The New Domestic Automakers in the United States and Canada A.J. Jacobs, 2015-12-16 Over the past forty years state provincial and local governments in the United States and Canada have provided foreign automakers with approximately 4 80 billion in incentives in order to lure light vehicles assembly plants to their areas This has included tax abatements infrastructure construction land giveaways job training programs and other subsidies As of early 2015 ten foreign vehicle makers operated 20 light vehicles in developed North America Despite the fact that all ten of these automakers have pursued a similar pattern first exporting vehicles into the United States and Canada before launching vehicle plants in developed North America each has followed its own specific historical development path and has created its own unique growth trajectory This book provides a unique historical and qualitative review of these ten vehicle makers from their early beginnings to their export entry into the United States and or Canada through early 2015 In addition it chronicles the histories of more than a dozen former automakers and potential future foreign light motor vehicle assembly plants in the United States and Canada This includes the first foreign automaker to build its cars in the United States De Dion Bouton of France in July 1900 the early 20th Century endeavors of Fiat Mercedes and Rolls Royce and the present day hopes of Chinese and Indian automakers In the process the text also provides an assessment of the top competing states and sites for any future plants the possible incentives packages governments may offer to attract such facilities and an estimated incentive value for each automaker Overall the goal of this book is to expand the knowledge of policymakers at all tiers of government in the United States and Canada and to help them take a more holistic look at the pros and cons of attracting Automobile Manufacturing FDI It is hoped that this will enable them to make more informed decisions when pursuing a new foreign motor vehicle assembly plant Its findings should also prove informative to urban and regional planning political science sociology economics labor and international development scholars and students in North America and worldwide

Vincent Motorcycles Philippe Guyony, Very few motorcycles have carved a mark in history like the Vincent V twin from its arrival in 1946 and up to the present day On the road in club racing in drag races or competing for land speed records it dominated the motorcycle world leading to the famous catchphrase coined by the factory The World s Fastest Standard

Motorcycle It was a FACT NOT a slogan Images such as that of Rollie Free in swimming trunks laying flat on his works modified Black Shadow and taking the American motorcycle land speed record at Bonneville in 1948 have now passed into posterity In fact the big Vincent was so ahead of its time that it continued to compete successfully almost arrogantly in racing until the mid 1970s against modern bikes No other motorcycle in the world can claim this kind of achievement Following the premature ending of Vincent production Fritz Egli s 1967 Egli Vincent was the first chassis completely redesigned for a Vincent in 21 years Egli s machine inspired numerous builders for several generations and this book traces holistically the story of all those motorcycles in the broad context of the classic and modern history of the Vincent Understand how the flame of passion still burns brightly today **Road and Track** ,1988 **American Book Publishing Record** ,1981
