

The Tiger

compared to some of the opposition hadn't handicapped the first Triumphs and it hasn't held the Tiger back, especially in the important German market where it is a top seller.

Judging their market as cleverly as ever, the factory held back another new model for the International Bike Show at the Birmingham NEC. This was the Daytona 1200, an out and out speed machine with a hidden political agenda. Its high-compression, 147 PS engine gave it brutal straight-line performance in much the same way as the big Kawasakis of the mid-'80s, and like them it wasn't too clever in the corners because of its weight and length. The bike was built as much to show that Triumph could do it as to sell in big numbers. It also had the secondary function of thumbing the corporate nose at the UK importers' gentlemen's agreement not to bring in bikes of over 125 PS.

Next year's NEC show saw two more new Triumphs, both reworkings of what was now regarded as a modern classic, the 900 triple. The Speed Triple was a clever reincarnation of the British cafe, racer style, complete with clip-on handlebars and rear-set footrests. The big three-cylinder engine in standard tune got an all-black finish with black chrome pipes and silencers for the appropriately mean look. Black wheel rims and new bodywork completed a superbly styled bike available with black or yellow bodywork, the Speed Triple was the star of the show, a bike with an attitude. A one-make race series with generous prize money helped give the factory's products some race-track credibility that would otherwise have been impossible to come by.

The other newcomer was a more radical project, the Daytona Super III. Externally the

motor looked like the usual 900 cc three, but a lot of work by Cosworth Engineering was hidden under the cases, notably reworked heads, ports and cam profiles. The result was 115 PS as opposed to the standard 900 Daytona's 98. New six-piston callipers built and designed by Triumph, not bought in, stopped the plot which was a couple of kilos

lighter thanks to judicious use of lightweight carbon-fibre materials.

But the new Triumphs aren't really about out-and-out performance, as Rolls Royce like to say power is 'adequate' and quite enough for real world motorcycling as evidenced by commercial success in demanding markets like Germany where Triumph's strict quality control and top-quality finish are paying dividends. One German magazine, *MO*, ran an early Trident for 100,000 km with hardly a problem. When it was stripped for inspection at the Hinckley factory the engine was found to be as good as new, a tribute to the original design and production engineering.

Triumphs in America

Triumph's next big step was into the US market, where the old company was so strong in the post-war years when the only competition was Harley-Davidson and where there is considerable affection for the marque. The name Triumph chose to spearhead this new challenge is Thunderbird, a trademark sourced in Native American mythology. This time the famous name adorns yet another version of the 900 triple but this time heavily restyled and in a retro package. This is the first of the new-generation Triumph motors designed to be looked at without a frowning covering most of it. Dummy cooling fins give it the look of an air-cooled motor, the logo was cast into the clutch cover, and there were soft

TRIUMPH 750cc T150 & T150V TRIDENT 1968-1974 WORKSHOP MANUAL Floyd Clymer,2022-10-20 246 pages and more than 240 illustrations and charts size 8 25 x 10 75 inches This publication is a reproduction of the Triumph factory workshop manual part number 99 0963 0887 4223 The original 1969 Trident workshop manual 99 0887 was updated in 1972 under part number 99 0963 A short time later the introduction of a 5 speed gearbox 1972 and a front wheel disc brake 1973 necessitated the publication of a supplement 00 4223 which was then incorporated into the 99 0963 manual creating a single workshop manual for the 1968 through 1974 models Unfortunately the 99 0963 manual was also published without the 00 4223 supplement and the manual that includes the supplement can only be identified by the following notation printed to the

bottom corner of the title page PART NO 99 0963 INCORPORATING 99 0887 AND SUPPLEMENT 00 4223 The difference in content between the two manuals that carry the same part number is extremely important to owners of the 5 speed and disc brake models There were a number of running changes made throughout the 6 year production run of these models and in order to provide information applicable to those changes the 00 4223 supplement was either merged or appended to the end of the appropriate sections within the manual However it is also important to note with regard to any maintenance and repair instructions and also the specifications in the General Data GD section that whenever engine numbers are stated the data will be specific to that particular series Therefore the reader is encouraged to pay close attention to any engine number notations and to read the entire section plus the supplemental data prior to commencing any work In conclusion 750cc T150 and T150V owners are subjected to considerable confusion surrounding the appropriate selection of the multitude of originals and reprints of the various 750cc Trident manuals that have recently flooded the marketplace However the combination manual 99 0963 99 0887 00 4223 is the most comprehensive manual for the entire line of 750cc Trident three cylinder motorcycles produced from 1968 through 1974 however it is somewhat scarce and difficult to find In addition many of the changes made during the production run necessitate the use of this combination manual and we are pleased to offer this reprint of the 99 0843 99 0948 00 4223 manual as a service to all 750cc T150 T150V owners In addition as the X75 Hurricane is a combination of both the Trident and the BSA Rocket 3 this manual will also be of interest to owners of that model The models covered are 1968 to 1970 T150 Trident 1971 to 1972 T150 Trident 1972 to 1974 T150V Trident with 5 speed gearbox and disc front brake
