All leaders assume ethical burdens and must make every effort to make informed ethical decisions and foster ethical behavior among followers. The Sixth Edition of *Meeting the Ethical Challenges of Leadership: Casting Light or Shadow* explores the ethical demands of leadership and the dark side of leadership. Author Craig E. Johnson takes a multidisciplinary approach to leadership ethics, drawing from many fields of research to help readers make moral decisions, lead in a moral manner, and create an ethical culture. Packed with real-world case studies, examples, self-assessments, and applications, this fully updated new edition is designed to increase students' ethical competence and leadership abilities.

Feminist Global Health Security Clare Wenham, 2021. Global health security focused on short-term response efforts fails to consider the differential impacts of outbreaks on women. *Feminist Global Health Security* highlights the ways in which women are disadvantaged by global health security policy through engagement with feminist international relations concepts of visibility, social and stratified reproduction, intersectionality, and structural violence. Wenham ultimately asks what would global health policy look like if it were to take gender seriously and how would this impact global disease control.
