with Christian and Muslim leaders of the Inter Religious Council Graybill uncovers a rich trove of perspectives about the meaning of reconciliation the role of acknowledgment and the significance of forgiveness Through an abundance of polling data and her review of traditional practices among the various ethnic groups Graybill also shows that these perspectives of religious leaders did not at all conflict with the opinions of the local population whose preferences for restorative justice over retributive justice were compatible with traditional values that prioritized reconciliation over punishment These local sentiments however were at odds with the international community s preference for retributive justice as embodied in the Special Court for Sierra Leone which ran concurrently with the TRC Graybill warns that with the dominance of the International Criminal Court in Africa there are currently eighteen pending cases in eight countries local preferences may continue to be sidelined in favor of prosecutions She argues that the international community is risking the loss of its most valuable assets in post conflict peacebuilding by pushing aside religious and traditional values of reconciliation in favor of Western legal norms UN Peace Operations Eirin Mobekk, 2016-12-08 This book assesses the UN Peace Operations in Haiti and establishes what lessons should be taken into account for future operations elsewhere Specifically the book examines the UN s approaches to security and stability demobilisation disarmament and reintegration DDR police justice and prison reform democratisation and transitional justice and their interdependencies through the seven UN missions in Haiti Drawing on extensive fieldwork and interviews conducted in Haiti it identifies strengths and weaknesses of these approaches

and focuses on the connections between these different sectors. It places these efforts in the broader Haitian political context, emphasises economic development as a central factor to sustainability, provides a civil society perspective and discusses the many constraints the UN faced in implementing its mandates. The book also serves as a historical account of UN involvement in Haiti, which comes at a time when the drawdown of the mission has begun. In an environment where the UN is increasingly seeking to conduct security sector reform (SSR) within the context of integrated missions, this book will be a valuable contribution to the debate on intervention, UN peace operations and SSR. This book will be of interest to students of peace operations and peacekeeping, conflict studies, security studies and IR in general.

**When Should Law Forgive?** Martha Minow, 2019-09-24. Martha Minow is a voice of moral clarity, a lawyer arguing for forgiveness, a scholar arguing for evidence, a person arguing for compassion. Jill Lepore, author of *These Truths*. In an age increasingly defined by accusation and resentment, Martha Minow makes an eloquent, deeply researched argument in favor of strengthening the role of forgiveness in the administration of law. Through three case studies, Minow addresses such foundational issues as: Who has the right to forgive? Who should be forgiven? And under what terms? The result is as lucid as it is compassionate. A compelling study of the mechanisms of justice by one of this country's foremost legal experts.

[Transitional Justice from State to Civil Society](#) Sri Lestari Wahyuningroem, 2019-11-27. This book is the first to offer an in-depth analysis of transitional justice as an unfinished agenda in Indonesia's democracy. Examining the implementation of transitional justice measures in post-authoritarian Indonesia, this book analyses the factors within the democratic transition that either facilitated or hindered the adoption and implementation of transitional justice measures. Furthermore, it contributes key insights from an extensive examination of bottom-up approaches to transitional justice in Indonesia through a range of case studies: civil society-led initiatives to truth-seeking and local reconciliation efforts. Based on extensive archival, legal and media research, as well as interviews with key actors in Indonesia's democracy and human rights institutions, the book provides a significant contribution to current understandings of Indonesia's democracy. Its analysis of the failure of state-centred transitional justice measures and the role of civil society also makes an important addition to comparative transitional justice studies. It will be of considerable interest to scholars and activists in the fields of Transitional Justice and Politics, as well as in Asian Studies.

*Truth, Justice, and Reparations in Peru, Uruguay, and South Korea* Nusta Carranza Ko, 2021-01-29. This book presents the first cross-regional analysis of post-transitional justice periods and the conditions that influence states' behaviors. Specifically, the book examines why states that adopt and ostensibly implement transitional justice norms as policies (criminal prosecutions, reparations, policies and truth commissions) fail to follow through with their recommendations. Applying these perspectives to a comparative study of states from Latin America and East Asia, namely Peru, Uruguay and South Korea, which accepted and implemented transitional justice norms but took different trajectories of behavior after the implementation of policies, this book contributes to understanding the relationship of norm influence on states and why states change in compliance after

norm adoption The book explores the conditions that contribute or limit the continued respect for transitional justice norms emphasizing the political interests and transnational advocacy networks roles in affecting states policies of addressing past abuses
