Visions The Mystical Encounter Series Volume 1:

Visions in Late Medieval England Gwenfair Walters Adams, 2007 This volume is the first to explore the breadth of vision types in late medieval English lay spirituality Analyzing 1000 accounts it proposes that visions buttressed five core dynamics relating to purgatory saints demons sacramental faith and the Church's authority Between Three Worlds John C. Stephens, 2023-02-10 This book explores the motif of the spiritual journey and its evolution in Western literature A spiritual journey can be broadly defined as a search for the divine Such a search can occur either internally as a psychological process or in some cases may involve an actual geographic journey Spiritual journeys can be conducted by individuals or groups In exploring this topic various kinds of texts will be reviewed including autobiographies novels and short stories as well as myths folktales and mystical writings The book classifies spiritual journey narratives into four categories theological journeys mystical journeys mythopoetic journeys and allegorical journeys Representative texts have been selected in the history of Western religious literature that illustrate the basic features of each of these four categories

Encyclopedia of Monasticism William M. Johnston, 2013-12-04 The two volume Encyclopedia of Monasticism describes the monastic traditions of both Christianity and Buddhism with more than 600 entries on important monastic figures of all periods and places surveys of countries and localities and topical essays covering a wide range of issues e.g. art behavior economics liturgy politics theology and scholarship Coverage encompasses not only geography and history worldwide but also the contemporary dilemmas of monastic life Recent upheavals in certain countries are highlighted Korea Russia Sri Lanka etc Topical essays subtitled Christian Perspectives and Buddhist Perspectives explore in imaginative fashion comparisons and contrasts between Christian and Buddhist monasticism Encyclopedia of Monasticism also includes more than 500 color and black and white illustrations covering all aspects of monastic life art and architecture **Mysticism** Jess Hollenback, 1996-11-01 This sweeping study of mysticism by Jess Hollenback considers the writings and experiences of a broad range of traditional religious mystics including Teresa of Avila Black Elk and Gopi Krishna It also makes use of a new category of sources that more traditional scholars have almost entirely ignored namely the autobiographies and writings of contemporary clairvoyants mediums and out of body travelers This study contributes to the current debate about the contextuality of mysticism by presenting evidence that not only are the mystic's interpretations of and responses to experiences culturally and historically conditioned but historical context and cultural environment decisively shape both the perceptual and affective content of the mystic's experience as well Hollenback also explores the linkage between the mystic's practice of recollection and the onset of other unusual or supernormal manifestations such as photisms the ability to see auras telepathic sensitivity clairvoyance and out of body experiences He demonstrates that these extraordinary phenomena can actually deepen our understanding of mysticism in unexpected ways A unique feature of this book is its in depth analysis of empowerment an important phenomenon ignored by most scholars of mysticism Empowerment is a peculiar enhancement

of the imagination thoughts and desires that frequently accompanies mystical states of consciousness Hollenback shows its cross cultural persistence its role in constructing the perceptual and existential environments within which the mystic dwells and its linkage to the fundamental contextuality of mystical experience **Western Mysticism** Cuthbert Butler,1924
