Women Feminism And Aging Springer Series Focus On Women:

Women Ageing Miriam Bernard, Val Harding Davies, Linda Machin, Judith Phillips, 2005-06-22 *Women Ageing* provides a better understanding of what ageing is like for women and challenges the myths which have grown up around the ageing process. Blending the scholarly, the personal and the political, it reveals the range of strategies and identities women adopt to manage the transitions of the second half of the life course. In doing so, it uncovers not only the commonalities and the similarities between mid life and older women but also some of the variation and diversity relating to ethnicity and race, class, disability and sexual orientation. *Women Ageing* makes the ordinary lives of ordinary women as in this instance they grow older more visible. Its findings have important implications for policy and practice. All those studying or working with older people will find it an illuminating text.

Women, Feminism, and Aging Colette Browne, 1998 In this volume Dr Browne outlines a new vision for understanding older women and their place in society. The author draws together the major themes of feminist writers and thinkers and develops alternatives to the present devaluing of older women, reconceptualizing what growing older can mean to women. She suggests a number of strategies to improve the lives of older women and ultimately looks to a new epistemology of women and age for a more respectful vision of women and men in the later years. The volume's style will appeal to professionals and students in social work and sociology.

Psychotherapy and Counseling With Older Women Claire M. Brody, PhD, Frances K. Trotman, PhD, 2001-12-28 Trotman and Brody, along with expert contributors, view older women through a feminist lens and examine social constructs concerning aspects of aging, caregiving, elders' relationships with family, health, body image and sexuality concerns. The authors define issues that are important to older women and their emotional health and bring into sharp relief some of the painful issues professionals must confront in counseling older women.

Depression and Women Susan Simonds, 2001-08-17 In her newest book Simonds presents Integrative Relational Therapy, her unique nonpathologizing approach to psychotherapy with depressed women. IRT integrates empirically supported therapies, feminist theories of depression, creative arts therapies and mindfulness-based techniques into a cohesive model that addresses the gender and cultural factors contributing to women's depression. The book also addresses relapse prevention, reproductive-related events, special medication issues for women and the latest research on alternative remedies. A unique feature of the book includes three conceptual maps that guide the therapist throughout the course of therapy, weaving a common thread while allowing for the individuality of each client. A list of integrative resources and recommended readings in feminist therapy, alternative therapies and holistic approaches to the treatment of depression, anxiety and women's reproductive-related events are also included.

Women's Health Needs In Patient Education Barbara K. Redman, PhD, RN, FAAN, 2004-01-01 The goal of this book is to fill the many gaps that health care providers face when helping women learn self-care and prevention skills. Special attention is paid to minority status, low literacy and elderly women who may have fewer opportunities to find health information independently. While this is ample

information on reproductive health available women experience a lack of timely information on nonreproductive health issues such major killers as lung cancer and cardiovascular disease adequate information for family caregivers who are mostly women and other disorders ranging from AIDS to osteoporosis and urinary incontinence Nurses health educators physicians and those interested in women s health will find this an eye opening and important resource *Women's Group Therapy*

Vera Sonja Maass,2002-06-12 Through the use of group therapy sessions conducted within a cognitive behavioural framework the author explores the cultural social and parental influences on women s lives In depth case studies and transcripts from the sessions illustrate women s actual step by step process in examining issues as motherhood divorce self determination etc The focus is on the individual woman and her situation **Aesthetics of Sorrow** Tova

Gamliel,2014-04-21 Her interdisciplinary perspective and her focus on a uniquely female immigrant cultural practice will make this study fascinating reading for scholars of anthropology gender folklore psychology performance philosophy and sociology **Aging Mothers and Their Adult Daughters** Karen L. Fingerman,2001-01-04 As far as I am aware there is no

other scholarly book on adult mother daughter relationships particularly one that incorporates data from pairs of mothers and daughters I believe that the contents provide useful material for instructors researchers and therapists alike Rosemary Blieszner PhD Professor of Gerontology and Family Studies Virginia Polytechnic Institute and State University The mother daughter tie is one that persists well past childhood and it takes on unique characteristics as daughter enter midlife and mothers enter old age Incorporating vivid descriptions by mothers and daughters about their relationships this book addresses both the rewards and the costs that mothers and daughters incur in maintaining their relationships into old age For psychologists gerontologists and sociologists as well as academics and researchers in women s and family studies
