Catharine A. MacKinnon, 2007-04-30 *Women's Lives Men's Laws* collects papers by MacKinnon from 1980 to the present in which she discusses the deep gender bias of American law and the changes to legislation on sexual harassment rape and battering to which she has contributed *Gender-Sensitive Norm Interpretation by Regional Human Rights Law Systems* Maria Sjöholm, 2017-09-25 In *Gender Sensitive Norm Interpretation by Regional Human Rights Law Systems* Maria Sjöholm examines the jurisprudence on gender based harm in the European Inter American and African regional human rights law systems from the viewpoint of feminist legal methods and theories By offering indicators relevant for gender sensitive norm interpretation Maria Sjöholm identifies inconsistencies in the current regional legal frameworks with regard to the protection of women concerning such violations as domestic violence human trafficking sexual violence forced sterilization and restrictions on other reproductive rights The book offers an in depth account not only of the manner in which such harm has been recognized through integration in general human rights law treaties but also the categorization of such as particular human rights norms by regional human rights courts and commissions Multiple Translation Communities in Contemporary Japan Beverley Curran, Nana Sato-Rossberg, Kikuko Tanabe, 2015-04-17 *Multiple Translation Communities in Contemporary Japan* offers a collection of essays that 1 deepens the understanding of the cultural and linguistic diversity of communities in contemporary Japan and how translation operates in this shifting context and circulates globally by looking at some of the ways it is theorized and approached as a significant social cultural or political practice and harnessed by its multiple agents 2 draws attention to the multi platform translations of cultural productions such as manga which are both particular to and popular in Japan but also culturally influential and widely circulated transnationally 3 poses questions about the range of roles translation has in the construction performance and control of gender roles in Japan and 4 enriches Translation Studies by offering essays that problematize critical notions related to translation In short the essays in this book highlight the diversity and ubiquity of translation in Japan as well as the range of methods being used to understand how it is being theorized positioned and practiced **Are Women Human?** Catharine A. MacKinnon, 2007-11-30 More than half a century after the Universal Declaration of Human Rights defined what a human being is and is entitled to MacKinnon asks Are women human yet She exposes the consequences and significance of the systematic maltreatment of women and its systemic condonation as she points toward fresh ways of targeting its toxic orthodoxies *Negotiating the Power of NGOs* Reem Wael, 2019-04-11 This book focuses on the socio political environment that allows for the impactful work of NGOs through their proximity to local communities The book showcases how this space has helped South African women's rights

NGOs to bring about crucial legal reforms which are quite relevant to women's lived realities. Recognizing its limitations, the South African state encourages NGOs to work freely on the ground and with state institutions to ameliorate the conditions for women's rights. The outcome of this state-NGO dynamic can be seen in the numerous human rights gains achieved by NGOs in general and by women's rights organizations specifically. In addition, vulnerable communities such as women living under customary law have a significantly better chance to access justice. The book then demonstrates the opposite scenario using Egypt as a case study where NGOs are viewed as a national threat and consequently operate under restrictive rules.

From Cape Town to Kabul Penelope Andrews, 2016-04-15 Using her experience of living under apartheid and witnessing its downfall and the subsequent creation of new governments in South Africa, the author examines and compares gender inequality in societies undergoing political and economic transformation. By applying this process of legal transformation as a paradigm, the author applies this model to Afghanistan. These two societies serve as counterpoints through which the book engages in a nuanced and novel way with the many broader issues that flow from the attempts in newly democratic societies to give effect to the promise of gender equality. Developing the idea of conditional interdependence, the book suggests a new approach based on the communitarian values which underpin newly democratic societies and would allow women's rights to gain momentum and reap greater benefits. Broad in its thematic approach, the book generates challenging and complex questions about the achievement of gender equality. It will be of interest to academics interested in gender and human rights, international and comparative law.

Freedom and Equality Clare Chambers, 2024-03-13 Should the state recognise gender? Can a liberal state discourage traditional family structures? Is women's sport compatible with equality of opportunity? Should feminists defend women's freedom to choose cosmetic surgery? Is genital cutting always wrong or is it only wrong for girls? *Freedom and Equality* investigates the contours of feminist liberalism, a philosophical approach that is appealing but elusive. Its hallmark is a liberalism that prioritises equality and individual autonomy while offering a rigorous critique of using individuals' choices as the measure of justice. Liberalism without feminism prioritises individual choice, a strategy that has played a crucial role in the liberal defence of freedom against authoritarianism and conformity. However, as feminism shows, relying on individual choice is insufficient to render an outcome just because people often choose things that harm or disadvantage themselves. From beauty norms to the gendered division of labour, from marriage to religion, women and men choose to arrange their lives in ways that perpetuate inequality. Often these choices are made in response to social norms, including unjust, unequal or harmful norms. It follows that relying on individual choice as a measure of justice actually leaves unjust social structures intact. Any defender of autonomy and equality must be prepared to criticise individuals' choices while prioritising individual choosers. The essays in this collection cover a wide range of issues fundamental to liberalism, to feminism, and to their intersection. They explore the foundational philosophical concepts of choice, equality of opportunity, ideology, and the state, and they engage directly with key political controversies, including women's sport, the state's recognition

of gender the regulation of cosmetic and cultural surgeries and state action to secure equality in the family Clare Chambers argues that feminist liberalism is both possible and necessary It is possible because the two doctrines of feminism and liberalism are compatible their fundamental values of freedom and equality aligned But feminism is necessary because liberalism has shown that it is simply not up to the task of securing gender equality and women s liberation alone **The Cambridge Companion to the Rule of Law** Jens Meierhenrich,Martin Loughlin,2021-08-12 Introduces students scholars and practitioners to the theory and history of the rule of law *Feminist Activism in Academia* Ellen C. Mayock,Domnica Radulescu,2010-09-07 The eleven essays making up this book unite scholars from various disciplines to explore how feminists live survive and thrive in academia The pieces investigate innovative ways that women academics occupy the space of the Academy as real living bodies while resisting being judged devalued or valued on the basis of their biological bodies Specific themes include abortion rights activism authority in the classroom feminist mentoring the role of women s studies programs division of labor and the role of theater and performance in enacting lasting change
