## **Trials Of Nation Making:**

Trials of Nation Making Brooke Larson, 2004-01-19 This book offers the first interpretive synthesis of the history of Andean peasants and the challenges of nation making in the four republics of Colombia Ecuador Peru and Bolivia during the turbulent nineteenth century Nowhere in Latin America were postcolonial transitions more vexed or violent than in the Andes where communal indigenous roots grew deep and where the Indian problem seemed so daunting to liberalizing states Brooke Larson paints vivid portraits of Creole ruling elites and native peasantries engaged in ongoing political and moral battles over the rightful place of the Indian majorities in these emerging nation states In this story indigenous people emerge as crucial protagonists through their prosaic struggles for land community and ethnic identity as well as in the upheaval of war rebellion and repression in rural society This book raises broader issues about the interplay of liberalism racism and ethnicity in the formation of exclusionary republics without citizens

**An Open Secret** Natalie L. Kimball, 2020-06-12 Many women throughout the world face the challenge of confronting an unexpected or an unwanted pregnancy yet these experiences are often shrouded in silence An Open Secret draws on personal interviews and medical records to uncover the history of women's experiences with unwanted pregnancy and abortion in the South American country of Bolivia This Andean nation is home to a diverse population of indigenous and mixed race individuals who practice a range of medical traditions Centering on the cities of La Paz and El Alto the book explores how women decided whether to continue or terminate their pregnancies and the medical practices to which women recurred in their search for reproductive health care between the early 1950s and 2010 It demonstrates that far from constituting private events with little impact on the public sphere women's intimate experiences with pregnancy contributed to changing policies and services in reproductive health in Bolivia

**Afterlives of Discovery** Heidi Andrea Restrepo Rhodes, 2025-03-28 In Afterlives of Discovery Heidi Andrea Restrepo Rhodes traces global and national histories as they entangle through the concept and material life of Discovery across Colombia's evolution into a liberal settler colonial state Rather than seeing Discovery as a singular event or bygone era Rhodes theorizes Discovery as a globally encompassing racialized formation of domination and geographic speculation that continues to structure settler colonialism Discovery's logics they argue are rooted in colonial and capitalist fantasies projected onto the racialized space and place of the colonized other Rhodes draws on critical theory human rights research and Colombian archives to challenge dominant narratives that maintain the Colombian armed conflict began as a Marxist insurgency in 1964 Instead Rhodes shows that the conflict is an extension of Discovery's ongoingness via projects of dispossession extraction whitening and epistemic and political hegemony Given that Colombia's national past present and future are grounded in Discovery Rhodes asks How is it possible to build futures that escape Discovery's grasp

Inventing Indigenism Natalia Majluf, 2021-11-23 One of the outstanding painters of the nineteenth century Francisco Laso 1823-1869 set out to give visual form to modern Peru His solemn and still paintings of indigenous subjects were part of a larger project spurred by writers and intellectuals

actively crafting a nation in the aftermath of independence from Spain In this book at once an innovative account of modern indigenism and the first major monograph on Laso Natalia Majluf explores the rise of the image of the Indian in literature and visual culture Reading Laso s works through a broad range of sources Majluf traces a decisive break in a long history of representations of indigenous peoples that began with the Spanish conquest She ties this transformation to the modern concept of culture which redefined both the artistic field and the notion of indigeneity As an abstraction produced through indigenist discourse an icon of authenticity and a densely racialized cultural construct the Indian would emerges as a central symbol of modern Andean nationalisms Beautifully illustrated *Inventing Indigenism* brings the work and influence of this extraordinary painter to the forefront as it offers a broad perspective on the dynamics of art and visual culture in nineteenth century Latin America

**Empires of the Dead** Christopher Heaney,2023 This book explains why Inca mummies and ancient Peruvian skulls filled museums around the world from 1532 to the present and why they tell us more about the colonial violence of science than their more famous Egyptian cousins

**The Struggle for Natural Resources** Carmen Soliz,Rossana Barragán,2024-03-15 The Struggle for Natural Resources traces the troubled history of Bolivia s land and commodity disputes across five centuries combining local regional national and transnational scales Enriched by the extractivism and commodity frontiers approaches to world history the book treats Bolivia s political struggles over natural resources as long term processes that outlast immediate political events Exploration of the Bolivian case invites dialogue and comparison with other parts of the world particularly regions and countries of the so called Global South The book begins by examining three Bolivian resources at the center of political dispute since the early colonial period namely land water and minerals Carmen Soliz Rossana Barrag n and Sarah Hines show that as in the colonial and early republican past these resources have remained the focus of political contention to the present day Until the end of the nineteenth century Bolivia s battle over natural resources was primarily concentrated in the highlands and inter Andean valleys Beginning in the 1860s the bicycle and soon the automobile industries triggered demand for natural rubber found in the heart of the Amazon Jos Orsag analyzes the impact of this extractive economy at the turn of the twentieth century The book concludes by examining two resources that are central to understanding the last century of Bolivia s history Kevin Young examines the fraught business of hydrocarbons and Thomas Grisaffi analyzes the coca cocaine circuit Each chapter studies the social dynamics and political conflicts that shaped the processes of extraction exchange and ownership of each of these resources

*Water for All* Sarah T. Hines,2021-12-14 *Water for All* chronicles how Bolivians democratized water access focusing on the Cochabamba region which is known for acute water scarcity and explosive water protests Sarah T Hines examines conflict and compromises over water from the 1870s to the 2010s showing how communities of water users increased supply and extended distribution through collective labor and social struggle Analyzing a wide variety of sources from agrarian reform case records to oral history interviews Hines investigates how water dispossession in the late nineteenth century and

reclaimed water access in the twentieth and twenty first centuries prompted shaped and strengthened popular and indigenous social movements The struggle for democratic control over water culminated in the successful 2000 Water War a decisive turning point for Bolivian politics This story offers lessons for contemporary resource management and grassroots movements about how humans can build equitable democratic and sustainable resource systems in the Andes Latin America and beyond

**New Countries** John Tutino, 2015-11-07 The contributors to New Countries examine how eight newly independent nations in the Western Hemisphere between 1750 and 1870 played fundamental roles in the global transformation from commercial to industrial capitalism

**Acting Inca** E. Gabrielle Kuenzli, 2013-07-22 For most of the postcolonial era the Aymara Indians of highland Bolivia were a group without representation in national politics Believing that their cause would finally be recognized the Aymara fought alongside the victorious liberals during the Civil War of 1899 Despite Aymara loyalty liberals quickly moved to marginalize them after the war In her groundbreaking study E Gabrielle Kuenzli revisits the events of the civil war and its aftermath to dispel popular myths about the Aymara and reveal their forgotten role in the nation building project of modern Bolivia Kuenzli examines documents from the famous postwar Peasants' War to recover Aymara testimony during what essentially became a witch hunt She reveals that the Aymara served as both dutiful plaintiffs allied with liberals and unwitting defendants charged with wartime atrocities and instigating a race war To further combat their Indian problem Creole liberals developed a public discourse that positioned the Inca as the only Indians worthy of national inclusion This was justified by the Incas high civilization and reputation as noble conquerors along with their current non threatening nature The whitening of Incans was a thinly veiled attempt to block the Aymara from politics while also consolidating the power of the Liberal Party Kuenzli posits that despite their repression the Aymara did not stagnate as an idle apolitical body after the civil war She demonstrates how the Aymara appropriated the liberal's Indian discourse by creating theatrical productions that glorified Incan elements of the Aymara past In this way the Aymara were able to carve an acceptable space as progressive Indians in society Kuenzli provides an extensive case study of an Inca play created in the Aymara town of Caracollo which proved highly popular and helped to unify the Aymara As her study shows the Aymara engaged liberal Creoles in a variety of ways at the start of the twentieth century shaping national discourse and identity in a tradition of activism that continues to this day
