Women Poetry And Politics In Seventeenth Century Britain:

Women, Poetry, and Politics in Seventeenth-Century Britain Sarah C. E. Ross, 2015-02-26 Women Poetry and Politics in Seventeenth Century Britain offers a new account of women's engagement in the poetic and political cultures of seventeenth century England and Scotland based on poetry that was produced and circulated in manuscript Katherine Philips is often regarded as the first in a cluster of women writers including Margaret Cavendish and Aphra Behn who were political secular literary print published and renowned Sarah C E Ross explores a new corpus of political poetry by women offering detailed readings of Elizabeth Melville Anne Southwell Jane Cavendish Hester Pulter and Lucy Hutchinson and making the compelling case that female political poetics emerge out of social and religious poetic modes and out of manuscript based authorial practices Situating each writer in her political and intellectual contexts from early covenanting Scotland to Restoration England this volume explores women's political articulation in the devotional lyric biblical verse paraphrase occasional verse elegy and emblem For women excluded from the public political sphere these rhetorically modest genres and the figural language of poetry offered vital modes of political expression and women of diverse affiliations use religious and social poetics the tropes of family and household and the genres of occasionality that proliferated in manuscript culture to imagine the state Attending also to the transmission and reception of women's poetry in networks of varying reach Sarah C E Ross reveals continuities and evolutions in women's relationship to politics and poetry and identifies a female tradition of politicised poetry in manuscript spanning the decades before during and after the Civil Wars *Women's Prophetic Writings in Seventeenth-Century Britain* Carme Font, 2017-04-28 This study examines women's prophetic writings in seventeenth century Britain as the literary outcome of a discourse of social transformation that integrates religious conscience political participation and gender identity The following pages approach prophecy as a culture a language and a catalyst for collective change as the individual prophet conceptualized it While the corpus of prophetic writing continues to grow as the result of archival research this monograph complements our particular knowledge of women's prophecy in the seventeenth century with a global assessment of what makes speech prophetic in the first place and what are the differences and similarities between texts that fall into the prophetic mode These disparities and commonalities stand out in the radical language of prophecy as well as in the way it creates an authorial centre Examining how authorship is represented in several configurations of prophetic delivery such as essays on prophecy poetic prophecy spiritual autobiography and election narratives the different chapters consider why prophecy peaked in the years of the civil wars and how it evolved towards the eighteenth century The analyses extrapolate the peculiarities of each case study as being representative of a form of textually based activism that enabled women to gain a deeper understanding of themselves as creators of independent meaning that empowered them as individuals citizens and believers Liberty and the Politics of the Female Voice in Early Stuart England Christina Luckyj, 2022-03-03 The female voice was deployed by male and female authors alike to signal emerging

discourses of religious and political liberty in early Stuart England Christina Luckyj's important new study focuses critical attention on writing in multiple genres to show how in the coded rhetoric of seventeenth century religious politics the wife's conscience in resisting tyranny represents the rights of the subject and the bride's militant voice in the Song of Songs champions Christ's independent jurisdiction Revealing this gendered system of representation through close analysis of writings by Elizabeth Cary Aemilia Lanyer Rachel Speght Mary Wroth and Anne Southwell Luckyj illuminates the dangers of essentializing female voices and restricting them to domestic space Through their connections with parliament with factional courtiers or with dissident religious figures major women writers occupied a powerful oppositional stance in relation to early Stuart monarchs and crafted a radical new politics of the female voice [Women Writing in a Time of War, 1642-1689](#)

Karen Britland, 2025-05-26 [Women Writing in a Time of War 1642-1689](#) explores the stereotype of the apolitical woman who was nevertheless valuable as a messenger or secret agent during the English civil wars not least because her imagined lack of political acumen obscured her partisan behaviour It examines the interconnections between early modern men and women's cultural production analyzing the secret writing and communication strategies employed by agents and spies during the wars and arguing that an attention to clandestine modes of writing provides new insights into women's literary production during the conflict Encouraging us to understand such literary production differently Britland offers a new history of early modern political writing one deeply imbricated in but by no means exclusively focused on the literary work and experiences of women the non elite and the racially marginalized in early modern England and its colonial trade networks An attentiveness to the narrative strategies deployed by women writers during the English civil wars also helps us to think about the long histories subtending our own reading and writing practices Not only does the relative invisibility of female agents in our own historiography reveal a persistent tendency in contemporary criticism to overlook women's contributions to major historical events but the book argues the early modern instrumentalization of women's bodies particularly the bodies of women from non elite backgrounds who acted as couriers within elite communication networks acts as a caution against adopting contemporary methods of reading particularly computer aided reading that can downplay or ignore the contributions of women and non elite people This book makes a case for not separating our discussions of women from those of men nor for privileging analyses of the rich over those of the poor at the same time as it remains deeply embedded in the literary material and merchant cultures of later seventeenth century England **Women poets of the English Civil War**

Sarah C. E. Ross, Elizabeth Scott-Baumann, 2017-12-14 This anthology brings together extensive selections of poetry by the five most prolific and prominent women poets of the English Civil War period Anne Bradstreet Hester Pulter Margaret Cavendish Katherine Philips and Lucy Hutchinson It presents these poems in modern spelling clear text versions for classroom use and for ready comparison to mainstream editions of male poets work The anthology reveals the diversity of women's poetry in the mid seventeenth century across political affiliations and forms of publication Notes on the poems and

an introduction explain the contexts of Civil War religious conflict and scientific and literary development The anthology enables a more comprehensive understanding of seventeenth century women s poetic culture both in its own right and in relation to prominent male poets such as Marvell Milton and Dryden The Oxford Handbook of Early Modern Women's Writing in English, 1540-1700 Elizabeth Scott-Baumann,Danielle Clarke,Sarah C. E. Ross,2022 A Handbook on early modern women s writing that combines new developments in historical and critical research with theoretical and conceptual approaches Early Modern Women's Complaint Sarah C. E. Ross,Rosalind Smith,2020-07-23 This collection examines early modern women s contribution to the culturally central mode of complaint Complaint has largely been understood as male authored yet as this collection shows early modern women used complaint across a surprising variety of forms from the early Tudor period to the late seventeenth century They were some of the mode s first writers most influential patrons and most innovative contributors Together these new essays illuminate early modern women s participation in one of the most powerful rhetorical modes in the English Renaissance one which gave voice to political religious and erotic protest and loss across a diverse range of texts This volume interrogates new texts closet drama song manuscript based religious and political lyrics new authors Dorothy Shirley Scots satirical writers Hester Pulter Mary Rowlandson and new versions of complaint biblical satirical legal and vernacular Its essays pay specific attention to politics form and transmission from complaint s first circulation up to recent digital representations of its texts Bringing together an international group of experts in early modern women s writing and in complaint literature more broadly this collection explores women s role in the formation of the mode and in doing so reconfigures our understanding of complaint in Renaissance culture and thought *Feminist Formalism and Early Modern Women's Writing* Lara Dodds,Michelle M. Dowd,2022 Feminist Formalism and Early Modern Women s Writing reexamines the relationship between gender and form in early modern women s writing in essays that elaborate the specific literary strategies of women writers that examine women s debts to and appropriations of different literary genres and that offer practical suggestions for the teaching of women s texts in several different contexts Contributors explore the possibility of feminist formalism a methodology that both attends to the structural rhetorical and other formal techniques of a given text and takes gender as a central category of analysis This collection contends that feminist formalism is a useful tool for scholars of the early modern period and for literary studies more broadly because it marries the traditional questions of formalism including questions of style genre and literary history with the political and cultural concerns of feminist inquiry Contributors reposition works by important women writers such as Margaret Cavendish Hester Pulter Mary Wroth and Katherine Philips as central to the development of English literary tradition By examining a variety of texts written by women including recipes emblems exchanges and poetry Feminist Formalism and Early Modern Women s Writing contributes to existing scholarship on early modern women s writing while extending it in new and important directions **World-Making Renaissance Women** Pamela S. Hammons,Brandie R. Siegfried,2021-12-02 This

book answers three simple questions First what mistaken assumptions do we make about the early modern period when we ignore women s literary contributions Second how might we come to recognise women s influence on the history of literature and culture as well as those instances of outright pathbreaking mastery for which they are so often responsible Finally is it possible to see some women writers as world makers in their own right individuals whose craft cut into cultural practice so incisively that their shaping authority can be traced well beyond their own moment The essays in this volume pursue these questions through intense archival investigation intricate close reading and painstaking literary historical tracking tracing in concrete terms sixteen remarkable women and their world shaping activities
