Corporate Governance in Africa Victor Ediagbonya, 2024-12-31 This book discusses the issue of limited stakeholder recognition and protection of stakeholder interests within the Anglo Saxon corporate governance model practised in many sub Saharan African countries The volume argues that the relative success of the Anglo Saxon model in developed economies is attributed to the presence of functional institutions such as effective legal systems active external markets for corporate control and organised civil societies among others Many African countries such as Nigeria and South Africa have adopted the UK corporate governance framework despite facing challenges occasioned by an inefficient legal system plagued by systemic corruption Given the challenging institutional contexts in African countries this book proposes an alternative corporate governance framework the functional stakeholder model FSM for the banking industry in countries

facing similar institutional challenges the FSM aims to promote stakeholder recognition and the protection of stakeholders interests The book draws on stakeholder and institutional theories in designing an alternative corporate governance model the FSM for banks operating in challenging institutional contexts The book will interest regulators bankers auditors academia policymakers and researchers in comparative corporate governance and financial regulation especially banking regulation and stakeholders in developing and emerging markets *Port Economics and Business* Hilde Meersman,Eddy Van de Voorde,Thierry Vanellander,2025-10-02 There is growing interest in the port economy in all its facets from the business world political decision making and scientific research In a constantly evolving port environment pertinent questions arise every day concerning aspects of financing infrastructure and operations competitiveness productivity and horizontal and or vertical cooperation All actors involved want to know the economic consequences of decisions that are made both in terms of commercial companies located within the port perimeter and in terms of the port authority or manager and the government Port Economics and Business therefore attempts to fill this important gap All important aspects of port activities are analysed in an economic manner The economic decisions of providers and users of port services are studied All actors who use the port infrastructure in one way or another are explicitly discussed As far as freight traffic is concerned this involves shipping companies transshipment and storage companies land transport and all possible suppliers and service providers For passenger traffic in a similar way this concerns ferry and cruise lines terminal operators land operators and all possible suppliers The book provides the reader with tools to solve port related problems independently in the next phase Emphasising economic aspects and decision making Port Economics and Business is a vital resource for students and researchers in port economics and management as well as professional port managers *European Media Policy for the Twenty-First Century* Seamus Simpson,Manuel Puppis,Hilde van den Bulck,2016-01-29 Media policy issues sit at the heart of the structure and functioning of media systems in Europe and beyond This book brings together the work of a range of leading media policy scholars to provide inroads to a better understanding of how effective media policies can be developed to ensure a healthy communication sector that contributes to the wellbeing of individual citizens as well as a more democratic society Faced with a general atmosphere of disillusionment in the European project one of the core questions tackled by the volume s contributors is what scope is there for European media policy that can exist beyond the national level Uniquely the volume s chapters are structured around four key policy themes media convergence the continued role and position of public regulatory intervention in media policy policy issues arising from the development of new electronic communication network environments and lessons for European media policy from cases beyond the EU In its chapters the volume provides enriched understandings of the role and significance of policy actors institutions structures instruments and processes in communication and media policy Sport Management Russell Hoye,Katie Misener,Michael L. Governing Cross-Border Data Flows Svetlana Yakovleva, 2024-02-27 *Governing Cross Border Data Flows* explores how the European Union can simultaneously reconcile and pursue two important legal and policy objectives namely protecting fundamental rights guaranteed under the EU Charter of Fundamental Rights EU Charter concerning privacy and personal data while also maintaining and developing a binding rules based global trading system to ensure appropriate access to foreign digital markets for EU businesses The book demonstrates a significant conflict between international trade law and European data privacy law when it comes to the governance of cross border flows of personal data To resolve the tensions caused by this clash the book proposes concrete and detailed ways to ameliorate the situation from both ends international trade and personal data protection specifically through reforms of both international trade and chapter V of the General Data Protection Regulation GDPR To explain how such reforms could be effectuated Yakovleva examines the role of discourse in the evolution of trade law in the last two decades The book also paves the way for the further research necessary to design a fully fledged reform proposal of the EU framework for the transfer of personal data outside the European Economic Area

Market Investigations Massimo Motta, Martin Peitz, Heike Schweitzer, 2022-01-06 In many economic sectors the digital industries being first and foremost the market power of dominant firms has been steadily increasing and is rarely challenged by competitors Existing competition laws and regulations have been unable to make markets more contestable The book argues that a new competition tool is needed market investigations This tool allows authorities to intervene in markets which do not function as they should due to market features such as network effects scale economies switching costs and behavioural biases The book explains the role of market investigations assesses their use in the few jurisdictions where they exist and discusses how they should be designed In so doing it provides an invaluable and timely instrument to both practitioners and academics

Network Industries and Social Welfare Massimo Florio, 2013-06-20 This book offers a careful scrutiny of energy and telephony reforms

and their social impact on households in 15 countries across Western Europe It concludes that the benefits for consumers are limited and it discusses the reasons why the European reform experiment of network industries is not living up to its promises
