Magic in the Cloister Sophie Page, 2015-06-26 During the late

thirteenth and early fourteenth centuries a group of monks with occult interests donated what became a remarkable collection of more than thirty magic texts to the library of the Benedictine abbey of St Augustine s in Canterbury The monks collected texts that provided positive justifications for the practice of magic and books in which works of magic were copied side by side with works of more licit genres In *Magic in the Cloister* Sophie Page uses this collection to explore the gradual shift toward more positive attitudes to magical texts and ideas in medieval Europe She examines what attracted monks to magic texts works and how they combined magic with their intellectual interests and monastic life By showing how it was possible for religious insiders to integrate magical studies with their orthodox worldview *Magic in the Cloister* contributes to a broader understanding of the role of magical texts and ideas and their acceptance in the late Middle Ages *Everything You Always Wanted to Know about Lachmann's Method* Paolo Trovato, 2014 This book written mainly with the non Italian reader in mind addresses a central problem in textual criticism namely how to try to correctly reconstruct a text of the past so that even if not identical it is as close as possible to the lost original starting from a number of copies more or less full of mistakes that is to say how to preserve part of the memory of our past Preface p 13 **In Pursuit of Poem Shadows** Kay Pritchett, 2011-04-07 Born in the small Extremaduran town of Moraleja in 1946 Spanish poet Pureza Canelo at the age of twenty five published her first collections of poetry *Celda verde* and *Lugar com n* winner of the 1970 Adonais Prize By 1979 she had settled upon an understanding of her own aesthetic evolution which she elaborated in *Habitable Primera po tica* Then in 1986 after a period of disenchantment with the written word during which she published only two chapbooks *Espacio de emoci n* 1981 and *Vega de la paloma* 1984 she redefined her position in *Tendido verso Segunda po tica* Designed to complement *Nature s Colloquy with the Word* Pureza Canelo s *First Poetics* Bucknell 2004 the current text deciphers the intricate poetic language of the poet s mature works which at the time of writing included the two above mentioned chapbooks as well as *Tendido verso Pasi n in dita* 1990 and *No escribir* 1999 The author traces recurrent aesthetic and philosophical positions that serve to differentiate the poet s first and second poetics *Tendido verso* is the volume in which temporality supersedes essence and in so doing breaks with insights expressed by Juan Ram n Jim nez during his Modernist phase In *Pasi n in dita* the intimate pronominal discourse between poet and creative other allows them to coalesce into an indeterminate being At this point the desired goal of the creative process is achieved the holy wedding hieros gamos of poet and creative other occurs *No escribir* abandons the struggle of Canelo s previous books and carries out the method prescribed by her second poetics She recognizes that only the creative process can satisfy her desire and that love the dominant symbol for creation indeed allows the pain of poetic failure to cease Passion nonetheless must stop short of fulfillment since the written poem laden with the poet s gaze and subjectivity cannot exist apart from its shadow
